Machaut's Music Elizabeth Eva Leach, 2003 Guillaume de Machaut was the foremost poet composer of his time Studies look at all aspects of his prodigious output Guillaume de Machaut 1300 1377 is regarded as the greatest French poet composer of the middle ages as he was during his lifetime A trained secretary with a passion for collecting copying and ordering his own work the number of surviving notated musical works attributed to him far exceeds that of any of his contemporaries All the main genres of song *lais* *virelais* *balades* and *rondeaux* together with Machaut's motets and his famous *Mass* cycle are considered here from a variety of perspectives

These incorporate the latest scholarly understanding of both Machaut's poetry and music and the material form they take when notated in the surviving manuscripts. The book thus presents a detailed picture of the current range of interpretative approaches to Machaut's music, focusing variously on counterpoint, *musica ficta*, text setting, *musico-poetic* meanings, citation and intertextuality, tonality and compositional method. Several of Machaut's works are discussed by a pair of contributors who reach conclusions at times mutually reinforcing or complementary, at times contradictory and mutually exclusive. That Machaut's music thrives on such constructive debate and disagreement is a tribute to his scope as an artist and his *musico-poetic* achievement.
