History Of Medieval Christianity:

A History of Medieval Christianity Jeffrey Burton Russell, 1968 A Short History of Medieval Christianity G.R. Evans, 2017-05-02 What did people really believe in the Middle Ages Much of our sense of the medieval period has come down to us from the writings of the learned the abbots priors magnates scholastic theologians and others who between them and across Christendom controlled the machinery of church and state For G R Evans too much emphasis has been placed on a governing elite and too little on those the great mass of the semi literate and illiterate and the emergent middle classes who stood outside the innermost circles of ecclesiastical power privilege and education Her book finally gives proper weight to the neglected literature of demotic religion the lives of saints writings by those including lay women who had mystical experiences and lively texts containing stories for popular edification Ranging widely from the fall of Rome to the ideas of the Reformation the author addresses vital topics like the appeal of monasticism the lure of the Crusades the rise of the friars and the acute crisis of heresy As Evans reveals medieval Christianity was shaped above all by its promise of salvation or eternal perdition *Medieval Christianity* Kevin Madigan, 2015-01-01 A new narrative history of medieval Christianity spanning from A D 500 to 1500 focuses on the role of women in Christianity the relationships among Christians Jews and Muslims the experience of ordinary parishioners the adventure of asceticism devotion and worship and instruction through drama architecture and art *Medieval Christianity* Daniel E. MEDIEVAL CHRISTIANITY, 2020

Ancient, Medieval, and Modern Christianity Charles Guignebert, 1961 Christian scholar Charles Guignebert 1867-1939 lectured extensively on Christian history at the Sorbonne and conducted a 23 year long seminar on the New Testament In this extensive work Guignebert illuminates the evolution of Christianity over nineteen centuries

The Oxford Handbook of Medieval Christianity John H. Arnold, 2014-08-21 The Oxford Handbook of Medieval Christianity takes as its subject the beliefs practices and institutions of the Christian Church between 400 and 1500AD It addresses topics ranging from early medieval monasticism to late medieval mysticism from the material wealth of the Church to the spiritual exercises through which certain believers might attempt to improve their souls Each chapter tells a story but seeks also to ask how and why Christianity took particular forms at particular moments in history paying attention to both the spiritual and otherworldly aspects of religion and the material and political contexts in which they were often embedded This Handbook is a landmark academic collection that presents cutting edge interpretive perspectives on medieval religion for a wide academic audience drawing together thirty key scholars in the field from the United States the UK and Europe Notably the Handbook is arranged thematically and focusses on an analytical rather than narrative approach seeking to demonstrate the variety

change and complexity of religion throughout this long period and the numerous different ways in which modern scholarship can approach it While providing a very wide ranging view of the subject it also offers an important agenda for further study in the field *History of Christianity in the Middle Ages* William Ragsdale Cannon,1960 *An Age of Saints?* ,2013-02-06

The papers collected in this volume explore the strategies through which Christian authorities throughout the early medieval world both established and expressed their social position while at the same time drawing attention to the moments when those same processes were resisted and challenged Where previous studies of Christianisation have for the most part approached the issue of dissent through the continued existence of paganism and the various Christian heresies this volume suggests that the experience of doubt towards and articulation of resistance to the claims of Christian leaders extended far outside the circles of pagan intellectuals and dissident theologians The result is a view of Christianisation as far more piecemeal complex and incomplete than has often been acknowledged Contributors include Peter Turner Peter Kritzinger Collin Garbarino Philip Wood Ralph Lee Richard Payne Mike Humphreys Giorgia Vocino and Gerda Heydemann **The Germanization of Early Medieval Christianity** James C. Russell,1996 Discusses German influence on the development of early medieval Christianity **The Medieval Church** Joseph Lynch,2013-12-16 The Church was the central institution of the European Middle Ages and the foundation of medieval life Professor Lynch s admirable survey concentrating on the western church and emphasising ideas and trends over personalities meets a long felt need for a single volume comprehensive history designed for students and non specialists **Medieval Christianity** Captivating History,2024-02

History of the Christian Church: Medieval Christianity, from Gregory I to Gregory VII. A.D. 590-1073 Philip Schaff, 1960

Christendom and Christianity in the Middle Ages Adriaan Bredero, 1994 This is a print on demand book and is therefore non returnable Though buffeted on all sides by rapid and at times cataclysmic social political and economic change the medieval church was able to make adjustments that kept it from becoming simply a fossil from the past rather than an enduring institution of salvation The dynamic interaction between the medieval church and society gives form to this compelling and well informed study by Adriaan Bredero By considering medieval Christianity in full relation to its historical context Bredero elucidates complex medieval realities many of which run counter to common modern notions about the Middle Ages Bredero moves beyond the usual treatment of history by framing his overall discussion in terms of a fascinating and relevant question To what extent is Christianity today still molded by medieval society The book begins with an overview of religion and the church in medieval society from the early Christianization of Western Europe through the fifteenth century Bredero counters earlier romanticized assessments of the Middle Ages as a thoroughly Christian period by arriving at a definition of Christendom not in its original sense as the empire of Charlemagne but rather as the countries people and matters which stood under the influence of Christ

Religion in the History of the Medieval West John Van

Engen, 2023-05-31 These ten essays by John Van Engen situate religion in the history of medieval Western Europe as an unavoidable presence in everyday life as a conceptual framework for social and political life as a force integral to its historical dynamics Four of the essays are bibliographical and retrospective in nature reviewing the field broadly but also pointing toward a more dialectical approach to understanding the interaction of religion and society in the European middle ages Other studies deal with large topics usually subsumed under the abstract term Christianization They grapple with learned sources as well as those associated with popular religion and show what can be gained from an imaginative use of all that lawyers and theologians said about religion in their society The essays finally look for the quality and dynamic of change even inventiveness released by religious action and conviction in medieval European society
