Ryszard Kapuscinski Artur Domoslawski, 2012-07-10 Reporting from such varied locations as postcolonial Africa revolutionary Iran the military dictatorships of Latin America and Soviet Russia the Polish journalist and writer Ryszard Kapu ci ski was one of the most influential eyewitness journalists of the twentieth century During the Cold War he was a dauntless investigator as well as a towering literary talent and books such as *The Emperor* and *Travels with Herodotus* founded the new genre of literary reportage It was an achievement that brought him global renown not to mention the uninvited attentions of the CIA In this definitive biography Artur Domos awski shines a new light on the personal relationships of this intensely charismatic deeply private man examining the intractable issue at the heart of Kapu ci ski s life and work the relationship and tension between journalism and literature In researching this book Domos awski himself an award winning foreign correspondent enjoyed unprecedented access to Kapu ci ski s private papers The result traces his mentor s footsteps through Africa and Latin America delves into files and archives that Kapu ci ski himself examined and records conversations with the people that he talked to in the course of his own investigations Ryszard Kapu ci ski is a meticulous riveting portrait of a complex man of intense curiosity living at the heart of dangerous times **Ryszard Kapuściński** Beata

Nowacka, Zygmunt Ziątek, 2023-01-13 An award winning writer and a candidate for the Nobel Prize for Literature Ryszard Kapu ci ski 1932 2007 was a celebrated Polish journalist and author Praised for the lengths to which he would go to get a story Kapu ci ski gained an extraordinary knowledge of the major global events of the second half of the twentieth century and shared it with his diverse audience The first posthumous monograph on the writer s life and work Ryszard Kapu ci ski confronts the mixed reception of Kapu ci ski s tendency to merge the conventions of reportage with the artistry of literature Beata Nowacka and Zygmunt Zi tek discuss the writer s accounts of the decolonization of Africa and his work in Asia and South America between 1956 and 1981 a period during which Kapu ci ski reported on twenty seven revolutions and coups They argue that the journalistic tradition is not in conflict with Kapu ci ski s meditations on the deep meanings of these events and that his first person involvement in his text was not an indulgence detracting from his journalistic adventures but a well thought out conception of eyewitness testimony developing the moral and philosophical message of the stories

Exploring the whole of Kapu ci ski s achievements Nowacka and Zi tek identify a constant tension between a strictly journalistic position and what in Poland is called literary reportage located on the border between journalism and artistic prose Kapu ci ski s desire and dedication to make more of journalistic writing is the driving force behind the excellence and readability that have made his legendary books so controversial and so widely celebrated **Canadian Institute** Royal

deal with the perception and the processing of catastrophe what kind of social knowledge does this process produce and how

does it contribute to the sustainable development of societies The book seeks to understand how societies and cultures deal with disaster and the rhetorical means they resort to in order to represent it It is situated on the cusp between the response to natural catastrophe the renewed awareness of human vulnerability in the face of environmental hazard and irresponsible policies and the social role of traditional knowledge and humanistic ideas for the preservation of human communities It aims to be diverse in disciplinary allegiance and cultural situation and relevant by bringing together articles by well known scholars and policy makers to jointly discuss the possibilities of reframing hazard for the future so that one may learn from restored behavior instead of repeating the mistakes of the past

Cultural Landscapes of Post-Socialist Cities Mariusz Czepczynski, 2016-04-22 The cultural landscapes of Central European cities reflect over half a century of socialism and are marked by the Marxists vision of a utopian landscape Architecture urban planning and the visual arts were considered to be powerful means of expressing the people s power However since the velvet revolutions of 1989 this urban scenery has been radically transformed by new forces and trends infused by the free market democracy and liberalization This has led to landscape cleansing and recycling as these former communist nations used new architectural functional and social forms to transform their urbanscapes their meanings and uses Comparing case studies from different post socialist cities this book examines the culturally conditional variations between local powers and structures despite the similarities in the general processes and systems It considers the contemporary cultural landscapes of these post socialist cities as a dynamic fusion of the old communist forms and new free market meanings features and democratic practices of global influences and local icons The book assesses whether these urbanscapes clearly reflect the social cultural and political conditions and aspirations of these transitional countries and so a critical analysis of them provides important insights

Public Television in Poland Agnieszka Węglińska, 2021-10-03 This book examines the professional activity of public television journalists in Poland operating in the still unstable system of a post communist state to demonstrate how the media can work in the public interest to strengthen democracy Drawing on in depth interviews with Telewizja Polska TVP journalists the author shows how public television in Poland has become highly politicised and commercialised and must defend against constant attacks on its autonomy She draws parallels with the media systems in Hungary and the Czech Republic to analyse potential legal solutions and to highlight how Poland s journalists are subject to influences from the political class as well as from the market a situation brought about by flawed legislation the absence of a political culture an inefficient internal regulating process and lack of suitable training for the journalists themselves Adding an important perspective on recently developed media systems this book will be an important resource for scholars and students of journalism media studies media industries politics and media history
