Guinness Guide To Nature In Danger:

The Guinness Guide to Nature in Danger Noel Simon,1993 **Nature in Danger** Noel Simon,1995 Finally the book includes a glossary of terms a directory of species names a bibliography and an index The Laws Protecting Animals and Ecosystems Paul A. Rees,2017-09-20 There is currently no basic text in wildlife law suitable for the wide range of courses in wildlife conservation and animal welfare at both bachelors and masters level or for the large number of people who work in conservation and animal welfare The Laws Protecting Animals and Ecosystems fills the gap in this significant market for a basic law text applicable to students and professionals whose primary training is in biology but who require a basic understanding of the laws relating to the protection of animals and ecosystems The text is applicable to a wide range of subjects including wildlife conservation animal handling animal welfare animal husbandry and veterinary science This foundational text supports those studying animal and ecosystem law by providing an overview of the basic legal principles national and international laws terminology the legal mechanisms used to protect animals and ecosystems and a compendium of the major animal welfare and conservation laws in major English speaking countries Dr Rees has been teaching wildlife law for 20 years and ecology for over 35 years and is ideally placed to write this book **Urban Environments and Wildlife Law** Paul A. Rees,2008-04-15 Today construction industry is being asked more and more to protect the quality of the countryside and to help enhance our natural environment The industry is subject to a complex and wide ranging regulatory framework it now needs to understand its responsibilities and take them seriously Paul Rees provides here an authoritative guide outlining wildlife and nature conservation law in the UK including our European and international commitments and giving clear explanations to a potentially costly area of law in a style accessible to the non legal market This comprehensive manual offers information and guidance for building surveyors environmental managers engineers and planners on the legal and planning issues around biodiversity nature conservation and construction how ecosystems work and why certain species and habitats need protection where to go for the relevant legislation and appropriate organisations for help and advice UK and European case law demonstrates how the law has functioned in particular instances and case studies illustrate how companies have adapted to fulfil their legal obligations These are key features of the book and provide information on important legal precedents as well as demonstrating current industry best practice The Atlas of Endangered Species John A. Burton,1999 The second edition of this colorful single volume work presents an in depth overview of one of the key issues of our time Written by a team of expert contributors this beautifully illustrated authoritative guide provides insights into the range and reasons for the world s threatened plant and animal species Featuring 300 maps and full color photographs this renowned Atlas brings the subject to life **New Scientist and Science Journal** ,1993 Conserva ,1993 **New Scientist** ,1993 The Zoological Record ,1994 **The Cumulative Book Index** ,1995 A world list of books in the English language **Book Review Digest** ,1998 **American Book Publishing Record** ,1995
