Jungle Rescue Saving The New World Tropical Rain Forests:

Jungle Rescue Christina G. Miller, Louise A. Berry, 1991 In order to avoid a global ecological crisis the alarming destruction of the tropical rain forests of Central and South America must be reversed *Rainforest Organizations* Steve Shipp, 1997 Rainforests home to more than half of all plant and animal species on earth while covering less than six percent of the world's land area have intricate ecosystems with multitudes of animal and plant species including humans Yet deforestation of the rainforests has greatly increased in the past half century Ten thousand years ago rainforests covered an estimated 9.5 million square miles but as millions of trees are lost daily to agricultural and commercial development scientific studies project the reduction of rainforests to six million square miles by the year 2000 and 3.5 million square miles by 2050 Numerous scientific political conservationist public information and other organizations have been formed to address every aspect of rainforests over 120 worldwide can be found in this directory Each entry lists the address phone number contact person e-mail or Internet address if available mission statement or goals publications and often the group's history and current projects All listed agencies and organizations readily accept queries for information about rainforests and most invite participation in their activities and projects *Book Links*, 1991

Theme Immersion Maryann Murphy Manning, Gary L. Manning, Roberta Long, 1994 The authors of this book define theme immersion as an in-depth study of a topic an issue or a question Theme immersion is very different from the traditional unit or theme approach The authors clearly point out these differences with respect to how a topic is selected what is studied and the roles of the teacher and the students By inviting the reader into the classrooms of theme immersion teachers the authors show dramatically that the teacher does not impose or control ideas but is an active member of a community of learners Personable and practical Theme Immersion will be invaluable for classroom teachers who want to teach with such excitement and relevance that their students become lifelong learners Teachers wanting to implement a theme study approach in their classrooms will find all the direction they need in Theme Immersion
