Language In Kenya:

Language in Kenya ... Wilfred Howell Whiteley, 1974 This second volume in the series is the result of research by an interdisciplinary team of international scholars all with a particular interest in Kenya The first part of the book contains a comprehensive classification of Kenyan languages looks at their distribution and studies some special language situations The second part is concerned with language use including the special status of Swahili and discusses both the effects of urbanization and education and patterns of bilingualism The third part analyses the organization of language teaching and teacher training in Kenya *Language and Dialect Atlas of Kenya* Bernd Heine, Wilhelm J. G. Möhlig, 1980 **Kenyan**

English Alfred Buregeya, 2019-08-05 English in Kenya is a stable post colonial variety that is used as an inter ethnic lingua franca in private domains is the medium of instruction as well as the language spoken in parliament and court rooms Yet so far no comprehensive research monograph on Kenyan English has been published that surveys its characteristic linguistic features The present book closes this gap by giving a full description of the characteristic linguistic features of Kenyan English The book provides an in depth overview of Kenyan English phonetics phonology morphology syntax semantics and pragmatics and also gives a meticulous account of the diachronic evolution of this post colonial variety The Non-Bantu Languages of Kenya Bernd Heine, 1980 **Creative Use of Language in Kenya** Kwadzo Senanu, Drid Williams, 1995

case study of Kenyan communication forms Anja Schmidt, 2003-09-28 Seminar paper from the year 2003 in the subject English Language and Literature Studies Linguistics grade 1 0 A University of Hamburg IAA language English abstract When considering the linguistic situation in Kenya it becomes quite obvious that it is anything but homogenous Not only the large variety of different ethnic groups but also British colonial influences have left their marks on this diverse region With English as the official language and Kiswahili as the national language it seems that the language situation in Kenya should be clear cut and well defined Yet the search for a national identity feelings of inferiority towards the colonial language English and the strive for a better political and economic life in Kenya confront the population with many challenges and problems Kenyan society is shaped by 40 to 60 African ethnic languages such as Maasai or Dholuo The main means of communication among these different ethnic groups has become Kiswahili But Kiswahili itself has seven dialects and several sub dialects In

addition several European languages were left behind by the colonial era and Arabic and Asian merchants have brought their languages with them too Thus the language situation in Kenya is extremely complex and considered to be a 3 1 language country That means that most Kenyan citizens speak three languages plus or minus one the mother tongue in most cases an African ethnic language Kiswahili the national language and most often also lingua franca and English the official language and therefore used for all educational and governmental purposes But the competence and use of these communication systems varies largely Like citizens of other imposed multilingual environment situations Kenyans have developed their very own way to communicate with each other But language is not only a pure means of communication it carries different identities depending on social context It serves to distinguish oneself from others as well as to express one's membership to a certain group and thus influencing one's understanding of culture However my aim in this paper is to analyse the current trilingualism in Kenya and explain the different levels of competence I will put the main emphasis on English and Kiswahili as they receive official recognition by the Kenyan government When considering the interaction of the official languages and those inferior to them I will also refer to some new language forms that might influence the Kenyan society considerably in the future

Möhlig, 1980 Cultural Production and Change in Kenya Kimani Njogu, 2007-06-15 Art Culture and Society Vol 1 is the first in a series of books to be published by Twaweza Communications on the relationship between art and society with special reference to Kenya It is part of a cultural leadership initiative being undertaken by the organization through a reexamination of the arts as they are produced and studied This volume brings together important reflections on the arts and is a major step in encouraging dialogue on the relationship between creativity and the human condition in the region Significantly it creates a space for university based academics to engage in dialogue with artists and writers based outside institutions of higher learning The conversations will bridge the gap between the two domains for knowledge production and enrich creative enterprise in Kenya in theory and practice As the essays in this collection show the present global situation demands a way to conceptualise and theorise an ever growing cultural interconnectedness sometimes manifested in art and interconnectedness that draws from a myriad of cultures and experiences Through the bridges of contact and cultural exchange distant images are mediated and brought closer to us They are reinterpreted and modified In the final analysis culture is shown to be an important aspect of human creativity but separateness and boundedness is contested Instead culture is shown to be malleable and fluid The essays bring in a new freshness to our reading of the creative arts coming out of Kenya Colony & Protectorate of Kenya , 1922
