

Lands Forlorn

*The Story of an Expedition to
Hearne's Coppermine River*

By

George M. Douglas

With an Introduction by James Douglas, LL.D.

With 100 Photographs by the Author and a Map

The Coppermine River flows through the Barren Lands of Northern Canada into the Arctic Ocean. This book is an unromantic story of eighteen months spent in those inhospitable regions by the author and his companions, handling their own teams, carrying their own packs, and hunting for and driving their own dog teams.

At a cost, having to prepare in wilderness after elaborate preparation, and with the help and guidance of a number of Indians. This narrative and its long series of brilliant illustrations tell us that skilled men, who are fond of carrying, may start with few provisions, provisions and successfully complete a trip of Arctic exploration abounding with sport and excitement.

adventurous pioneering gave place in general and geographical literature to the more convenient and euphonious
designation suggested by Flinders himself Australia Not universally however even in official documents In the Report of the

 discrepant and disturbing Covering the ground between Romanticism and Victorianism Dart presents Cockneyism as a
 powerful critical currency in this period which helps provide a link between the works of Leigh Hunt and Keats in the 1810s
