Language Revitalization Processes and Prospects Kendall A. King, 2001 This work explores educational and community efforts to revitalize the Quichua language in two indigenous Andean communities of southern Ecuador Analyzing the linguistic social and cultural processes of positive language shift this book

contributes to our understanding of formal and informal educational efforts to revitalize threatened languages Language Loyalty, Language Planning, and Language Revitalization Nancy H. Hornberger, Martin Pütz, 2006-01-01 Joshua Fishman is perhaps best known and loved for his pioneering and enduring work in language loyalty and reversing language shift This volume brings together a selection of his writings on these topics and some of his personal perspectives on the field of sociolinguistics *Linguistic Ideologies of Native American Language Revitalization* David Leedom Shaul, 2014-03-31 The concept of this volume is that the paradigm of European national languages official orthography language standardization full use of language in most everyday contexts is imposed in cookie cutter fashion on most language revitalization efforts of Native American languages While this model fits the sovereign status of many Native American groups it does not meet the linguistic ideology of Native American communities and creates projects and products that do not engage the communities which they are intended to serve The concern over heritage language loss has generated since 1990 enormous activity that is supposed to restore full private and public function of heritage languages in Native American speech communities The thinking goes if you do what the volume terms the Lost Language Ghost Dance your heritage language will flourish once more Yet the heritage language only flourishes on paper and not in any meaningful way for the community it is trying to help Instead this volume proposes a model of Native American language revitalization that is different from the national official language model one that respects and incorporates language variation and entertains variable outcomes This is because it is based on Native American linguistic ideologies This volume argues that the cookie cutter application of the official language ideology is unethical because it undermines the intent of language revitalization itself the continued daily meaningful use of a heritage language in its speech community *Indigenous Adult Language Revitalization and Education* Kaarina Määttä, Erika Katjaana Sarivaara, Satu Uusiautti, 2019-06-04 Indigenous languages are endangered and questions of revitalization are topical in today's climate This book deals with adult education and the topic of adults reclaiming their ancestral language The themes addressed here cover indigeneity and identification with and membership in indigenous groups on an individual level The volume contemplates the preconditions of belonging to an indigenous people and the definitions of indigeneity It also contains discussions of indigenous research and provides new perspectives on methods suitable for recording indigenous people's voices and experiences The text uses the S mi people in Finland as the example focusing on political identity and indigenous S mi status *Talking Indian* Jenny L. Davis, 2018-04-17 Winner of the Beatrice Medicine Award In south central Oklahoma and much of Indian Country using an Indigenous language is colloquially referred to as talking Indian Among older Chickasaw community members the phrase is used more often than the name of the specific language Chikashshanompa or Chickasaw As author Jenny L Davis explains this colloquialism reflects the strong connections between languages and both individual and communal identities when talking as an Indian is intimately tied up with the heritage language s of the community even as the number of speakers declines Today a tribe of more than sixty thousand

members the Chickasaw Nation was one of the Native nations removed from their homelands to Oklahoma between 1837 and 1838 According to Davis the Chickasaw s dispersion from their lands contributed to their disconnection from their language over time by 2010 the number of Chickasaw speakers had radically declined to fewer than seventy five speakers In Talking Indian Davis a member of the Chickasaw Nation offers the first book length ethnography of language revitalization in a U S tribe removed from its homelands She shows how in the case of the Chickasaw Nation language programs are intertwined with economic growth that dramatically reshape the social realities within the tribe She explains how this economic expansion allows the tribe to fund various language learning forums with the additional benefit of creating well paid and socially significant roles for Chickasaw speakers Davis also illustrates how language revitalization efforts are impacted by the growing trend of tribal citizens relocating back to the Nation

Ramallo,2010-11-17 Understanding sociolinguistics as a theoretical and methodological framework hopefully could attempt to promote change and social development in human communities Yet it still presents important political epistemological methodological and theoretical challenges A sociolinguistics of development in which the revitalization of linguistic communities is the priority opens new perspectives for the emerging field of linguistic documentation in which the societal aspects of research stressed by sociolinguistics have frequently been marginal The need to focus on the documentation of linguistic communities to contribute to the revitalization of these communities requires an in depth revision of a number of different perspectives Especially regarding the links between commonly separated fields of enquiry such as sociolinguistics documentation and revitalization Instead of creating mere museum pieces of academic contemplation for the future as has been the major trend up to now in language documentation and even sociolinguistics there is a growing concern to join forces to revitalize the actual use of endangered languages in order to place languages as a main focus of a community s development which constitutes a major challenge for both scholars civil society and speakers alike
