**Running Smart** Mariska van Sprundel, 2021-09-14. A science writer and recreational runner explores the science behind popularly held beliefs about shoes, injuries, nutrition, runner's high, and more. Conventional wisdom about running is passed down like folklore and sometimes contradicts itself: the right kind of shoe prevents injury or running barefoot like our prehistoric ancestors is best; eat a high fat diet and also carbo load before a race; running cures depression but it might be addictive; running can save your life although it can also destroy your knee cartilage. Often it's hard to know what to believe. In *Running Smart*, Mariska van Sprundel, a science journalist and recreational runner who has had her fair share of injuries, sets out to explore the science behind such claims. In her quest, van Sprundel reviews the latest developments in sports science, consults with a variety of experts, and visits a sports lab to have her running technique analyzed. She learns among other things that according to evolutionary biology, humans are perfectly adapted to running long distances even if our hunter-gatherer forebears suffered plenty of injuries; that running sets off a shockwave that spreads from foot to head which may or may not be absorbed by cushioned shoes; and that a good sports bra controls the ping-pong like movements of a female runner's breasts. She explains how the body burns fuel, the best foods to eat before and after running, and what might cause runner's high. More than fifty million Americans are runners, and a slight majority of them are women. This engaging and enlightening book will help both novice and seasoned runners run their smartest.

**Warriors** Michael Obermire, 2011-12. *Warriors: Every Man Matters* is a collection of short stories with a Christian message presented in an adventurous, dramatic fashion infused with humor and realism. The author uses brief yet in-depth vignettes of everyday life to explore how we can embody a biblical concept: hope, love, forgiveness, each day. *Warriors* also addresses the big issues like the death of a family member and drug use but never in an accusing manner. The main characters, ranging from soldiers to construction workers, boxers, and professional baseball players to fathers, businessmen, and families, create a wide reader appeal. The primary target audience is men, but women have also shown a strong interest. Questions and thoughts to consider are included at the end of each of the twenty-five stories to encourage the use of *Warriors* for weekly study in a church or
