Labeling Madness:

Labeling Madness Thomas J. Scheff, 1975 **Labeling Madness** Thomas J. Scheff, 1975 Court of Last Resort Carol A. B. Warren, Stephen J. Morse, Jack Zusman, 1984-08 The Court of Last Resort looks at decision making in a mental health court and at the dilemmas of treating mental illness while protecting patients legal rights Carol Warren spent seven years studying hearings in a large California court where people who had been involuntarily committed to institutions for psychiatric treatment could petition for their release In this book she confronts questions of whether mental illness is real or only a label for societal control whether the government should be involved in committing the deviant to institutions and how the interaction of judges psychiatrists families police and other individuals and agencies affect the court s administration of mental health law Though the cases in this book fall under California s Lanterman Petris Short Act Warren s analysis of conflicts between legal and medical models of behavior is of national and international importance both to sociologists and to the many professionals who work at the juncture of mental health and the law *Pathology and the Postmodern* Dwight Fee, 2000-02-11 This is a wonderful volume powerfully written timely insightful and filled with major pieces the passion intellectual rigor and sense of history found here promises to shape this field in the decades to come This volume sets the agenda for the future Norman K Denzin University of Illinois *Pathology and the Postmodern* explores the relationship between mental distress and social constructionism using new work from eminent scholars in the fields of sociology psychology and philosophy The authors address how specific cultural economic and historical forces converge in contemporary psychiatry and psychology how new syndromes subjectivities and identities are being constructed and

Sociology in Perspective Mark Kirby, 2000 This text specifically for AQA specifications is designed to be easy and encouraging for students to use The book contains updated material and activities together with a new chapter on study skills It also indicates clearly where activities meet the new evidence requirements for key skills **Toward a New Definition of Health** P. I. Ahmed, 2012-12-06 It is generally recognized today that the United States has a need to contribute to the improvement of health throughout the world The need stems from the interrelationships that exist between the health of Americans and the health status of the rest of the people on Spaceship Earth Disease does not respect national boundaries and the frequency of travel and trade between countries increases each year It further relates to the opportunities found in international settings to help solve health problems more effectively and efficiently This includes the unique human resources that are found throughout the world as well as certain natural ecological conditions that cannot be duplicated in the United States The United States also has a responsibility to contribute to improved health status Our tradition of humanitarianism alone supports such a responsibility but our comparative wealth of technical and financial resources dictates a requirement to participate Modern political realities define relationships between developed and developing countries that will not allow us to isolate ourselves from the compelling health needs of a majority of the world s
