Education and Ethno-Politics Kelsey Shanks,2015-11-19 The Iraqi Disputed Territories consist of 15 districts stretching across four northern governorates While an administrative solution for the disputed territories remains evasive minority groups across the region have been pulled into a clash over demographic composition as each disputed district faces ethnically defined claims Meanwhile inter ethnic communal tensions are rising and questions of identity increasingly overshadow day to day life There has been little research on the impact of heightened identity politics on the everyday lives of citizens Regardless of the final administrative outcome the multi ethnic population of the region requires services and systems of co existence and in the fragile ethno political environment of the disputed territories the way in which the

education system manages ethnic diversity is crucial. It is within this context that *Education and Ethno Politics* examines the development of education systems across the region post 2003. Drawing on over 50 interviews with regional education officials and community representatives, the book presents the impact of amplified ethno politics on the reconstruction of education in Iraq. It provides the first academic exploration into education in the region, exploring the significance of cultural reproduction and the link between demands for ethnically specific education, societal security, and the wider political contestation over the territory. A comprehensive analysis of the powerful role of education in identity-based conflicts, this book offers a highly insightful examination of Iraq's past and present, as well as formulating policy recommendations for its future. It is an essential resource for students, scholars, and policy makers with focus on the Middle East, specifically Iraqi and Kurdish studies, as well as those interested in Education policy and Conflict studies.

Communicating Across Cultures, First Edition Stella Ting-Toomey, 2012-04-11

From high-level business negotiations to casual conversations among friends, every interpersonal interaction is shaped by cultural norms and expectations. Seldom is this more clearly brought to light than in encounters between people from different cultural backgrounds, when dissimilar communication practices may lead to frustration and misunderstanding. This thought-provoking text presents a new framework for understanding the impact of culture on communication and for helping students build intercultural communication competence. With illustrative examples from around the globe, the book shows that verbal and nonverbal communication involves much more than transmitting a particular message; it also reflects each participant's self-image, group identifications, and values, and privacy and relational needs. Readers learn to move effectively and appropriately through a wide range of transcultural situations by combining culture-specific knowledge with mindful listening and communication skills. Throughout, helpful tables and charts and easy-to-follow guidelines for putting concepts into practice enhance the book's utility for students.
