## **Land Without Evil:**

*Land Without Evil* Richard Gott, 1993 Gott describes his journey through the heart of South America across the swampland that forms the watershed between the Plate and the Amazon rivers He intermingles his travel account with the results of his extensive research into the history of this land that once formed the contested frontier between Spanish and Portuguese territory and was the setting for a string of Jesuit missions and later for the extermination of the local peoples

**The Land Without Promise** Katerina Koci, 2021-07-29 Katerina Koci charts the development of the promised land motif starting from its biblical roots and examining its reception over the centuries until the present day As her cornerstone Koci uses Hans Georg Gadamer's claim that there are two complementary paths towards understanding and knowledge science and art Thus to be faithful to the creed of the great hermeneutist Koci ventures into both topics arguing that while science sets out historical critical analysis of the promised land motif in the Hebrew Bible and its later receptions art enriches the interpretation with its literary illustrations This volume places particular focus on American contexts since the concept of the promised land is so deeply intertwined with American religious political mythologies and with the art of John Steinbeck and Walter Brueggemann in particular By discussing artistic interpretation in biblical hermeneutics the context and reception of Genesis 15 7 and Exodus 3 8 in the Hebrew Bible and New Testament and the history of the promised land motif and its interpretations Koci argues that artistic receptions of biblical motifs are crucial for biblical scholarship in opening new hermeneutical and thematical horizons      **The Millennial New World** Frank Graziano, 1999 This is a study of millennialism the idea that something climactic will happen in the year 2000 in Latin America from the pre Columbian period up to the present

**Across The Boundaries Of Belief** Morton Klass, Maxine Weisgrau, 2018-02-20 This book focuses on anthropological questions and methods and is offered as a supplement to textbooks on the anthropology of religion It is designed to help students collecting and interpreting their own fieldwork or archival data and relating their findings to the work of others      [The Oxford Handbook of Latin American Christianity](#) David Thomas Orique, Susan

Fitzpatrick-Behrens, Virginia Garrard, 2020-03-23 By 2025 Latin America's population of observant Christians will be the largest in the world Nonetheless studies examining the exponential growth of global Christianity tend to overlook this region focusing instead on Africa and Asia Research on Christianity in Latin America provides a core point of departure for understanding the growth and development of Christianity in the Global South In *The Oxford Handbook of Latin American Christianity* an interdisciplinary contingent of scholars examines Latin American Christianity in all of its manifestations from the colonial to the contemporary period The essays here provide an accessible background to understanding Christianity in Latin America Spanning the era from indigenous and African descendant people's conversion to and transformation of Catholicism during the colonial period through the advent of Liberation Theology in the 1960s and conversion to

Pentecostalism and Charismatic Catholicism The Oxford Handbook of Latin American Christianity is the most complete introduction to the history and trajectory of this important area of modern Christianity *Colonial Kinship* Shawn Michael Austin, 2020-12-15 Winner of the 2021 Bandelier Lavrin Book Prize from the Rocky Mountain Council for Latin American Studies In *Colonial Kinship* Guaran Spaniards and Africans in Paraguay historian Shawn Michael Austin traces the history of conquest and colonization in Paraguay during the sixteenth and seventeenth centuries Emphasizing the social and cultural agency of Guaran one of the primary indigenous peoples of Paraguay not only in Jesuit missions but also in colonial settlements and Indian pueblos scattered in and around the Spanish city of Asunci n Austin argues that interethnic relations and cultural change in Paraguay can only be properly understood through the Guaran logic of kinship In the colonial backwater of Paraguay conquistadors were forced to marry into Guaran families in order to acquire indigenous tributaries thereby becoming brothers in law to Guaran chieftains This pattern of interethnic exchange infused colonial relations and institutions with Guaran social meanings and expectations of reciprocity that forever changed Spaniards African slaves and their descendants Austin demonstrates that Guaran of diverse social and political positions actively shaped colonial society along indigenous lines *New World of Gain* Brian P. Owensby, 2021-12-21 In the centuries before Europeans crossed the Atlantic social and material relations among the indigenous Guaran people of present day Paraguay were based on reciprocal gift giving But the Spanish and Portuguese newcomers who arrived in the sixteenth century seemed interested in the Guaran only to advance their own interests either through material exchange or by getting the Guaran to serve them This book tells the story of how Europeans felt empowered to pursue individual gain in the New World and how the Guaran people confronted this challenge to their very way of being Although neither Guaran nor Europeans were positioned to grasp the larger meaning of the moment their meeting was part of a global sea change in human relations and the nature of economic exchange Brian P Owensby uses the centuries long encounter between Europeans and the indigenous people of South America to reframe the notion of economic gain as a historical development rather than a matter of human nature Owensby argues that gain the pursuit of individual material self interest must be understood as a global development that transformed the lives of Europeans and non Europeans wherever these two encountered each other in the great European expansion spanning the sixteenth to nineteenth centuries Big Water Jacob Blanc, Frederico Freitas, 2018-04-10 A transnational approach to the history of a key Latin American border region Provided by publisher *American, African, and Old European Mythologies* Yves Bonnefoy, 1993-05-15 Here are 80 articles on mythologies from around the world including Native Americans African Celtic Norse and Slavic and about such topics as fire the cosmos and creation Also includes an overview of the Indo Europeans and an essay on the religions and myths of Armenia Illustrations **The Lowland South American World** Casey High, Luiz Costa, 2024-12-12 The Lowland South American World showcases cutting edge research on the anthropology of Lowland South America providing both an in depth knowledge of Lowland South
