Freeman,Philippe Pinchemel,2016-01-28 An annual collection of studies of individuals who have made major contributions to the development of geography and geographical thought Subjects are drawn from all periods and from all parts of the world and include famous names as well as those less well known explorers independent thinkers and scholars Each paper describes the geographer s education life and work and discusses their influence and spread of academic ideas Each study includes a select bibliography and brief chronology The work includes a general index and a cumulative index of geographers listed in volumes published to date

Journal of Education and School World ,1905 *Printing History and Cultural Change* Richard Wendorf,2022-03-24 This study provides one of the most detailed and comprehensive examinations ever devoted to a critical transformation in the material substance of the printed page it carries out this exploration in the history of the book moreover by embedding these typographical changes in the context of other cultural phenomena in eighteenth century Britain The gradual abandonment of pervasive capitalization italics and caps and small caps in books printed in London Dublin and the American colonies between 1740 and 1780 is mapped in five year increments which reveal that the appearance of the modern page in English began to emerge around 1765 This descriptive and analytical account focuses on poetry classical texts Shakespeare contemporary plays the novel the Bible the Book of Common Prayer sermons and religious writings newspapers magazines anthologies government publications and private correspondence it also examines the reading public canon formation editorial theory and practice and the role of typography in textual interpretation These changes in printing conventions are then compared to other aspects of cultural change the adoption of the Gregorian calendar in 1752 the publication of Johnson s Dictionary in 1755 the transformation of shop signs and the imposition of house numbers in London beginning in 1762 and the evolution of the English language and of English prose style This study concludes that this fundamental shift in printing conventions was closely tied to a pervasive interest in refinement regularity and standardization in the second half of the century and that it was therefore an important component in the self conscious process of modernizing British culture

Teaching Landscape History Jan Woudstra,David Jacques,Robert Holden,2023-11-29 Landscape history is changing in content and style to address the issues of today Experienced teachers and authors on the history of gardens and landscapes come together in this new volume to share ideas on the future of teaching history in departments of landscape architecture archaeology geography and allied subjects Design history remains important but this volume brings to the fore the increasing importance of environmental history economic history landscape history cultural landscapes environmental justice and decolonisation ideas of sustainability and climate change amelioration which may all be useful in serving the needs of a widening range of

students in an increasingly complex world The main themes include what history should we narrate in the education of landscape architects how can we recognise counter narratives and our own bias how should we engage the students in the history of their chosen profession how can designers and researchers be persuaded of the relevance of history teaching to theory and practice and what resources do we need to develop teaching of landscape histories This book will be of interest to anyone teaching courses on landscape architecture urban design horticulture garden design architectural history cultural geography and more **Landscape in History, and Other Essays, by Sir Archibald Geikie, ...** Archibald Geikie,1905

The Nation ,1905 *History and Material Culture* Karen Harvey,2013-02-01 Sources are the raw material of history but where the written word has traditionally been seen as the principal source today historians are increasingly recognizing the value of sources beyond text In *History and Material Culture* Karen Harvey embarks upon a discussion about material culture considering objects often those found surrounding us in day to day life as sources which can help historians develop new interpretations and new knowledge about the past Across ten chapters different historians look at a variety of material sources from around the globe and across centuries to assess how such sources can be used to study history While the sources are discussed from interdisciplinary perspectives each contributor examines how material culture can be approached from an historical viewpoint and each chapter addresses its theme or approach in a way accessible to readers without expertise in the area In her introduction Karen Harvey discusses some of the key issues raised when historians use material culture and suggests some basic steps for those new to these kinds of sources Opening up the discipline of history to new approaches and introducing those working in other disciplines to historical approaches this book is the ideal introduction to the opportunities and challenges of researching material culture **Indigeneity, Landscape and History** Asoka Kumar Sen,2017-07-28 This book engages with notions of self and landscape as manifest in water forest and land via historical and current perspectives in the context of indigenous communities in India It also brings processes of identity formation among tribes in Africa and Latin America into relief Using interconnected historical moments and representations of being becoming and belonging it situates the content and complexities of Adivasi self fashioning in contemporary times and discusses constructions of selfhood diaspora homeland environment and ecology political structures state marginality development alienation and rights Drawing on a range of historical sources from recorded oral traditions and village histories to contemporary Adivasi self narratives the volume will be of great interest to scholars and researchers of modern Indian history sociology and social anthropology tribal and indigenous studies and politics *Illustrated History of Landscape Design* Elizabeth Boults,Chip Sullivan,2010-02-08 A visual journey through the history of landscape design For thousands of years people have altered the meaning of space by reshaping nature As an art form these architectural landscape creations are stamped with societal imprints unique to their environment and place in time *Illustrated History of Landscape Design* takes an optical sweep of the iconic landscapes constructed throughout the ages Organized by century and geographic region

this highly visual reference uses hundreds of masterful pen and ink drawings to show how historical context and cultural connections can illuminate today's design possibilities This guide includes Storyboards case studies and visual narratives to portray spaces Plan section and elevation drawings of key spaces Summaries of design concepts principles and vocabularies Historic and contemporary works of art that illuminate a specific era Descriptions of how the landscape has been shaped over time in response to human need Directing both students and practitioners along a visually stimulating timeline Illustrated History of Landscape Design is a valuable educational tool as well as an endless source of inspiration

Mickey Mouse History and Other Essays on American Memory Mike Wallace, 1996 This is a book about why history matters It shows how popularized historical images and narratives deeply influence Americans understanding of their collective past A leading public historian Mike Wallace observes that we are a people who think of ourselves as having shed the past but also avid tourists who are on a heritage binge flocking by the thousands to Ellis Island Colonial Williamsburg or the Vietnam Memorial Wallace probes into the trivialization of history that pervades American culture as well as the struggles over public memory that provoke stormy controversy The recent imbroglio surrounding the National Air and Space Museum's proposed Enola Gay exhibit was reported as centering on why the U S government decided to use the A Bomb against Japan Wallace scrutinizes the actual plans for the exhibit and investigates the ways in which the controversy drew in historians veterans the media and the general public Whether his subject is multimillion dollar theme parks owned by powerful corporations urban museums or television docudramas Mike Wallace shows how their depictions of history are shaped by assumptions about which pasts are worth saving whose stories are worth telling what gets left out and who is authorized to make the decisions Author note Mike Wallace is Professor of History at John Jay College City University of New York He is the co author with Edwin G Burrows of *Gotham A History of New York City to 1898* winner of the 1999 Pulitzer Prize for History

The Cambridge History of the American Essay Christy Wampole, Jason Childs, 2023-12-14 From the country's beginning essayists in the United States have used their prose to articulate the many ways their individuality has been shaped by the politics social life and culture of this place The Cambridge History of the American Essay offers the fullest account to date of this diverse and complex history From Puritan writings to essays by Indigenous authors from Transcendentalist and Pragmatist texts to Harlem Renaissance essays from New Criticism to New Journalism The story of the American essay is told here beginning in the early eighteenth century and ending with the vibrant heterogeneous scene of contemporary essayistic writing The essay in the US has taken many forms nature writing travel writing the genteel tradition literary criticism hybrid genres such as the essay film and the photo essay Across genres and identities this volume offers a stirring account of American essayism into the twenty first century

Slow Wood Cass R. Sunstein, 2024-11-26 A radical proposal for healing the relationship between humans and forests through responsible sustainable use of local and regional wood in home building American homes are typically made of lumber and plywood delivered by a global system of ruthless extraction or of

concrete and steel which are even worse for the planet Wood is often the most sustainable material for building but we need to protect diverse forests as much as we desperately need more houses Brian Donahue addresses this modern conundrum by documenting his experiences building a timber frame home from the wood growing on his family farm practicing worst first forestry Through the stories of the trees he used sugar maple black cherry black birch and hemlock and some he didn't white pine and red oak the book also explores the history of Americans relationship with their forests Donahue provides a new interpretation of the connection between American houses and local woodlands He delves into how this bond was broken by the rise of a market economy of industrial resource extraction and addresses the challenge of restoring a more enduring relationship Ultimately this book provides a blueprint and a stewardship plan for how to live more responsibly with the woods offering a sustainable approach to both forestry and building centered on tightly connected ecological and social values
