Encyclopedia of Children's Literature Bernice E. Cullinan,Diane Goetz Person,2005-01-01 Provides articles covering children s literature from around the world as well as biographical and critical reviews of authors including Avi C S Lewis J K Rowling and Anno Mitsumasa **Ideologies of Identity in Adolescent Fiction** Robyn McCallum,2012-10-02 Ideologies of Identity

in Adolescent Fiction examines the representation of selfhood in adolescent and children s fiction using a Bakhtinian approach to subjectivity language and narrative The ideological frames within which identities are formed are inextricably bound up with ideas about subjectivity ideas which pervade and underpin adolescent fictions Although the humanist subject has been systematically interrogated by recent philosophy and criticism the question which lies at the heart of fiction for young people is not whether a coherent self exists but what kind of self it is and what are the conditions of its coming into being Ideologies of Identity in Adolescent Fiction has a double focus first the images of selfhood that the fictions offer their readers especially the interactions between selfhood social and cultural forces ideologies and other selves and second the strategies used to structure narrative and to represent subjectivity and intersubjectivity **Language of Goldfish Teacher**

Guide Novel Units, Incorporated,2003-01-01 Goldwyn A. Scott Berg,2013-08-01 Samuel Goldwyn was the premier dream maker of his era a fierce independent force i a time when studios ruled a producer of silver screen sagas who was in all probability the last Hollywood tycoon In this riveting book Pulitzer Prize winning biographer A Scott Berg tells the life story of this remarkable man a tale as rich with drama as any feature length epic and as compelling as the history of Hollywood itself *Nominal Arguments and Language Variation* Li Julie Jiang,2021 Nominal Arguments in Language Variation

investigates nominal arguments in classifier languages refuting the long held claim that classifier languages do not have overt article determiners Li Julie Jiang brings the typologically unique Nuosu Yi a classifier language that has an overt definite determiner D to the forefront of the theoretical investigation By comparing nominal arguments in Nuosu Yi to those in Mandarin a well studied classifier language that has no overt evidence of an article determiner Jiang provides new accounts of variation among classifier languages and extends the parameters to argument formation in general In addition to paying particular attention to these two classifier languages the discussion of nominal arguments also covers a wider range of classifier languages and number marking languages from Romance Germanic and Slavic to Hindi Using a broad cross

linguistic perspective and detailed empirical analysis Nominal Arguments in Language Variation is an important contribution to research on classifier languages and the fields of theoretical syntax semantics language variation and linguistic typology

bug that shows up on one run may never happen when you are looking for it but unfailingly returns as soon as your attention moves elsewhere A large fraction of the program s code can be made up of marshalling and coordination algorithms The core application can easily be obscured by a maze of plumbing Functional programming is a radical elegant high level attack on the programming problem Radical because it dramatically eschews side effects elegant because of its close connection with mathematics high level because you can say a lot in one line But functional programming is definitely not yet mainstream That s the trouble with radical approaches it s hard for them to break through and become mainstream But that doesn t make functional programming any less fun and it has turned out to be a wonderful laboratory for rich type systems automatic garbage collection object models and other stuff that has made the jump into the mainstream **Peter Ackroyd** Susana Onega Jaén,1998 This study explores the works of Peter Ackroyd the award winning English novelists of the 1980s

Definiteness in a Language without Articles - A Study on Polish Adrian Czardybon,2017-06-13 The aim of this book is to investigate how definiteness is expressed in Polish a language which is claimed to have no definite and in definite articles The central question is how the difference in definiteness is indicated between a woman and the woman in Polish In English the definite article the and the indefinite article a express the category of definiteness explicitly Since definiteness is also relevant in articleless languages there are other means to indicate that a nominal phrase is definite or indefinite This study is delimited to four means for expressing definiteness in Polish which are demonstratives aspect case alternation and information structure Each strategy is investigated independently from the others although they interact in a complex way which is shown at the end of this book resulting in a decision tree Polish is not investigated in isolation however the study is complemented by comparisons with other Slavic languages and also with a Polish dialect called Upper Silesian which differs from Polish The analysis in this book is based on L bner s theory of Concept Types and Determination CTD L bner s distinction of the four concept types sortal relational functional individual is crucial since definiteness phenomena under discussion can be explained Therefore the interaction of the four concept types with the four definiteness strategies plays a central role in this book *The Horn Book Magazine* ,1991 Library of Congress Subject Headings Library of Congress,2011
