*The Old Testament in the Layman's Language* Leroy Stout, 2024-02-13 Roy presents information that allows the reader to retain what is read For example the major prophets can be remembered using the term JEDI from the Star Wars movie J Jeremiah E Ezekiel D Daniel I Isaiah Roy reveals some of God's humor 1 Kings 11 29 31 Jereboam meets the prophet Ahiah who demonstrates that Jereboam will rule 10 of the 12 tribes of Israel by cutting Jereboam's new garment into 12 pieces and giving Jereboam 10 There he stands in his diaper holding 10 rags Try explaining that to a stranger The Bible does tell of more serious moments such as 2 Kings 15 During the captivity All 18 kings of the northern kingdom were bad The last five kings became kings by murdering their predecessor We could say the KKK existed i e Kings Killing Kings Some critical information is not obvious Who is us in Genesis 1 26 I And God said let us make man in our image Us is the trinity God Jesus The Holy Spirit They are mentioned in the first chapter of the bible Roy brings to life the actions of biblical characters in an easy to understand manner that helps to understand scripture Lets consider the Noah flood The flood occurred 10 generations after Adam The average age before the flood was 858 and after the flood it was 317 In order to compare this to today we divide each side by 10 and get 86 and 32 ie people died at 32 instead of the normal 86 Why Solar radiation We sent wasp larvae into space and proved this theory The windows of heaven were the cooling clouds of a new planet It had not rained since God created earth Gen 2 5 Water came from two directions rain and flooding ie Genesis 7 11 Roy also covers the activities between the Old and New testaments including Persia Greece Macabeans and Rome

**Language** Stanislav Segert, 2023-11-15 In 1929 the first cuneiform tablet inscribed with previously unknown signs was found during archeological excavations at Ras Shamra ancient Ugarit in northern Syria Since then a special discipline sometimes called Ugaritology has arisen The impact of the Ugaritic language and of the many texts written in it has been felt in the study of Semitic languages and literatures in the history of the ancient Near East and especially in research devoted to the Hebrew Bible In fact knowledge of Ugaritic has become a standard prerequisite for the scientific study of the Old Testament The Ugaritic texts written in the fourteenth and thirteenth centuries B c represent the oldest complex of connected texts in any West Semitic language now available 1984 Their language is of critical importance for comparative Semitic linguistics and is uniquely important to the critical study of Biblical Hebrew Ugaritic which was spoken in a northwestern corner of the larger Canaanite linguistic area cannot be considered a direct ancestor of Biblical Hebrew but its conservative character can help in the reconstruction of the older stages of Hebrew phonology word formation and inflection These systems were later that is during the period in which the biblical texts were actually written complicated by phonological and other changes The Ugaritic texts are remarkable however for more than just their antiquity and their linguistic witness They present a remarkably vigorous and mature literature one containing both epic cycles and shorter poems The poetic structure of Ugaritic is noteworthy among other reasons for its use of the parallelism of members that also characterizes such ancient and archaizing poems in the Hebrew Bible as the Song of Deborah in Judges 5 the Song of the Sea in Exodus 15 Psalms 29 68 and 82 and Habakkuk 3 Textual sources and their rendering The basic source for the study of Ugaritic is a corpus of texts written in an alphabetic cuneiform script unknown before 1929 this script represents consonants fully and exactly but gives only limited and equivocal indication of vowels Our knowledge of the Ugaritic language is supplemented by evidence from Akkadian texts found at Ugarit and containing many Ugaritic words especially names written in the syllabic cuneiform script Scholars reconstructing the lost language of Ugarit draw finally on a wide variety of comparative linguistic data data from texts not found at Ugarit as well as from living languages Evidence from Phoenician Hebrew Amorite Aramaic Arabic Akkadian Ethiopic and recently also Eblaite can be applied to good effect For the student as well as for the research scholar it is important that the various sources of Ugaritic be distinguished in modern transliteration or transcription Since many of the texts found at Ugarit are fragmentary or physically damaged it is well for students to be clear about what portion of a text that they are reading actually survives and what portion is a modern attempt to fill in the blanks While the selected texts in section 8 reflect the state of preservation in detail in the other sections of the grammar standardized forms are presented based on all available evidence In 1929 the first cuneiform tablet inscribed with previously unknown signs was found during archeological excavations at Ras Shamra ancient Ugarit in northern Syria Since then a special discipline sometimes called Ugaritology has arisen The impact

By Ralph Barnes** ,1821 *God's Righteousness and Justice in the Old Testament* Jože Krašovec,2022-09-06 A semantic study of God s righteousness and justice in the Hebrew Bible that draws exegetical theological and philosophical conclusions about the character of God and God s relationship with humanity God s work of creation and salvation for the good of Israel humanity and the world manifests the nature of God s being Thus if we can understand God s characteristics of righteousness and justice we can better understand God In the Hebrew Bible these aspects of God are not expressed by abstract concepts but by semantic elements within literary structures From this premise Jo e Kra ovec undertakes the present study to put semantics into dialogue with exegesis and theology to illuminate exactly how God s righteousness and justice in the Old Testament should be understood In the first part of the book Kra ovec analyzes occurrences of the Hebrew root dq meaning righteous and other synonyms working systematically through the entire Old Testament canon In the second part he builds off this lexical study with a more broadly exegetical theological and philosophical exploration of guilt punishment mercy forgiveness and reconciliation Kra ovec concludes among other things that the biblical writers use righteousness as an expression of God s affection for faithful people especially those in distress because of persecution God s righteousness therefore exists in the Hebrew Bible in relation to the righteousness of human individuals and communities Justice whether in the form of forgiveness for the penitent or punishment for those who have hardened their hearts against God is always carried out with the goal of building better community among God s people **The Old Testament and Christian Faith** Bernhard W.
