Landmines Legacy Of Conflict A Manual For Development Workers:

Landmines Rae McGrath,1998 Landmines Rae McGrath,1998 *Robotics Research* Yoshiaki Shirai,Shigeo Hirose,2012-12-06 The Eighth International Symposium of Robotics Research was held in Kanagawa Japan on October 4 7 1997 Robotics Research presents the findings of this symposium The papers written by international specialists in the field cover the many topics concerning advanced robotics today ranging from practical system design to theoretical reasoning and planning They assess the state of the field and discuss all the current and emerging trends dealing with amongst many other topics mobile robotics manufacturing learning from humans autonomous land vehicles humanoid robots future robots and new components The reader will share with the attendees the meaningful steps forward in building the emerging body of concepts methods scientific and technical knowledge that shape modern day robotics **Moral Entrepreneurs and the Campaign to Ban Landmines** ,2007-01-01 This work advances the proposition that traditional top down politics is being challenged by grass roots civil society based bottom up politics in that most sensitive areas the national security arms control dichotomy The book uses the example of the International Campaign to Ban Landmines ICBL that has succeeded in reversing or altering the national policies on landmines in over 130 countries globally The book cites the efforts of what the author calls moral entrepreneurs that is people who have adopted the risk taking characteristics of business and social leaders to bring this state of affairs about As a new polity that challenges old assumptions about the state s preserve in matters of national security and moral force the ICBL has set the benchmark for a fresh twenty first century paradigm in arms control Disarming States Kenneth R. Rutherford,2010-12-07 This book provides a detailed history of the global movement to ban anti personnel landmines APL marking the first case of a successful worldwide civil society movement to end the use of an entire category of weapons In March 1995 Belgium became the first state to pass a domestic anti personnel landmine ban In December 1997 122 states joined Belgium in signing the comprehensive Mine Ban Treaty also known as the Ottawa Treaty The movement to ban landmines became a turning point in global politics that continues to influence policy and strategy decisions regarding weapon use today Disarming States The International Movement to Ban Landmines describes how non government organizations NGOs brought the landmine issue to international attention by forming the International Campaign to Ban Landmines ICBL The author presents new information gleaned from interviews and intensive research conducted around the world The critical role of mid size states such as Austria Canada and Switzerland recruited to back the movement s goals is examined The book concludes by examining how NGOs affect the international political agenda especially in seeking legal prohibitions on weapons and changes in states behaviors Conflict and Catastrophe Medicine James M. Ryan,Adriaan P.C.C. Hopperus Buma,Charles W. Beadling,Aroop Mozumder,David M. Nott,Norman M. Rich,Walter Henny,David MacGarty,2014-01-13 The first edition of conflict and catastrophe was produced in 2002 and a second successful edition followed in 2009 The decision to produce these works sprung from painful problems experienced by

colleagues and authors themselves during many humanitarian and related deployments The guide for both editions was to provide in one volume an entry level text covering all aspects of deployment with an emphasis on medicine and healthcare in these environments This third revised expanded and updated edition of Conflict and Catastrophe Medicine A Practical Guide follows its successful predecessors in providing a framework for use by health professionals visiting a resource constrained environment Encompassing problems brought about by local conflict or natural disasters the book covers preparation organisation logistics treatment of major trauma and medical emergencies and the special problems of delivering medicine in a hostile environment This book comprehensively tackles Self preparation of health professionals to face a range of medical and related problems which occur in hostile and remote environments War and disaster medicine covering acute management rehabilitation reconstruction and prevention Bridging the fields of medicine nursing international relations history politics and economics The book also touches on nutrition infection trauma psychiatry and psychological medicine and training *Hidden Killers, 1998* ,1998 Hidden Killers, 1998 United States. Department of State. Office of Humanitarian Demining Programs,1998 Amerikansk rapport der beskriver de problemer udl gning af miner i forbindelse med krigsf relse giver overalt i verden Is r civilbefolkningen rammes fordi de udlagte miner specielt personelminer sj ldent ryddes effektivt n r krigshandlingerne oph rer Landmines in Cambodia , Department of State Publication ,1998 **Field and Service Robotics** Alexander Zelinsky,2012-12-06 Joe Engelberger the pioneer of the robotics industry wrote in his 1989 book Robotics in Service that the inspiration to write his book came as a reaction to an industry sponsored forecast study of robot applications which predicted that in 1995 applications of robotics outside factories the traditional domain of industrial robots would amount to less than 1% of total sales Engelberger believed that this forecast was very wrong and instead predicted that the non industrial class of robot applications would become the largest class Engelbergers prediction has yet to come to pass However he did correctly foresee the growth in non traditional applications of robots Robots are now beginning to march from the factories and into field and service applications This book presents a selection of papers from the first major international conference dedicated to field and service applications of robotics This selection includes papers from the leading research laboratories in the world together with papers from companies that are building and selling new and innovative robotic technology It describes interesting aspects of robots in the field ranging from mining agriculture construction cargo handling subsea operations removal of landmines to terrestrial exploration It also covers a diverse range of service applications such as cleaning propagating plants and aiding the elderly and handicapped and gives considerable attention to the technology required to realise robust reliable and safe robots Afghanistan David Erik Nelson,2013-06-11 This anthology contains a diverse collection of writings that detail the extreme persecutions and genocidal acts committed by soviet forces in Afghanistan Background information and first person accounts of the events are provided as well to give the reader a more rounded knowledge of the events Charts and graphs are provided to summarize important statistical

information and timelines are included to help the reader trace the sequence of events

US Politics, Propaganda and the Afghan Mujahedeen: Domestic Politics and the Afghan War Jacqueline Fitzgibbon, 2020-04-02 Influential fundraising groups and senators in the US made enormous efforts in the First Afghan War to present the Mujahedeen as freedom fighters even while the CIA secretly armed them with surface to air missiles and other weapons A mass propaganda effort was launched aimed at portraying parts of Afghanistan as victims of communist aggression As we know now many of those groups that were armed became the seedbeds for organisations like Al Qaeda Dr Jacqueline Fitzgibbon through a forensic investigation of the American PR of the period argues that this militarised and fractured Afghan society for a generation partly resulting in the mess today This book will look specifically at the American efforts to suppress any reports which showed these forces as anti western or anti American values and instead to portray the arming of partisan groups often an extremely dangerous course of action as an example of American values in action

Advances in Automatic Control Mihail Voicu, 2012-12-06 During the academic year 2002 2003 the Faculty of Automatic Control and Computer Engineering of Ia i Romania and its Departments of Automatic Control and Industrial Informatics and of Computer Engineering respectively celebrated 25 years from the establishment of the specialization named Automatic Control and Computer Engineering within the framework of the former Faculty of Electrical Engineering of Ia i and at the same time 40 years since the first courses on Automatic Control and Computers respectively were introduced in the curricula of the former specializations of Electromechanical Engineering and Electrical Power Engineering at the already mentioned Faculty of Electrical Engineering The reader interested to know some important moments of our evolution during the last five decades is invited to see the Addendum of this volume where a short history is presented And to highlight once more the nice coincidences it must be noted here that in 2003 our Technical University Gheorghe Asachi of Ia i celebrated 190 years from the emergence of the first cadastral engineering degree course in Ia i thanks to the endeavor of Gheorghe Asachi which is today considered to be the beginning of the engineering higher education in Romania Generally speaking an anniversary is a celebration meant to mark special events of the past with festivities to be performed solemnly and publicly according to a specific ritual
