**The Captains** Robert Green, 2023-02-15 A young boy's adventure of serving on a merchant ship in the mid 1600s begins only by chance when he must leave London at 12 years old and move to his grandfather's house near the sea. These changes open an entirely new life for him where there is world travel excitement and a pathway to success. The adventures take him to lands he had barely begun to study in school yet once exposed he knew very soon that this would be the life for him. An amazing life where an opportunity presented itself and even at 12 years of age he recognized it as something exciting, new yet challenging, lonely at times and frightening at times yet he was able to transcend his fears and excel. His will to perform every job to the best of his ability along with his insatiable thirst for learning allows him recognition at the highest level. This quest provides for further opportunity as it leads to a serendipitous meeting that changes his life even more. This book and its stories were created through my dreams where the question that begs for an answer is: what would I have been if I lived in 1650? With multiple dreams spawning this story, the next question to be answered is: Are these dreams just a collection of stories I have read or seen or is this of my actual past? Regardless of the answer, the adventures were all that a growing boy could dream about living in places he had never been in a time he had never known.

School Library Journal: On this here ship we follow the pirate's code. No frolikin in the bilges, no songs about scurvy, and most important, each buccaneer must keep his pistol ready for action at all times. Break the code, me bucko, and you'll be forced to walk the plank. In *The Big Book of Pirate Stuff*, Captain Michael MacLeod and Jamaica Rose teach the fine art of pirateering from plundering, pillaging, and gambling to digging for buried treasure. A dabble of history, a smattering of activities, and a healthy dose of derring-do make this book a must read for aspiring pirates.
