Bureaucratic Rivalry in Mangrove Forest Policy and Management Md. Faisal Abedin Khan,2021-10-18 Since the Earth Summit of 1992 the concept of sustainable development has gained rapid interest in global policy debate which incurs effective policy solutions in any forest management Mangroves are coastal forests commonly found in the tropics and subtropics where they fulfil many necessary functions from the productive protective and social points of view A large number of multidisciplinary actors ranging from international to local level are actively engaged with perceived issues concentrated on mangrove forest policies irrespective of any geographical location Nonetheless given their financial technical and expertise related means the active actors are expected to have a considerable degree of conflicts and competition showing formal and informal influences over policy issues Moreover by allocating financial means and sub delegating authoritative power actors at multiple jurisdictions may gain power and serve interests in mangrove governance Hence the study attempts to describe and explain the bureaucratic rivalry among the actors in mangrove forest policy and management at the meta level In doing so the author employed the Sundarbans of Bangladesh the world's largest contiguous tract of mangrove forest as an illustrative case in policy formulation and implementation
