Jung And The Postmodern The Interpretation Of Realities:

Jung and the Postmodern Christopher Hauke, 2013-10-23 What has Jung to do with the Postmodern Chris Hauke's lively and provocative book puts the case that Jung's psychology constitutes a critique of modernity that brings it in line with many aspects of the postmodern critique of contemporary culture. The metaphor he uses is one in which we are gazing through a Jungian transparency or filter being held up against the postmodern while from the other side we are also able to look through a transparency or filter of the postmodern to gaze at Jung. From either direction there will be a new and surprising vision. Setting Jung against a range of postmodern thinkers Hauke recontextualizes Jung's thought as a response to modernity placing it sometimes in parallel and sometimes in contrast to various postmodern discourses. Including chapters on themes such as meaning, knowledge and power, the contribution of architectural criticism to the postmodern debate, Nietzsche's perspective, theory of affect and Jung's complex theory, representation and symbolization, constructivism and pluralism, this is a book which will find a ready audience in academy and profession alike. *Jung and Film* Christopher Hauke, Ian Alister, 2021-12-16 Jung and Film brings together some of the best new writing from both sides of the Atlantic introducing the use of Jungian ideas in film analysis. Illustrated with examinations of seminal films including Pulp Fiction, Blade Runner and 2001 A Space Odyssey, Chris Hauke and Ian Alister along with an excellent array of contributors look at how Jungian ideas can help us understand films and the genres to which they belong. The book also includes a glossary to help readers with Jungian terminology. Taking a fresh look at an ever-changing medium, Jung and Film is essential reading for academics and students of analytical psychology as well as film, media and cultural studies. **Jung Stripped Bare** Sonu Shamdasani, 2018-05-08 How many posthumous lives does a man have to live? Nearly half a century after his death, C. G. Jung is a subject of continual controversies. Every few years a new life of Jung appears, each promising to provide the missing master key to the mysteries of his life and work and to lay bare their secrets. However, with every successive life, Jung becomes shrouded in an ever-increasing web of rumour, gossip, innuendo and fantasy. We may ask why Jung biographies are so filled with shortcomings. How did Jung become a fiction? This book addresses these issues. It demonstrates the pitfalls and fallacies of such works and sets out how his life and work should be approached on a historical basis, drawing on decades of archival investigation and new documentation. It surveys attempts to write Jung's biography from during his own lifetime until the present, showing how Memories, Dreams, Reflections came to be falsely perceived as his autobiography and why his Collected Works was never completed. Thus, this work lays out an agenda for future studies and discussions of Jung, the reception of his work and its impact on contemporary culture. Cinematic Projections Luke Hockley, 2001 An introduction to the world of postJungian film studies this book redresses the dominance of Freudian theories of cinema and guides individuals through the intricacies of Jungian thought In so doing it provides the basis on which to construct a contemporary theory of cinema Drawing on research into detective films and the myths of detection Hockley weaves together psychological analysis with textual interpretation The resulting hypothesis suggests that watching films is an intensely personal experience in which viewers according to individual needs and desires project and identify with films and their characters

Jungian Crime Scene Analysis Aaron B. Daniels, 2018-05-01 This book presents the serial killer as having imagopathy that is a disorder of the imagination manifested through such deficiencies as failure of empathy rigid fantasies and unresolved projections The author argues that this disorder is a form of failed alchemy His study challenges long held assumptions that the Jungian concept of individuation is a purely healthful drive Serial killers are unable to form insight after projecting untenable material onto their victims Criminal profilers must therefore effect that insight informed by their own reactions to violent crime scene imagery using what the author asserts is a form of Jung's active imagination This book posits sexual homicides as irrational shadow images in our rationalistic modern culture Consequently profilers bridge conscious and unconscious for the inexorably splintered killer as well as the culture at large

The Liminal and The Luminescent Terrill L. Gibson, 2021-12-21 Our world is bathed in ongoing biological political cultural climate and spiritual crises that seem endless If anything these disruptions appear to be spiraling into ever larger threat fronts that challenge our survival as a species Carl Gustav Jung renowned Swiss psychiatrist avowed in his archetypal psychology that

there is a portal of transforming possibility if we have the courage to enter that doorway That threshold entering demands that we embrace our individual and collective sufferings and then seek the path of meaning and destiny that is always resident deeply at the core of such trauma This book narrates how this destiny is found and lived forward for both each individual life and for our varied human cultures It affirms and gives examples of the deep soul dimension of life that lies under the often chaotic surface the liminal realm of animate and guiding dream vision myth and spirituality where the gods meet us so that we all can find our mutual way Home This liminal world is navigated through the metaphoric and literalness of pilgrimage performance and political processes in our personal and cultural lives What might be your path of destiny

The Rupture of Time Roderick Main, 2004-06-02 Why was the idea of synchronicity so important to Jung Jung's theory of synchronicity radically challenges the entrenched assumptions of mainstream modern culture in the West It is one of the most fascinating yet difficult and discomfiting of Jung's psychological theories The Rupture of Time aims to clarify what Jung really meant by synchronicity why the idea was so important to him and how it informed his thinking about modern western culture Areas examined include how the theory fits into Jung's overall psychological model and the significance of its apparent inconsistencies the wide range of personal intellectual and social contexts of Jung's thinking on the topic how Jung himself applied the theory of synchronicity within his critique of science religion and society the continuing relevance of the theory for understanding issues in contemporary detraditionalised religion Focusing closely on Jung's own writings and statements this book discloses that the theory of synchronicity is not an inconsequential addendum to analytical psychology but is central to the psychological project that occupied Jung throughout his professional life This much needed clarification of one of Jung's central tenets will be of great interest to all analytical psychologists and scholars engaged with Jungian thought

Somatic Cinema Luke Hockley, 2013-10-30 Films can hold personal psychological meanings that are often at odds with their narratives Examining the intersections between mental health and the cinema Somatic Cinema represents the cutting edge of film theory evaluating the significance of this phenomenon both in therapy and in the everyday world Luke Hockley draws on the insights of phenomenological and Jungian film theory and applies them alongside more established psychoanalytic approaches The result is to combine the idea of affective bodily experience with unconscious processes as a means to explore a new ontology of the cinema The emphasis is therefore shifted from pure intellectual insight to greater inclusion of personally constructed meanings and experiences Several key concepts are developed and explored throughout the book These include The idea of the Third Image occupying the intersubjective space between viewer and screen and therapist and client The concept of the Cinematic Frame as opposed to the Film Frame the container of the psychological relationship between viewer and screen The use of the Cinematic Experience to encapsulate the somatic expression of unconscious effects that develop while a film is viewed and which are central to the creation of personal psychological meanings With a focus on examining why we develop a personal relationship with films Somatic Cinema is

ideal for academics and students of film studies media studies and analytical psychology
