## **Language Sign And Gender In Beowulf:**

*Language, Sign, and Gender in Beowulf* Gillian R. Overing, 1990 This is not a book about what Beowulf means but how it means and how the reader participates in the process of meaning construction to this end it is a bringing together of contemporary critical theory and Old English poetry Overing's primary aim is to address the poem on its own terms to trace and develop an interpretive strategy consonant with the terms of its difference from all other poems Beowulf's arcane structure describes cyclical repetitions and patterned intersections of themes that baffle a linear perspective the structure suggests instead the irresolution and dynamism of deconstructionist freeplay of textual elements *A Beowulf Handbook* Robert E. Bjork, John D. Niles, 1997-01-01 The most revered work composed in Old English Beowulf is one of the landmarks of European literature This handbook supplies a wealth of insights into all major aspects of this wondrous poem and its scholarly tradition Each chapter provides a history of the scholarly interest in a particular topic a synthesis of present knowledge and opinion and an analysis of scholarly work that remains to be done Written to accommodate the needs of a broad audience *A Beowulf Handbook* will be of value to nonspecialists who wish simply to read and enjoy Beowulf and to scholars at work on their own research In its clear and comprehensive treatment of the poem and its scholarship this book will prove an indispensable guide to readers and specialists for many years to come *Class and Gender in Early English Literature* Britton J. Harwood, Gillian R. Overing, 1994-05-22 The essays focus on class and gender not only sheds new light on old texts but also stretches the boundaries of the critical *modus operandi* which is often applied to such literature Women's Studies Network UK Association Newsletter These dramatic new readings of Old and Middle English texts explore the rich theoretical territory at the intersection of class and gender and highlight the interplay of the critic methodology and the medieval text *Monsters, Gender and Sexuality in Medieval English Literature* Dana Oswald, 2010 Case studies of Wonders of the East Beowulf Mandeville's Travels the Alliterative Morte Arthure and Sir Gowther reveal a shift in attitudes toward the gendered and sexed body and thus toward identity between the two periods while Old English authors and artists respond to the threat of the gendered monstrous form by erasing it Middle English writers allow transgressive and monstrous bodies to transform and therefore integrate into society This metamorphosis enables redemption for some monsters while other monstrous bodies become dangerously flexible and invisible threatening the communities they infiltrate These changing cultural reactions to monstrous bodies demonstrate the precarious relationship between body and identity in medieval literature *Gender in Debate From the Early Middle Ages to the Renaissance* T. Fenster, C. Lees, 2016-04-30 Modern scholarship generally treats the debate about women *querelle des femmes* as a late medieval phenomenon perhaps touched upon by canonic authors like Chaucer but truly begun by Christine de Pizan 1364 1429 and therefore primarily of English and French origin That emphasis has obscured the ways in which both writers were participating in a much wider much older cultural phenomenon with varied and intractable roots Articles in this collection explore how gender is put into debate

in Anglo Saxon German Spanish and Italian cultures and they re examine French and Middle English debate literature The collection is carefully planned to be accessible to students seeking an idea of the debate s motifs and contours while maintaining the high level of issue involvement necessary to commanding a more seasoned audience Contributors include Pamela Benson Alcuin Blamires Margaret Franklin Roberta Krueger Clare Lees and Gillian Overing Ann Matter Karen Pratt Helen Solterer Julian Weiss and Barbara Weissberger

**Motherhood and Mothering in Anglo-Saxon England** M. Dockray-Miller, 2000-03-15 Motherhood and Mothering in Anglo Saxon England sifts through the historical evidence to describe and analyze a world of violence and intrigue where mothers needed to devise their own systems to protect nurture and teach their children Mary Dockray Miller casts a maternal eye on Bede the Anglo Saxon Chronicle and Beowulf to reveal mothers who created rituals genealogies and institutions for their children and themselves Little known historical figures queens abbesses and other noblewomen used their power in court and convent to provide education medical care and safety for their children showing us that mothers of a thousand years ago and mothers of today had many of the same goals and aspirations

*The Beowulf Reader* Peter Stuart Baker, 2000 First Published in 2000 Routledge is an imprint of Taylor Francis an informa company

*Inhabited Spaces* Nicole Guenther Discenza, 2017-01-18 We tend to think of early medieval people as unsophisticated about geography because their understandings of space and place often differed from ours yet theirs were no less complex Anglo Saxons conceived of themselves as living at the centre of a cosmos that combined order and plenitude two principles in a constant state of tension In *Inhabited Spaces* Nicole Guenther Discenza examines a variety of Anglo Latin and Old English texts to shed light on Anglo Saxon understandings of space Anglo Saxon models of the universe featured a spherical earth at the centre of a spherical universe ordered by God They sought to shape the universe into knowable places from where the earth stood in the cosmos to the kingdoms of different peoples and to the intimacy of the hall Discenza argues that Anglo Saxon works both construct orderly place and illuminate the limits of human spatial control

*Tolkien and Alterity* Christopher Vaccaro, Yvette Kisor, 2017-10-11 This exciting collection of essays explores the

role of the Other in Tolkien's fiction his life and the pertinent criticism It critically examines issues of gender sexuality race and ethnicity language and identity in *The Lord of the Rings* *The Silmarillion* and lesser known works by Tolkien The chapters consider characters such as Lobelia Sackville Baggins Saruman and the Orcs as well as discussions of how language and identity function in the source texts The analysis of Tolkien's work is set against an examination of his life personal writing and beliefs Each essay takes as its central position the idea that how Tolkien responds to that which is different to that which is Other serves as a register of his ethics and moral philosophy In the aggregate they provide evidence of Tolkien's acceptance of alterity

*Childhood & Adolescence in Anglo-Saxon Literary Culture* Susan Irvine, Winfried Rudolf, 2018-01-01 Childhood Adolescence in Anglo Saxon Literary Culture counters the generally received wisdom that early medieval childhood and adolescence were an unrelentingly bleak experience The contributors analyse representations of children and their education in Old English Old Norse and Anglo Latin writings including hagiography heroic poetry riddles legal documents philosophical prose and elegies Within and across these linguistic and generic boundaries some key themes emerge the habits and expectations of name giving expressions of childhood nostalgia the role of uneducated parents and the religious zeal and rebelliousness of youth After decades of study dominated by adult gender studies *Childhood Adolescence in Anglo Saxon Literary Culture* rebalances our understanding of family life in the Anglo Saxon era by reconstructing the lives of medieval children and adolescents through their literary representation

Overing, 2019-10-07 Contemporary arts both practice and methods offer medieval scholars innovative ways to examine explore and reframe the past Medievalists offer contemporary studies insights into cultural works of the past that have been made or reworked in the present Creative critical writing invites the adaptation of scholarly style using forms such as the dialogue short essay and the poem these are the authors argue appropriate ways to explore innovative pathways from the contemporary to the medieval and vice versa Speculative and non traditional The Contemporary Medieval in Practice adapts the conventional scholarly essay to reflect its cross disciplinary creative subject This book does Medieval Studies differently by bringing it into relation with the field of contemporary arts and by making practice in the sense used by contemporary arts and by creative critical writing central to it Intersecting with a number of urgent critical discourses and cultural practices such as the study of the environment and the ethics of understanding bodies identities and histories this short accessible book offers medievalists a distinctive voice in multi disciplinary trans chronological collaborative conversations about the Humanities Its subject is early medieval British culture often termed Anglo Saxon Studies c 500 1100 and its relation with use of and re working in contemporary visual poetic and material culture after 1950 The Contemporary Medieval in Practice is both wise and unafraid to take risks Fully embedded in scholarship yet reaching into unmapped territory the authors move across disciplines and forge surprising links Thought provoking and evocative this is a book that will have an impact that far belies its modest length Linda Anderson Newcastle

University      Narrative Pulse of Beowulf John M Hill, 2009-10-14 One of the most consistent critiques levelled against Beowulf is that it lacks a steady narrative advance and that its numerous digressions tend to complicate if not halt the poem's movement. As those passages often look backward or far ahead in narrative time they seem to transform the poem into a meditative pastiche. The Narrative Pulse of Beowulf counters this assertion examining Beowulf as a social drama with a strong forward moving narrative momentum. John M Hill discerns a distinctive narrative pulse arising out of the poem's many scenes of arrival and departure. He argues that such scenes far from being fixed or type scenes are socially dramatic and a key to understanding the structural density of the poem. Bolstering his analysis with a strong understanding of the epic, Hill looks at Beowulf in relation to other stories such as The Odyssey and The Iliad, epics that though they may appear to have a certain narrative elasticity use scenes of arrival and departure to create a cohesive social world in which stories unfold. As a new and comprehensive study of one of the most important Old English texts, The Narrative Pulse of Beowulf sheds new light on this famous poem and the epic tradition itself.

*Rivalrous Masculinities* Ann Marie Rasmussen, 2019-04-30 Bringing together the work of both leading and emerging scholars in the field of medieval gender studies, the essays in *Rivalrous Masculinities* advance our understanding of medieval masculinity as a pluralized category and as an intersectional category of gender. The essays in this volume are distinguished by a conceptual focus that goes beyond heteronormativity and by their attention to constructions of medieval masculinity in the context of femininity, class, religion, and place. Some widen the field of medieval gender studies inquiry to include explorations of medieval friendship as a framework or culture of arousal and deep emotionality that produced multiple complex ways of living intensely with respect to gender and sexuality without reducing all forms of intimacy to implicit sexuality. Some examine intersections of identity explicating change and difference in conventional modes of gender with regards to regional culture, religion, race, or class. In order to ground this intersectional and interdisciplinary approach with the appropriate disciplinary expertise, the essays in this volume represent a broad cross section of disciplines: art history, religious studies, history, and French, Italian, German, Yiddish, Middle English, and Old English literature. Together they open up new intellectual vistas for future research in the field of medieval gender studies. Contributors include Ann Marie Rasmussen, Clare A. Lees, Gillian R. Overing, J. Christian Straubhaar, Jones Astrid Lembke, Darrin Cox, F. Regina Psaki, Corinne Wieben, Ruth Mazo Karras, Diane Wolfthal, Karma Lochrie, and Andreas Krass.

**Medieval Masculinities** Clare A. Lees, Thelma S. Fenster, Jo Ann McNamara, 1994 This collection of essays examines the ideals and archetypes of men in Medieval times and how these concepts have affected the definition of masculinity and its place in history.

*American/Medieval* Gillian R. Overing, Ulrike Wiethaus, 2016-10-10 This volume offers a dialogue with and through the medieval informed by cultural categories of performativity and simultaneity in on-line media architecture, film, poetry, and social formations. The articles depart from Medievalism Studies and attempt to answer questions such as: How do medievalists, artists, writers, and entertainment industries communicate, replicate, and evoke medieval formations? How do

national and transnational discursive fields relate to understandings of the medieval in its many unstable states Where are the communal memory sites and what functions do they serve for those who are associated with them Where are the medieval disjunctions and conjunctions of race ethnicity and time in a settler society And what do place nature and landscape have to do with it     Reconsidering Gender, Time and Memory in Medieval Culture Elizabeth Cox, Liz Herbert McAvoy, Roberta Magnani, 2015 A consideration of the ways in which the past was framed and remembered in the pre modern world The training and use of memory was crucial in medieval culture given the limited literacy at the time but to date very little thought has been given to the complex and disparate ways in which the theory and practices of memory interacted with the inherently unstable concepts of time and gender at the time The essays in this volume drawing on approaches from applied poststructural and queer theory among others reassess those ideologies meanings and responses generated by the workings of memory within and over time Ultimately they argue for the inherent instability of the traditional gender time memory matrix within which men are configured as the recorders of history and women as the repositories of a more inchoate familial and communal knowledge showing the Middle Ages as a locus for a far more fluid conceptualization of time and memory than has previously been considered Elizabeth Cox is Lecturer in Old English at Swansea University Roberta Magnani is Lecturer in Medieval Literature at Swansea University Liz Herbert McAvoy is Professor of Medieval Literature at Swansea University Contributors Anne E Bailey Daisy Black Elizabeth Cox Fiona Harris Stoertz Ayoush Lazikani Liz Herbert McAvoy Pamela E Morgan William Rogers Patricia Skinner Victoria Turner     Old English Literature John D. Niles, 2016-02-19 This review of the critical reception of Old English literature from 1900 to the present moves beyond a focus on individual literary texts so as to survey the different schools methods and assumptions that have shaped the discipline Examines the notable works and authors from the period including Beowulf the Venerable Bede heroic poems and devotional literature Reinforces key perspectives with excerpts from ten critical studies Addresses questions of medieval literacy textuality and orality as well as style gender genre and theme Embraces the interdisciplinary nature of the field with reference to historical studies religious studies anthropology art history and more     *Representation and Design* Pauline E. Head, 1997-01-01 Examines Old English poetry from the point of view of its interpretation drawing on Anglo Saxon pictorial art as a model for the interaction of representation and design
