## **Lesser Evils:**

*The Lesser Evil* Michael Ignatieff, 2005-09-04 Must we fight terrorism with terror match assassination with assassination and torture with torture Must we sacrifice civil liberty to protect public safety In the age of terrorism the temptations of ruthlessness can be overwhelming But we are pulled in the other direction too by the anxiety that a violent response to violence makes us morally indistinguishable from our enemies There is perhaps no greater political challenge today than trying to win the war against terror without losing our democratic souls Michael Ignatieff confronts this challenge head on with the combination of hard headed idealism historical sensitivity and political judgment that has made him one of the most influential voices in international affairs today Ignatieff argues that we must not shrink from the use of violence that far from undermining liberal democracy force can be necessary for its survival But its use must be measured not a program of torture and revenge And we must not fool ourselves that whatever we do in the name of freedom and democracy is good We may need to kill to fight the greater evil of terrorism but we must never pretend that doing so is anything better than a lesser evil In making this case Ignatieff traces the modern history of terrorism and counter terrorism from the nihilists of Czarist Russia and the militias of Weimar Germany to the IRA and the unprecedented menace of Al Qaeda with its suicidal agents bent on mass destruction He shows how the most potent response to terror has been force decisive and direct but just as important restrained The public scrutiny and political ethics that motivate restraint also give democracy its strongest weapon the moral power to endure when the furies of vengeance and hatred are spent The book is based on the Gifford Lectures delivered at the University of Edinburgh in 2003

*The Least of All Possible Evils* Eyal Weizman, 2012-06-19 The principle of the lesser evil the acceptability of pursuing one exceptional course of action in order to prevent a greater injustice has long been a cornerstone of Western ethical philosophy From its roots in classical ethics and Christian theology to Hannah Arendt's exploration of the work of the Jewish Councils during the Nazi regime Weizman explores its development in three key transformations of the problem the defining intervention of Mdecins Sans Frontieres in mid 1980s Ethiopia the separation wall in Israel Palestine and international and human rights law in Bosnia Gaza and Iraq Drawing on a wealth of new research Weizman charts the latest manifestation of this age old idea In doing so he shows how military and political intervention acquired a new humanitarian acceptability and legality in the late twentieth and early twenty first centuries

**The Lesser Evil** Helmut Dubiel, Gabriel Motzkin, 2004-04-22 This book comprises 14 essays by scholars who disagree about the methods and purposes of comparing Nazism and Communism The central idea is that if these two different memories of evil were to develop in isolation their competition for significance would distort the real evils both movements propagated Whilst many reject this comparison because they feel it could relativize the evil of one of these movements the claim that a political movement is uniquely evil can only be made by comparing it to another movement How do these issues affect postwar interrelations between memory and history Are there tensions between the ways postwar societies remember these atrocities

and the ways in which intellectuals and scholars reconstruct what happened Nazism and Communism have been constantly compared since the 1920s A sense of the ways in which these comparisons have been used and abused by both Right and Left belongs to our common history These twentieth century evils invite comparison if only because of their traumatic effects We have an obligation to understand what happened and we also have an obligation to understand how we have dealt with it

Early American Proverbs and Proverbial Phrases Bartlett Jere Whiting, 1977 p B J Whiting savors proverbial expressions and has devoted much of his lifetime to studying and collecting them no one knows more about British and American proverbs than he The present volume based upon writings in British North America from the earliest settlements to approximately 1820 complements his and Archer Taylor s Dictionary of American Proverbs and Proverbial Phrases 1820 1880 It differs from that work and from other standard collections however in that its sources are primarily not literary but instead workaday writings letters diaries histories travel books political pamphlets and the like The authors represent a wide cross section of the populace from scholars and statesmen to farmers shopkeepers sailors and hunters Mr Whiting has combed all the obvious sources and hundreds of out of the way publications of local journals and historical societies This body of material because it covers territory that has not been extracted and compiled in a scholarly way before can justly be said to be the most valuable of all those that Whiting has brought together according to Albert B Friedman What makes the work important is Whiting s authority a proverb or proverbial phrase is what BJW thinks is a proverb or proverbial phrase There is no objective operative definition of any value no divining rod his tact feel experience determine what s the real thing and what is spurious

*Politics of the Lesser Evil* Anton Pelinka, 2018-04-17 In his pathbreaking book Leadership James MacGregor Burns defines a kind of leadership with an indistinguishable personal impact on society He calls this transformatory leadership and sees it as more than routine and calculable responses to demands In fact he argues the more stable a liberal democracy the less freedom of action for transformatory leadership Anton Pelinka uses a wellspring of historical fact to argue that politics always means having to choose between the lesser of two evils and that democracy reduces any possibility of personal leadership According to Pelinka Jaruzelski s politics of democratization in Poland in the 1980s which led to the first free and competitive elections in a communist system illustrate personal leadership hampered by democracy Jaruzelski initiated the roundtable process that transformed Poland into a democracy yet this process ultimately ended with his abdication Pelinka further emphasizes contradictions between transformatory leadership and democracy by comparing the leadership styles of Hitler Stalin and Mao He describes collaboration resistance and tensions between domestic and international leadership using the American examples of Presidents Wilson Roosevelt Kennedy Johnson and Nixon and the European examples of Petain and Churchill Pelinka then turns to the tragic fate of the Judenrate under the Nazi regime to illustrate the lesser evil approach He closes with a discussion of moral leadership and how abstaining from office just as Gandhi and King did may be particularly suited to stable democracies Pelinka s unique use of rich empirical evidence from

twentieth century history is this volume's hallmark. He is critical of mainstream political theory and its neglect of deviant examples of democracies such as Switzerland, Italy, and Japan, where there is traditionally much less emphasis placed on leadership. Pelinka's noteworthy study will be essential reading for political scientists and theorists, political philosophers, and political sociologists with special interest in political ethics and contemporary historians. *Autonomy and Self-Respect* Thomas E. Hill, Jr., 1991-07-26. This stimulating collection of essays in ethics eschews the simple exposition and refinement of abstract theories. Rather, the author focuses on everyday moral issues often neglected by philosophers and explores the deeper theoretical questions which they raise. Such issues are: is it wrong to tell a lie to protect someone from a painful truth? Should one commit a lesser evil to prevent another from doing something worse? Can one be both autonomous and compassionate? Other topics discussed are servility, weakness of will, suicide, obligations to oneself, snobbery, and environmental concerns. A feature of the collection is the contrast of Kantian and utilitarian answers to these problems. The essays are crisply and lucidly written and will appeal to both teachers and students of philosophy. **Moral Puzzles and Legal Perplexities** Heidi M. Hurd, 2019. Engages with the life and work of Larry Alexander to explore puzzles and paradoxes in legal and moral theory. **International Perspectives on Rethinking Evil in Film and Television** Tüysüz, Dilan, 2020-12-22. Aestheticization of evil is a frequently used formula in cinema and television. However, the representation of evil as an aesthetic object pushes it out of morality. Moral judgments can be pushed aside when evil is aestheticized in movies or TV series because there is no real victim. Thus, situations such as murder or war can become a source of aesthetic pleasure. Narratives in cinema and television can sometimes be based on a simple good/evil dichotomy and sometimes they can be based on individual or social experiences of evil and follow a more complicated method. Despite the various ways evil is depicted, it is a moral framework in film and television that must be researched to study the implications of aestheticized evil on human nature and society. *International Perspectives on Rethinking Evil in Film and Television* examines the changing representations of evil on screen in the context of the commonness, normalization, aestheticization, marginalization, legitimization, or popularity of evil. The chapters provide an international perspective of the representations of evil through an exploration of the evil tales or villains in cinema and television. Through looking at these programs, this book highlights topics such as the philosophy of good and evil, the portrayal of heroes and villains, the appeal of evil, and evil's correspondence with gender and violence. This book is ideal for sociologists, professionals, researchers, and students working or studying in the field of cinema and television, and practitioners, academicians, and anyone interested in the portrayal and aestheticization of evil in international film and television. **Climate Ethics** Stephen Gardiner, 2010-07-30. This collection gathers a set of seminal papers from the emerging area of ethics and climate change. Topics covered include human rights, international justice, intergenerational ethics, individual responsibility, climate economics, and the ethics of geoengineering. *Climate Ethics* is intended to serve as a source book for general reference and for university courses that include a focus on the human

dimensions of climate change It should be of broad interest to all those concerned with global justice environmental science and policy and the future of humanity *Ethics and the Contemporary World* David Edmonds,2019-05-23 Arguments about ethics often centre on traditional questions of for instance euthanasia and abortion Whilst these questions are still in the foreground recent years have seen an explosion of new moral problems Moral and political clashes are now as likely to be about sexuality and gender and the status of refugees immigrants and borders or the ethics of social media safe spaces disability and robo ethics How should we approach these debates What are the issues at stake What are the most persuasive arguments Edited by best selling philosophy author David Edmonds *Ethics and the Contemporary World* assembles a star studded line up of philosophers to explore twenty five of the most important ethical problems confronting us today They engage with moral problems in race and gender the environment war and international relations global poverty ethics and social media democracy rights and moral status and science and technology Whether you want to learn more about the ethics of poverty food extremism or artificial intelligence and enhancement this book will help you understand the issues sharpen your perspective and hopefully make up your own mind *Essays in Understanding, 1930-1954* Hannah Arendt,2011-04-13 Few thinkers have addressed the political horrors and ethical complexities of the twentieth century with the insight and passionate intellectual integrity of Hannah Arendt She was irresistibly drawn to the activity of understanding in an effort to endow historic political and cultural events with meaning *Essays in Understanding* assembles many of Arendt's writings from the 1930s 1940s and into the 1950s Included here are illuminating discussions of St Augustine existentialism Kafka and Kierkegaard relatively early examinations of Nazism responsibility and guilt and the place of religion in the modern world and her later investigations into the nature of totalitarianism that Arendt set down after *The Origins of Totalitarianism* was published in 1951 The body of work gathered in this volume gives us a remarkable portrait of Arendt's developments as a thinker and confirms why her ideas and judgments remain as provocative and seminal today as they were when she first set them down *Mapping American Criminal Law* Paul H. Robinson,Tyler Scot Williams,2018-06-15 Containing 40 visually coded maps of the fifty states this book offers an unprecedented look at America's diverse legal landscape This first of its kind volume sketches the diversity implicit in United States criminal law doctrine through its examination of a range of criminal laws pertaining to murder sexual assault drug offenses the insanity defense and more and the way in which different states deal with those issues In addition to providing insights into the most widely invoked standards in criminal law it raises awareness of the enormous discrepancies among the criminal laws of states documenting them using dozens of visually coded maps that showcase geographic political and socioeconomic differences to explain patterns of agreement and disagreement *Mapping American Criminal Law Variations Across the 50 States* is for political scientists criminologists sociologists legal scholars policy advisors legislators lawyers judges and scholars and students of these fields In addition each chapter is highly accessible to laypersons and includes an explanation of the subject matter as well as explanations of

the various approaches to criminal law taken by states      *Moral Dilemmas in Medieval Thought* M. V. Dougherty, 2011-04-14

The history of moral dilemma theory often ignores the medieval period overlooking the sophisticated theorizing by several thinkers who debated the existence of moral dilemmas from 1150 to 1450 In this book Michael V Dougherty offers a rich and fascinating overview of the debates which were pursued by medieval philosophers theologians and canon lawyers illustrating his discussion with a diverse range of examples of the moral dilemmas which they considered He shows that much of what seems particular to twentieth century moral theory was well known long ago especially the view of some medieval thinkers that some forms of wrongdoing are inescapable and their emphasis on the principle choose the lesser of two evils His book will be valuable not only to advanced students and specialists of medieval thought but also to those interested in the history of ethics      *Who is Who?* Kevin S. Decker, 2013-09-03 When you have been wandering the cosmos from one end of eternity to another for nearly a thousand years what s your philosophy of life the universe and everything Doctor Who is 50 years old in 2013 Through its long life on television and beyond it has inspired much debate due to the richness and complexity of the metaphysical and moral issues that it poses This is the first in depth philosophical investigation of Doctor Who in popular culture From 1963 s *An Unearthly Child* through the latest series it considers continuity and change in the pictures that the programme paints of the nature of truth and knowledge science and religion space and time good and evil including the uncanny the problem of evil the Doctor s complex ethical motivations questions of persisting personal identity in the Time Lord processes of regeneration the nature of time travel through wibbly wobbly timey wimey stuff how quantum theory affects our understanding of time and the nature of the mysterious and irrational in the Doctor s universe      [Philosophical Perspectives on the 'War on Terrorism'](#) Gail M. Presbey, 2007 This book responds to the Bush Administration position on the war on terror It examines preemption within the context of just war justification for the United States led invasion of Iraq with some authors charging that its tactics serve to increase terror global terrorism and concepts such as reconciliation Islamic identity nationalism and intervention      *The Politics of Social Ecology* Janet Biehl, Murray Bookchin, 1998 Since his youth in the 1930s Murray Bookchin has devoted his life to looking for ways to replace today s authoritarian society and the system that immiserates most of humanity and poisons the natural world with a more enlightened and rational alternative A close student of the European enlightenment he is best known for introducing the idea of ecology to the political left and for first positing that a liberatory society would also have to be an ecological society Over the course of several decades libertarian municipalism the political dimension of the broader body of ideas known as social ecology was developed by this world famous social theorist      **Hollow Land: Israel's Architecture of Occupation** Eyal Weizman, 2012-08-07 Acclaimed exploration of the political space created by Israel s colonial occupation In this journey from the deep subterranean spaces of the West Bank and Gaza to their militarized airspace Eyal Weizman unravels Israel s mechanisms of control and the transformation of the Occupied Territories into an artifice in which all natural and built features function as the instruments

of occupation Weizman identifies the ideas behind this phenomenon and traces their development from the influence of archaeology on urban planning Ariel Sharon's reconceptualization of military defense during the 1973 war through the planning and architecture of the settlements to the contemporary Israeli discourse and practice of urban warfare and airborne targeted assassinations In exploring Israel's methods to transform the landscape and the built environment themselves into tools of domination and control Hollow Land lays bare the political system at the heart of this complex and terrifying project of late modern colonial occupation Hollow Land Eyal Weizman, 2024-10-01 How does Israel extend its control over Palestinian lands From the tunnels of Gaza to the militarized airspace of the Occupied Territories Eyal Weizman unravels the mechanisms of control and how they have transformed Gaza and the West Bank into a war zone This is essential reading for understanding how architecture and infrastructure are used as lethal weapons in the formation of Israel In this new edition Weizman explains how the events following the invasion of Gaza in October 2023 bear witness to the continuing policies of oppression He details how this book became a foundational text for Forensic Architecture

**Criminalization** Antony Duff, Lindsay Farmer, Sandra E. Marshall, Massimo Renzo, Victor Tadros, 2014 The Criminalization series arose from an interdisciplinary investigation into criminalization focusing on the principles that might guide decisions about what kinds of conduct should be criminalized and the forms that criminalization should take Developing a normative theory of criminalization the series tackles the key questions at the heart of the issue what principles and goals should guide legislators in deciding what to criminalize How should criminal wrongs be classified and differentiated How should law enforcement officials apply the law's specifications of offences The fourth book in the series examines the political morality of the criminal law exploring general principles and theories of criminalization Chapters provide accounts of the criminal law in the light of ambitious theories about moral and political philosophy republicanism and contractarianism or reflect upon on the success of important theories of criminalization by viewing them in a novel light Ideas that are fundamental to any complete theory of the criminal law liberty harm and the effect on victims are investigated in depth Sociological investigation of the criminal law grounds a critical investigation into the principles of criminalization both as a legislative matter and with respect to criminalization practices in contemporary and historical contexts The volume broadens our conceptions of the theory of criminalization and clarifies the role of the series in the development of this theory It is essential reading for all interested in legal political and social theories of criminalization

**Physician Assisted Suicide** Margaret P. Battin, Rosamond Rhodes, Anita Silvers, 2015-10-15 Physician Assisted Suicide is a cross disciplinary collection of essays from philosophers physicians theologians social scientists lawyers and economists As the first book to consider the implications of the Supreme Court decisions in *Washington v Glucksburg* and *Vacco v Quill* concerning physician assisted suicide from a variety of perspectives this collection advances informed reflective vigorous public debate

## **Lesser Evils** Book Review: Unveiling the Power of Words
