## **Language And Living Things:**

*Language Endangerment* Ozo-mekuri Ndimele, 2015-12-29 This commemorative volume is the 12th edition in the Nigerian Linguists Festschrift Series devoted to Professor Mrs Appolonia Uzoaku Okwudishu The majority of the papers were presented at the 27th Annual Conference of the Linguistic Association of Nigerian CLAN which was held at the Benue State University Makurdi Nigeria and the 26th CLAN which was held at the University of Ibadan Nigeria The title derives from the theme of the 27th CLAN Language Endangerment Globalisation and the Fate of Minority Languages in Nigeria A large number of the papers address the major theme of the conference while the balance address various aspects of Nigerian linguistics languages communication and literature Fifty one papers are included ranging from sociolinguistics through applied linguistics to formal areas of linguistics which include phonology morphology and syntax of Nigerian languages Papers on language endangerment and language revitalisation strategies for safeguarding the vanishing indigenous tongues of Nigeria are the major focus and the book serves as important reference material in various aspects of language and linguistic studies in Nigeria

**Living Beings** Penelope Dransart, 2020-06-03 Living Beings examines the vital characteristics of social interactions between living beings including humans other animals and trees Many discussions of such relationships highlight the exceptional qualities of the human members of the category insisting for instance on their religious beliefs or creativity In contrast the international case studies in this volume dissect views based on hierarchical oppositions between human and other living beings Although human practices may sometimes appear to exist in a realm beyond nature they are nevertheless subject to the pull of natural forces These forces may be brought into prominence through a consideration of the interactions between human beings and other inhabitants of the natural world The interplay in this book between social anthropologists philosophers and artists cuts across species divisions to examine the experiential dimensions of interspecies engagements In ethnographically and or historically contextualized chapters contributors examine the juxtaposition of human and other living beings in the light of themes such as wildlife safaris violence difference mimicry simulation spiritual renewal dress and language

Language and Human Nature Mark Halpern, 2011-12-31 Language and Human Nature exposes a century's worth of flawed thinking about language exhibits some of the dangers it presents and suggests a path to recovery It begins by examining the causes of changes in the English vocabulary These sometimes take the form of new words but more often that of new senses for old words In the course of this examination Halpern discusses a wide variety of verbal solecisms vulgarisms and infelicities generally His objective is not to deplore such things but to expose the reasons for their existence the human traits that generate them A large part of this book is devoted to contesting the claims of academic linguists to be the only experts in the study of language change Language is too central to civilized life to be so deeply misunderstood without causing a multitude of troubles throughout our culture We are currently experiencing such troubles a number of which are examined here The exposure of linguists' misunderstandings is not an end in itself but a

necessary first step in recovery from the confusion we are now enmeshed in The picture of the relationship between words and thoughts that is part of the attempt to deal with language scientifically is partly responsible for dangerous cultural developments The attempt by linguists to treat their subject scientifically makes them view meaning as an irritating complication to be ignored if possible It turns them into formalists who try to understand language by studying its physical representations with a resort to semantics only when unavoidable With words practically stripped of their role as bearers of meaning it becomes easy to see them as unimportant Halpern's book is a serious critique of such oversimplified theorizing

Behavior in Living Things Michael Bright, 2012 Looks at the ways that different animals behave looking at instinctual and learned behavior as well as the psychology and emotions of animals

**The Routledge Language and Cultural Theory Reader** Lucy Burke, Tony Crowley, Alan Girvin, 2000 This is a core introduction to the most innovative and influential writings to have shaped and defined the relations between language culture and cultural identity

*People as Living Things* Philip Julian Runkel, 2003 Runkel links Perceptual Control Theory PCT thinking to psychological literature and discusses it against that background

How to Be a Living Thing Mari Andrew, 2025-07-15 A luminous collection of essays exploring the lessons we can incorporate from the animal world in order to live more fully as humans A shelter cat teaches us that our damaged parts too are worthy of love a captive orca shows us that inconvenience and difficulties are the blessing of a full life a gorilla teaches the universal language of grief a group of oysters who prove that magic and science can and do coexist In *How to Be a Living Thing* Mari Andrew reflects on the ways animals mirror challenge and deepen our experiences as living creatures in the world Through her personal stories and explorations into the inner world of other creatures Mari illuminates the opportunities and wonders of being a living thing Highly sensitive horses overly cautious donkeys and silly social rats are just a few of the animal teachers who offer us glimpses of the glories and shortcomings of humanity Heartwarming funny and insightful *How to Be a Living Thing* reminds us that we are perfectly imperfect beings capable of profound connection with each other and with all other species of the remarkable natural world that surrounds us

**Hans Jonas's Ethic of Responsibility** Theresa Morris, 2013-12-01 Articulates the fundamental importance of ontology to Hans Jonas's environmental ethics Despite his tremendous impact on the German Green Party and the influence of his work on contemporary debates about stem cell research in the United States Hans Jonas's 1903-1993 philosophical contributions have remained partially obscured In particular the ontological grounding he gives his ethics based on a phenomenological engagement with biology to bridge the is-ought gap has not been fully appreciated Theresa Morris provides a comprehensive overview and analysis of Jonas's philosophy that reveals the thread that runs through all of his thought including his work on the philosophy of biology ethics the philosophy of technology and bioethics She places Jonas's philosophy in context comparing his ideas to those of other ethical and environmental philosophers and demonstrating the relevance of his thought for our current ethical and environmental problems Crafting strong supporting arguments for Jonas's insightful view of ethics

as a matter of both reason and emotion Morris convincingly lays out his account of the basis of our responsibilities not only to the biosphere but also to current and future generations of beings

*Words and Meanings* Cliff Goddard,Anna Wierzbicka,2013-11-28 In a series of cross cultural investigations of word meaning Cliff Goddard and Anna Wierzbicka examine key expressions from different domains of the lexicon concrete abstract physical sensory emotional and social They focus on complex and culturally important words in a range of languages that includes English Russian Polish French Warlpiri and Malay Some are basic like men women and children or abstract nouns like trauma and violence others describe qualities such as hot hard and rough emotions like happiness and sadness or feelings like pain They ground their discussions in real examples from different cultures and draw on work ranging from Leibniz Locke and Bentham to popular works such as autobiographies and memoirs and the Dalai Lama on happiness The book opens with a review of the neglected status of lexical semantics in linguistics The authors consider a range of analytical issues including lexical polysemy semantic change the relationship between lexical and grammatical semantics and the concepts of semantic molecules and templates Their fascinating book is for everyone interested in the relations between meaning culture ideas and words

**Coleridge and**

**Shelley** Dr Sally West,2013-04-28 Sally West s timely study is the first book length exploration of Coleridge s influence on Shelley s poetic development Beginning with a discussion of Shelley s views on Coleridge as a man and as a poet West argues that there is a direct correlation between Shelley s desire for political and social transformation and the way in which he appropriates the language imagery and forms of Coleridge often transforming their original meaning through subtle readjustments of context and emphasis While she situates her work in relation to recent concepts of literary influence West is focused less on the psychology of the poets than on the poetry itself She explores how elements such as the development of imagery and the choice of poetic form often learnt from earlier poets are intimately related to poetic purpose Thus on one level her book explores how the second generation Romantic poets reacted to the beliefs and ideals of the first while on another it addresses the larger question of how poets become poets by returning the work of one writer to the literary context from which it developed Her book is essential reading for specialists in the Romantic period and for scholars interested in theories of poetic influence

**DNA Demystified** Alan McHughen,2020-05-19 For all those who fear they cannot understand the science of DNA they will soon find that they can and it s fascinating Matt Ridley author of Genome

The Autobiography of a Species in 23 Chapters DNA once the exclusive domain of scientists in research labs is now the darling of popular and social media With personal genetic testing kits in homes and GMO foods in stores DNA is an increasingly familiar term Unfortunately what people know or think they know about DNA and genetics is often confused or incorrect Contrary to popular belief for instance genes don t skip a generation and no human DNA is not different from DNA

of other species With popular misconceptions proliferating in the news and on the internet how can anyone sort fact from fiction DNA Demystified satisfies the public appetite for and curiosity about DNA and genetics Alan McHughen an accomplished academic and public science advocate brings the reader up to speed on what we know what we don't and where genetic technologies are taking us The book begins with the basic groundwork and a brief history of DNA and genetics Chapters then cover newsworthy topics including DNA fingerprinting using DNA in forensic analyses and identifying cold case criminals For readers intrigued by the proliferation of at home DNA tests the text includes fascinating explorations of genetic genealogy and family tree construction crucial for people seeking their biological ancestry Other chapters describe genetic engineering in medicine and pharmaceuticals and the use of those same technologies in creating the far more controversial GMOs in food and agriculture Throughout the book raises provocative ethical and privacy issues arising from DNA and genetic technologies With the author's comprehensive expertise DNA Demystified offers an informal yet authoritative guide to the genetic marvel of DNA

**Lexical Acculturation in Native American Languages** Cecil H. Brown, 1999-02-04 Lexical acculturation refers to the accommodation of languages to new objects and concepts encountered as the result of culture contact This unique study analyzes a survey of words for 77 items of European culture e.g chicken horse apple rice scissors soap and Saturday in the vocabularies of 292 Amerindian languages and dialects spoken from the Arctic Circle to Tierra del Fuego The first book ever to undertake such a large and systematic cross language investigation Brown's work provides fresh insights into general processes of lexical change and development including those involving language universals and diffusion

*A History of Language Philosophies* Lia Formigari, 2004-01-01 Theory and history combine in this book to form a coherent narrative of the debates on language and languages in the Western world from ancient classic philosophy to the present with a final glance at on going discussions on language as a cognitive tool on its bodily roots and phylogenetic role An introductory chapter reviews the epistemological areas that converge into or contribute to language philosophy and discusses their methods relations and goals In this context the status of language philosophy is discussed in its relation to the sciences and the arts of language Each chapter is followed by a list of suggested readings that refer the reader to the final bibliography About the author Lia Formigari Professor Emeritus at University of Rome La Sapienza Her publications include *Language and Experience in XVIIth century British Philosophy* Amsterdam Signs Science and Politics *Philosophies of Language in Europe 1700-1830* Amsterdam La's miotique empiriste face au kantisme Li ge Mardaga 1994

**Packing Death in Australian Literature** Iris Ralph, 2020-11-16 *Packing Death in Australian Literature* Ecocides and Eco Sides addresses Australian Literature from ecocritical animal studies plant studies indigenous studies and posthumanist critical perspectives The book's main purpose is twofold to bring more sustained attention to environmental vegetal and animal rights issues past and present and to do that from within the discipline of literary studies Literary studies in Australia continue to reflect disinterest or not enough interest in critical engagements with the subjects of Australia's

oldest extant environments and other beings beside humans Packing Death in Australian Literature Ecocides and Eco Sides foregrounds the vegetal and nonhuman animal populations and contours of Australian Literature Critical studies relied on in Packing Death in Australian Literature Ecocides and Eco Sides include books by CA Cranston and Robert Zeller Simon C Estok Bill Gammage Timothy Morton Bruce Pascoe Val Plumwood Kate Rigby John Ryan Wendy Wheeler and Cary Wolfe The selected literary texts include work by Merlinda Bobis Eric Yoshiaki Dando Nugi Garimara Francesca Rendle Short Patrick White and Evie Wyld *Form-Meaning Connections in Second Language Acquisition* Bill VanPatten, Jessica Williams, Susanne Rott, Mark Overstreet, 2004-07-21 This volume addresses theoretical and research domains related to questions of how forms meaning connections are initiated processed and stored and what internal and external factors may affect these mappings **Sibling Action** Stefani Engelstein, 2017-12-05 The sibling stands out as a ubiquitous yet unacknowledged conceptual touchstone across the European long nineteenth century Beginning in the late eighteenth century Europeans embarked on a new way of classifying the world devising genealogies that determined degrees of relatedness by tracing heritage through common ancestry This methodology organized historical systems into family trees in a wide array of new disciplines transforming into siblings the closest contemporaneous terms on trees of languages religions races nations species or individuals In literature a sudden proliferation of siblings often incestuously inclined negotiated this confluence of knowledge and identity In all genealogical systems the sibling term not quite same and not quite other serves as an active fault line necessary for and yet continuously destabilizing definition and classification In her provocative book Stefani Engelstein argues that this pervasive relational paradigm shaped the modern subject life sciences human sciences and collective identities such as race religion and gender The insecurity inherent to the sibling structure renders the systems it underwrites fluid It therefore offers dynamic potential but also provokes counterreactions such as isolationist theories of subjectivity the political exclusion of sisters from fraternal equality the tyranny of intertwined economic and kinship theories conflicts over natural kinds and evolutionary speciation and invidious anthropological and philological classifications of Islam and Judaism Integrating close readings across the disciplines with panoramic intellectual history and arresting literary interpretations Sibling Action presents a compelling new understanding of systems of knowledge and provides the foundation for less confrontational formulations of belonging identity and agency **The Sarahu New 07 Literature Wonders Of the world** Sarahu Nagarazan, 2023-09-10 Sarahu new 7 Literature Wonders of the world have done the 1st 2nd 3rd 4th 5th 6th and 7th Human Wonders of the world from Sarahu World Records and the remaining 22 Organizations with 300 manpower and with another audience opinions and recommendations And doing it Here s how we did and worked on the 7 Literature World Wonders of Sarahu Here are some of the most important and pertinent documents and the combination of all these records made it the new 1st to 7th Literature Wonder popular in the World Sarahu s all category awards of achievements included has been proclaimed and declaration is that to the 2018 2019 as the 7 most Literature wonders in the world with
