Nature in Ireland John Wilson Foster, Helena C. G. Chesney, 1998 How has Irish nature been studied How has it been expressed in literature and popular culture How has it influenced and been influenced by political economic and social change These long neglected questions are pursued in *Nature in Ireland* a pioneering collection of original essays by leading naturalists science writers and cultural historians who bring us from the geological prehistory of Ireland to the environmental threats of the late twentieth century

Whittled Away Padraic Fogarty, 2017-03-01 Ireland's heritage is being steadily whittled away by human exploitation pollution and other aspects of modern development This could represent a serious loss to the nation Irish Government Report June 1969 *Nature in Ireland* is disappearing at an alarming rate Overfishing industrial scale farming and pollution have decimated wildlife habitats and populations In a single lifetime vast shoals of herring rivers bursting with salmon and bogs alive with flocks of curlew and geese have all become folk memories Coastal and rural communities are struggling to survive the foundations of our tourism and agricultural sectors are being undermined The lack of political engagement frequently sees the state in the European Court of Justice for environmental issues Padraic Fogarty authoritatively charts how this grim failure to manage our natural resources has impoverished our country But all is not lost he also reveals possibilities for the future describing how we can fill our seas with fish farm in tune with nature and create forests that benefit both people and wildlife He makes a persuasive case for the return of long lost species like wild boar cranes and wolves showing how the interests of the country and its nature can be reconciled A provocative call to arms *Whittled Away* presents an alternative path that could lead us all to a brighter future
