Fleming, 2020-05-31 Suppose you have to appear for an exam next week who would be the go to person for seeking help and guidance? Option 1: A Subject Matter Expert/SME who's studying/teaching the subject for several years and often assumes while explaining that the basics are covered or looks at it from their frame of reference. Or Option 2: Someone who also started from scratch as you have and passed the exam just last week. He/She knows the exact process, challenges, doubts and roadblocks you may be facing and can think from your perspective. If your option is 2 you are in the right place. I am a Technology Consultant by profession and started my leathercraft journey in the year 2014. I started by going through multiple YouTube videos, courses, Facebook groups and finally completed my first project after four months. I was confused and was lost in the magnitude of information available online. I firmly believe that while starting you need exact, necessary, minimalistic information to start your first project. Pardon me, I started writing this book to provide a minimalistic approach to the information required to start your first leather project. This book is for people who are in their first lap (0-3 years) of Leather crafting journey and want to have a holistic idea of processes, tools and need help in their initial projects. I have included photographs of realistic projects of beginners explaining the process and standard operating procedure while starting. So what are you waiting for?
