Communicating in the Anthropocene C. Vail Fletcher,Alexa M. Dare,2021-02-04 The purpose of Communicating in the Anthropocene Intimate Relations is to tell a different story about the world Humans especially those raised in Western traditions have long told stories about themselves as individual protagonists who act with varying degrees of free will against a background of mute supporting characters and inert landscapes Humans can be either saviors or destroyers but our actions are explained and judged again and again as emanating from the individual And yet as the coronavirus pandemic has made clear humans are unavoidably interconnected not only with other humans but with nonhuman and more than human others with whom we share space and time Why do so many of us humans avoid deny or resist a view of the world where our lives are made possible maybe even made richer through connection In this volume we suggest a view of communication as intimacy We use this concept as a provocation for thinking about how we humans are in an always already state of being in relation with other humans nonhumans and the land Library of Congress Subject Headings Library of Congress.
