Understanding William S. Burroughs Gerald Alva (Al) Miller, 2020-02-05 Through critical readings Gerald Alva Miller Jr examines the life of William S Burroughs and the evolution of his various radical styles not just in writing but also in audio film and painting Although Burroughs remains tied to the Beat Generation his works prove more revolutionary Miller argues that Burroughs more than any other author ushered in the era of both postmodern fiction and poststructural philosophy Through this study Miller situates Burroughs within the larger countercultural movements that began in the 1950s when his novels became influential because of their examination of various control systems from sex and drugs to global or even intergalactic conspiracies Understanding William S Burroughs begins by considering his early straightforward narratives Despite being more stylistically conventional they broke new ground with their depictions of junkies gay people and others marginalized by society The publication of Naked Lunch shattered all literary paradigms in terms of form and content Naked Lunch and the cut up novels recordings films and art that followed constitute one of the twentieth century's most sustained and methodical aesthetic experiments placing Burroughs alongside Franz Kafka Jorge Luis Borges James Joyce Samuel Beckett Vladimir Nabokov and Thomas Pynchon in terms of both innovation and influence Burroughs eventually turned his attention toward imagining methods of using the control machinery against itself Often considered his masterpiece the Red Night Trilogy of the 1980s ranges across time and space and life and death in its quest to discover the ultimate form of freedom His antiestablishment stance and virulent attacks on various types of oppression have caused Burroughs to remain a highly influential figure to each new generation of authors artists musicians and philosophers The hippies punks and cyberpunks were all heavily indebted to the man whom many people called el hombre invisible and his works prove more relevant than ever in the twenty first century

Jane Campion Bernadette Wegenstein, 2025-01-23 Throughout films and television series like The Piano Bright Star In the Cut and Top of the Lake Jane Campion has constantly explored gender subjectivity and narrative representation In an intensive engagement with her cross medium career Bernadette Wegenstein examines how

Campion gives a tangible and visible form to the female gaze in her exploration deployment and ultimately her subversion of highly formalized genres such as the period piece the thriller and the procedural drama Keeping a strict focus on her directorial practice and specifically on the capacity of her cinematography to induce both empathy and estrangement this vital new book shows how Campion is engaged in a permanent artistic and intuitive exposition of a profoundly feminist philosophical vision Wegenstein s work will be invaluable to scholars and students in gender and women s studies film studies and those on philosophy and film courses

Burroughs Unbound S. E. Gontarski,2021-11-18 In addition to contributing significantly to the growing field of Burroughs scholarship Burroughs Unbound also directly engages with the growing fields of textual studies archival research and genetic criticism asking crucial questions thereby about the nature of archives and their relationship to a writer s work These questions about the archive concern not only the literary medium In the 1960s and 1970s Burroughs collaborated with filmmakers sound technicians and musicians who helped re contextualized his writings in other media Burroughs Unbound examines these collaborations and explores how such multiple authorship complicates the authority of the archive as a final or complete repository of an author s work It takes Burroughs seriously as a radical theorist and practitioner who critiqued drug laws sexual practice censorship and what we today call a society of control More broadly his work continues to challenge our common assumptions about language authorship textual stability and the archive in its broadest definition

The Novels of Theodore Dreiser Donald Pizer,1976-06-08 *The Novels of Theodore Dreiser* was first published in 1976 Minnesota Archive Editions uses digital technology to make long unavailable books once again accessible and are published unaltered from the original University of Minnesota Press editions Relying heavily on the manuscripts and letters in the Dreiser Collection of the University of Pennsylvania Library Professor Pizer seeks to establish the facts of the sources and composition of each of Dreiser s eight novels and to study the themes and form of the completed works In this study he relates what can be discovered about the

factual reality of a novel to its imaginative reality His interpretation of the novels avoids the suggestion that there is a single overriding theme or direction in Dreiser s work and emphasizes that Dreiser deserves examination primarily on the basis of the individuality and worth of each of his novels A separate chapter is devoted to each of the novels Sister Carrie Jennie Gerhardt The Genius The Financier The Titan An American Tragedy The Bulwark and The Stoic **Afterlife and Narrative in Contemporary Fiction** Alice Bennett,2012-07-06 Afterlife and Narrative explores why life after death is such a potent cultural concept today and why it is such an attractive prospect for modern fiction The book mines a rich vein of imagined afterlives from the temporal experiments of Martin Amis s Time s Arrow to narration from heaven in Alice Sebold s The Lovely Bones *The Art of Bookbinding: A practical treatise, with plates and diagrams* Joseph William Zaehnsdorf,2019-11-22 In The Art of Bookbinding A Practical Treatise with Plates and Diagrams Joseph William Zaehnsdorf meticulously delves into the intricate craft of bookbinding presenting a comprehensive guide that marries practicality with artistry This seminal work features detailed plates and diagrams that illuminate the various techniques involved from basic to advanced methods catering to both novice bookbinders and seasoned artisans Zaehnsdorf s prose strikes a balance between technical precision and accessible language immersing the reader in the world of bookbinding while situating his work within the broader context of 19th century craft literature which emphasized skill acquisition and creative expression in artisanal trades Joseph William Zaehnsdorf a master craftsman and renowned bookbinder of the Victorian era brought to bear his extensive practical experience and passion for the art in this treatise His background in binding and restoration combined with his commitment to elevating the craft informed his goal of teaching others the nuanced techniques that define high quality bookbinding Zaehnsdorf s insights reflect a dedication to preserving not only the physical integrity of books but also their cultural significance This invaluable resource is highly recommended for anyone interested in the preservation of literature and the tactile art of bookbinding Whether you are a hobbyist looking to try your hand at crafting exquisite bindings or an academic seeking a historical perspective on the art Zaehnsdorf s treatise will inspire and educate making it an essential addition to the library of any bibliophile [Bring on the Books for Everybody](#) Jim Collins,2010-06-30 A look at how technology and literary visual and consumer cultures have combined over the past two decades to transform a once solitary print based experience into an exuberantly social activity **The Dry Goods Reporter** ,1914 **Sharp Cut** Steven H. Gale,2014-07-11 While best known as one of the most important playwrights of the twentieth century Harold Pinter 1930 2008 had an equally successful career writing screenplays His collaborations with director Joseph Losey garnered great attention and esteem and two of his screenplays earned Academy Award nominations The French Lieutenant s Woman 1981 and Betrayal 1983 He is also credited for writing an unproduced script to remake Stanley Kubrick s 1962 adaptation of Lolita Much scholarship has been dedicated to the subject of Pinter as playwright but the rich landscape of his work in film has been left largely undisturbed In Sharp Cut Harold Pinter s Screenplays and the Artistic Process Steven H Gale the world s

foremost Pinter scholar analyzes Pinter's creative process from initial conception to finished film. Gale makes careful point by point comparisons of each stage in the screenplay's creation: the source material, the adaptations themselves, and the films made from the scripts, in order to reveal the meaning behind each film script and to explain the cinematic techniques used to express that meaning. Unlike most Pinter scholars who focus almost solely on the written word, Gale devotes discussion to the cinematic interpretation of the scripts through camera angles and movement, cutting, and other techniques. Pinter does not merely convert his stage scripts to screenplays; he adapts the works to succeed in the other medium, avoiding elements of the live play that do not work onscreen and using the camera's focusing operations in ways that are not possible on the stage. As Pinter's career progressed and his writing evolved, screenplays became for him an increasingly vital means of creative expression. *Sharp Cut* is the first study to fully explore this important component of the Pinter canon. Posthumanism in the Novels of Kurt Vonnegut Matter That Complains So re examines the prevailing critical consensus that Kurt Vonnegut was a humanist writer. While more difficult elements of his work have often been the subject of scholarly attention, the tendency amongst critics writing on Vonnegut is to disavow them or to subsume them within a liberal humanist framework. When Vonnegut's work is read from a posthumanist perspective, however, the productive paradoxes of his work are more fully realised. Drawing on New Materialist, Eco-Critical, and Systems Theory methodologies, this book highlights posthumanist themes in six of Vonnegut's most famous novels and emphasises the ways in which Vonnegut troubles human/non-human, natural/artificial, and material/discursive hierarchical binaries. *The Cut and the Building of Psychoanalysis: Volume II* Carlo Bonomi, 2017-07-14

The Cut and the Building of Psychoanalysis: Volume II explores how the unformulated trauma associated with surgery performed on Emma Eckstein's genitalia and the hallucinations that Eckstein experienced influenced Freud's self-analysis, oriented his biological speculations, and significantly influenced one of his closest followers, Sándor Ferenczi. This thought-provoking and incisive work shows how Ferenczi filled the gaps left open in Freud's system and proved to be a useful example for examining how such gaps are transmitted from one mind to another. The first of three parts explores how the mind of the child was viewed prior to Freud, what events led Freud to formulate and later abandon his theory of actual trauma, and why Freud turned to the phylogenetic past. Bonomi delves deeper into Freud's self-analysis in part two and reexamines the possible reasons that led Freud to discard the impact and effects of trauma. The final part explores the interpersonal effects of Freud's self-dissection, arguing that Ferenczi managed to dream aspects of Freud's self-dissection dream on various occasions, which helped him to incorporate a part of Freud's psyche that Freud had himself failed to integrate. This book questions the subject of a woman's body using discourse between Freud and Ferenczi to build a

more integrated and accurate narrative of the origins and theories of psychoanalysis It will therefore be of interest to psychoanalysts psychotherapists psychologists and social scientists as well as historians of medicine science and human rights Bonomi's work introduces new arguments to the contemporary debate surrounding Female Genital Mutilation

Rewriting the North Chloe Ashbridge, 2023-05-15 This book shows how twenty first century writing about Northern England imagines alternative democratic futures for the region and the English nation signalling the growing awareness of England as a distinct and variegated political formation In 2016 the Brexit vote intensified ongoing constitutional tensions throughout the UK which have been developing since the devolution of Scotland Wales and Northern Ireland in 1997 At the same time British devolution developed a distinctively cultural registration as a surrogate for parliamentary representation and an attempt to disrupt the status of London as Britain's cultural epicentre *Rewriting the North* shifts this debate in a new direction examining Northern literary preoccupation with devolution's constitutional implications Through close readings of six contemporary authors Sunjeev Sahota Sarah Hall Anthony Cartwright Adam Thorpe Fiona Mozley and Sarah Moss this book argues that literary engagement with the North emphasises regional devolution's limited constitutional charge calling instead for an urgent abandonment of the British centralised state form
