Traditional Art represents a disentangling of the interwoven strands of orality textuality and verbal art It shows how we can learn to appreciate how Homer's art succeeds not in spite of the oral tradition in which it was composed but rather through its unique agency *Italo Calvino and Classics*, 2024-12-23 In his *Memos for the Next Millennium* the Italian writer Italo Calvino identified five literary qualities that should accompany writers and readers into the literature of the future lightness quickness exactitude visibility multiplicity Though never finished the *Memos* continue to inspire readers and scholars This volume turns three of Calvino's poetic qualities lightness quickness multiplicity into powerful hermeneutic strategies for reading ancient and late antique texts ranging widely from Homer's *Iliad* to Claudian's *carmina minora* It is the first book to read ancient literature through the lens of Calvino's *Memos* thus fostering a new discussion of the interactions between modern and ancient texts as well as between methodologies
