Formal Revolution in the Work of Baudelaire and Flaubert Kathryn Oliver Mills, 2012-03-22 In *Formal Revolution in the Work of Baudelaire and Flaubert* Kathryn Oliver Mills argues that despite the enduring celebrity of Baudelaire and Flaubert their significance to modern art has been miscast and misunderstood To date literary criticism has paid insufficient attention to these authors literary form and their socio cultural context In addition critical literature has not always adequately integrated individual works to each author's broader oeuvre on the one hand critics do not often maintain rigorous distinctions among texts when discussing Baudelaire and Flaubert and on the other hand scholars of Baudelaire and Flaubert have not consistently considered the relationship of individual texts to either writer's corpus Furthermore critical focus has been on the modernity of *Les Fleurs du mal* *Madame Bovary* and *L'Education Sentimentale* Addressing these lacunae in scholarship Mills puts forth the argument that Baudelaire's collection of prose poems *Le Spleen de Paris* and Flaubert's short poetic tales *Trois contes* best embody the modern aesthetic that Baudelaire develops in *Le Peintre de la vie moderne* and that Flaubert elaborates in his correspondence *Formal Revolution* places these relatively less well known but last published works in relationship with the artistic goals of their authors showing that Baudelaire and Flaubert were both acutely aware of the need to launch a new form of literature in order to literally come to terms with the dramatic changes transforming the nineteenth century into the Modern Age More specifically *Formal Revolution* demonstrates that for Baudelaire and Flaubert the formal project of fusing prose with poetry as poetic prose in the case of Flaubert as poetry in prose in the case of Baudelaire was crucial to their mission of painting modern life This work concludes that experimentation with literary form represents these two seminal writers major legacy to modernity suggests that the twentieth century might have gone too far down that road and speculates about the future direction of literature The modernity of Baudelaire and Flaubert still relevant today but often taken for granted needs to be reexamined in light of the cultural formal and contextual

Class List Tufts Library,1900 **Research in Education** ,1971 **Preparing Teachers to Work with Multilingual Learners** Meike Wernicke,Svenja Hammer,Antje Hansen,Tobias Schroedler,2021-04-15 This collection examines a diverse range of approaches to multilingualism in teacher education programmes across Europe and North America The authors investigate how pre service teachers are being prepared to work in multilingual contexts and discuss the key features of current pre service teacher education initiatives that address the increasing linguistic and cultural diversity evident in classrooms in their respective countries The focus is not only on migrant background learners but includes students from Indigenous autochthonous and heritage language backgrounds and speakers of minoritised regional varieties The chapters contextualise both historically and ideologically the specific initiatives and measures taken in the participating countries They also reveal the complexity of each educational context and the role that history language policies and institutional and programmatic priorities play in the development and implementation of a multilingual focus in teacher education In exploring how pre service teachers are being prepared to work in multilingual contexts the authors take a critical view of how multilingualism itself is conceptualised within and across contexts The book highlights the valuable impact that explicit instruction on theories of multilingualism pedagogies in multilingual classrooms and lived realities of multilingual children can have on the beliefs and practices of pre service teachers **NBS Special Publication** ,1968 **Public Works Appropriations for 1967** United States.
