Language Connections

Annette M.B. de Groot, Judith F. Kroll

Language Connections:

Mid-Holocene Language Connections between Asia and North America Edward Vajda, Michael Fortescue, 2022-01-31 This volume presents the up to date results of investigations into the Asian origins of the only two language families of North America that are widely acknowledged as having likely genetic links in northern Asia. It brings together all that has been proposed to date under the respective rubrics of the Uralo-Siberian Eskimo-Yukaghir-Uralic hypothesis and the Dene-Yeniseian hypothesis. The evolution of the two parallel research strategies for fleshing out these linguistic links between North America and Asia are compared and contrasted. Although focusing on stringently controlled linguistic reconstructions, the volume draws upon archaeological and human genetic data where relevant. **Many Languages, Building**

Connections Karen Nemeth, 2012 All infants and toddlers need experiences that nurture, support and teach their home language and culture. Language is a vital component of early experiences well before the child can say his first word. Many Languages Building Connections outlines adaptable strategies that caregivers of children younger than the age of three need to feel confident that they know how language develops, how cultural differences can come into play and how to assess an individual child's situation to provide appropriate support. Teaching World Languages with the Five Senses Elizabeth

Porter, 2024-02-01 With this fun practical guide you will have everything you need to re-envision and reinvigorate your world language classroom. Author Elizabeth Porter draws on a brain-based approach to show how language learning is a sensory experience. Students can effectively learn languages and improve retention through activities and lessons that incorporate the five senses: sight, hearing, taste, touch and smell. Chapters include real-world research-backed examples and classroom strategies and activities ready for use. An essential resource for world language teachers, this book introduces language learning philosophy and an out-of-the-box effective approach that uses neuroscience combined with best practices to promote a highly engaging language learning environment. Disciplining the Savages, Savaging the Disciplines Martin N.

Nakata, 2007 Martin Nakata's book *Disciplining the Savages, Savaging the Disciplines* represents the most focussed and sustained Indigenous critique of anthropological knowledge yet published. It is impressive, rigorous and sometimes poignant, a must-read for anyone concerned with the troubled interplay of Indigenous issues and academic institutions in Australia today. The book provides an alternative reading for those struggling at the contradictory and ambiguous intersections of academia and Indigenous experience. In doing so, it moves beyond the usual criticisms of the disciplines which construct the way we have come to know and understand Indigenous peoples. Nakata, a Torres Strait Islander academic, casts a critical gaze on the research conducted by the Cambridge Expedition in the late 1890s. Meticulously analysing the linguistic, physiological, psychological and anthropological testing conducted, he offers an astute critique of the researchers' methodologies and interpretations. He uses these insights to reveal the similar workings of recent knowledge production in Torres Strait education. In systematically deconstructing these knowledges, Nakata draws eloquently on both the Torres Strait Islander

struggle and his own personal struggle to break free from imposed definitions and reminds us that such intellectual journeys are highly personal and political Nakata argues for the recognition of the complexity of the space Indigenous people now live in the cultural interface and proposes an alternative theoretical standpoint to account for Indigenous experience of this space

Language, Power, and Pedagogy Jim Cummins, 2000-01-01 As linguistic diversity increases in countries around the world policy makers and educators are faced with complex and conflictual issues regarding appropriate ways of educating a multilingual school population This volume reviews the research and theory relating to instruction and assessment of bilingual pupils focusing not only on issues of language learning and teaching but also the ways in which power relations in the wider society affect patterns of teacher pupil interaction in the classroom

Language Learning in Children Who Are Deaf and Hard of Hearing Susan R. Easterbrooks, 2021 Language Learning in Children who are Deaf and Hard of Hearing 2nd Edition Theory to Classroom Practice is the long awaited revision of the only textbook on primary language instruction written with classroom teachers of deaf and hard of hearing children TODs in mind It builds on the work of the previous version while providing the reader with access to the entire first version on a supplemental website An important feature of this book is that it describes four real TODs and demonstrates application of concepts discussed to the DHH children on their caseloads Up to date chapters on theory of language learning assessment and evidence based practice replace removed chapters Chapters on English and American Sign Language ASL structure and on the three major approaches listening and spoken language bilingual bimodal instruction and ASL instruction are updated The chapters on teaching vocabulary and morphosyntax how to ask and answer questions and writing language objectives for Individualized Education Plans IEPs are expanded DHH Specific examples of real cases are incorporated throughout the book Finally after a theoretical base of information on language instruction many of the chapter provide language teachers with specific examples of how to answer the question What should I do on Monday It avoids promotion of one or another philosophy presenting all and demonstrating the commonalities across classroom language instruction approaches for DHH children

Handbook of Language and Literacy, Second Edition C. Addison Stone, Elaine R. Silliman, Barbara J. Ehren, Geraldine P. Wallach, 2016-05-27 An acclaimed reference that fills a significant gap in the literature this volume examines the linkages between spoken and written language development both typical and atypical Leading authorities address the impact of specific language related processes on K 12 literacy learning with attention to cognitive neurobiological sociocultural and instructional issues Approaches to achieving optimal learning outcomes with diverse students are reviewed The volume presents research based practices for assessing student needs and providing effective instruction in all aspects of literacy word recognition reading comprehension writing and spelling New to This Edition Chapters on digital literacy disciplinary literacy and integrative research designs Chapters on bilingualism response to intervention and English language learners Incorporates nearly a decade s worth of empirical and theoretical advances Numerous prior edition chapters have been

completely rewritten *Early Education and Development* Susanne A. Denham, 2013-10-15 This Volume 16 number 3 of *Early education and Development* published in July 2005 This edition includes articles on Family school communication African American involvement the development of logico mathematical and perceptions of math mediated language and social skills in kindergarten and preschool **Advances in Quantitative Ethnography** Yoon Jeon Kim, Zachari Swiecki, 2024-11-01 This two volume set CCIS 2278 2279 constitutes the refereed proceedings of the 6th International Conference on Advances in Quantitative Ethnography ICQE 2024 held in Philadelphia PA USA during November 3 7 2024 The 31 full papers and 10 short papers included in this book were carefully reviewed and selected from 82 submissions They are organized in the following topical sections Theory and Methods Teaching and Learning and Cultural Discourse

Tutorials in Bilingualism Annette M.B. de Groot, Judith F. Kroll, 2014-05-12 The past fifteen years have witnessed an increasing interest in the cognitive study of the bilingual A major reason why psychologists psycholinguists applied linguists neuropsychologists and educators have pursued this topic at an accelerating pace presumably is the acknowledgment by increasingly large numbers of language researchers that the incidence of monolingualism in individual language users may be lower than that of bilingualism This alleged numerical imbalance between monolinguals and bilinguals may be expected to become larger due to increasing international travel through for instance tourism and trade to the growing use of international communication networks and to the fact that in some parts of the world i e Europe the borders between countries are effectively disappearing In addition to the growing awareness that bilinguals are very common and may even outnumber monolinguals there is the dawning understanding that the bilingual mind is not simply the sum of the cognitive processes associated with each of the two monolingual modes and that the two languages of bilingual may interact with one another in complicated ways To gain a genuinely universal account of human cognition will therefore require a detailed understanding of language use by both pure monolinguals as well as bilinguals unbalanced and balanced and of the representations and processes involved These two insights that bilingualism is a common human condition and that it may influence cognition were presumably instrumental in putting bilingualism on the agendas of many researchers of cognition and language in recent years But other reasons may have played a role too The study of bilingualism also provides a unique opportunity to study the relation between language and thought A final reason for the growing interest in this area of research is the awareness that bilingualism may confer the benefit of broadening one's scope beyond the limits of one's own country and culture This book serves as an excellent introduction to the important topics in the psycholinguistic study of bilingualism The chapters represent a comprehensive and interrelated set of topics that form the core of contemporary research on the psycholinguistics of bilingualism The issues raised within this perspective not only increase our understanding of the nature of language and thought in bilinguals but also of the basic nature of the mental architecture that supports the ability to use more than one language **Readers Writing** Elizabeth Hale, 2023-10-10 When faced with a

blank page in their readers notebooks students often fall back on what is familiar summarizing Despite our best efforts to model through comprehension strategies what good readers do many students struggle to transfer this knowledge and make it their own when writing independently about books Readers Writing Elizabeth Hale offers ninety one practical lessons that show teachers how students of all ability levels can use readers notebooks to think critically on their own one step at a time Each of the lessons uses a fiction or nonfiction book to address a comprehension strategyquestioning connecting analyzing synthesizing evaluating visualizing or monitoringby showing students one specific way they can write about their thinking Each lesson also provides an example of how to model the strategy All of the lessons follow a similar format with five componentsName It Why Do It Model It Try It and Share Itand include time for students to actively process what they learn by talking about and trying out the strategy in their readers notebooks Elizabeth also provides suggestions for supporting student independence managing independent writing time scaffolding comprehension of nonfiction texts as well as assessing and conferencing with readers notebooks Helpful appendices include a table that illustrates how each lesson aligns with the Common Core State Standards and a list of additional titles that can be used to demonstrate each of the ninety one lessons Readers Writing gives teachers a way to engage all children with readers notebooks to learn the language of thinking one strategy at a time and to become lifelong readers who can think and write critically on their own

Components of the Language-Ready Brain Cedric Boeckx,Antonio Benítez-Burraco,2016-09-09 This volume highlights new avenues of research in the language sciences and particularly in the neurobiology of language The term language ready brain stresses on the one hand the importance of a brain based description of our species linguistic capacity and on the other the need to appreciate the crucial role culture plays in shaping the linguistic systems children acquire and adults use For this reason the focus is not put on language per se but on our learning biases and cognitive pre dispositions toward language Both brain and culture are considered at two crucial levels of inquiry phylogeny and ontogeny In a fast growing field like the language sciences and specifically language evolution studies this book has tried to capture several of the most exciting topics explored currently sowing seeds for future investigations

Early Biliteracy Development Eurydice B. Bauer,Mileidis Gort,2012-05-22 A large and growing number of students from culturally and linguistically diverse backgrounds in the US and around the world have the potential to develop bilingualism and biliteracy if supported in their immediate environment At the forefront in focusing exclusively on biliteracy development in early childhood across a variety of languages this book provides both findings from empirical research with young bilinguals in home and school contexts and practical applications of these findings Each chapter is structured in a similar format to offer parallel descriptions of the research including a brief review of related empirical studies an overview of the methods for data collection and analysis a description of the main findings and specific pedagogical implications to support educators efforts to construct meaningful challenging and dynamic literacy and language learning communities where one or more languages are used for communicating and learning Pushing the field

forward this book is a valuable resource for helping literacy educators understand and respond to critical issues related to the development of young children's literate competencies in two languages in home and school contexts

Coordination Languages and Models Paolo Ciancarini, Alexander L. Wolf, 2003-07-31 We welcome you to Coordination 99 the third in a series of conferences dedicated to an important perspective on the development of complex software systems That perspective is shared by a growing community of researchers interested in models languages and implementation techniques for coordination The last decade has seen the emergence of a class of models and languages variously termed coordination languages configuration languages architectural description languages and agent oriented programming languages These formalisms provide a clean separation between individual software components and their interaction within the overall software organization This separation makes complex applications more tractable supports global analysis and enhances the reuse of software components The proceedings of the previous two conferences on this topic were published by Springer as Lecture Notes in Computer Science 1061 and 1282 This issue of LNCS containing the papers presented at Coordination 99 continues the tradition of carefully selected and high quality papers representing the state of the art in coordination technology In response to the call for papers were received 67 submissions from which 26 papers were accepted These proceedings also contain abstracts for posters presented at the conference This year's program features invited talks by Rocco De Nicola and Danny B Lange Reading through the papers we expect that you may be surprised by the variety of disciplines within computer science that have embraced the notion of coordination In fact we expect this trend to continue and hope that you will contribute to the ongoing exploration of its strengths weaknesses and applications

Teaching for Peace and Social Justice in Myanmar Mary Shepard Wong, 2022-06-02 Bringing together scholars and educators based in Myanmar the USA the UK Denmark and Thailand this book presents new perspectives and research on the struggle for social justice and peace in Myanmar at this critical juncture It shows how actors from diverse backgrounds and regions of Myanmar are drawing from their identities evoking their agency and using critical pedagogy to advance social justice and peace The chapters provide the compelling life stories of the authors specific examples of what they are doing and insights of how their work might be applied to other contexts The topics discussed include addressing structural violence peace curriculum development identity based conflict teaching the history of the country promoting inclusion civic education critical pedagogy teacher agency and agendas of research funding for peacebuilding The foreword and afterword written by well known scholars of Myanmar address the relevance and importance of the book vis a vis the current social and political crisis following the February 2021 military coup

Advances in Quantitative Ethnography Golnaz Arastoopour Irgens, Simon Knight, 2023-10-21 This book constitutes the refereed proceedings of the 5th International Conference on Advances in Quantitative Ethnography ICQE 2023 held in Melbourne VIC Australia during October 8-12 2023 The 33 full papers included in this book were carefully reviewed and selected from 39 submissions They were organized in topical sections as follows

understanding learners and learning society culture identity and justice and advances in QE methodologies **50**

Strategies for Supporting Multilingual Learners Mandy Manning, 2024-06-11 50 actionable strategies for multilingual learner success in diverse classrooms backed by robust research Generative Intelligence and Intelligent Tutoring Systems

Angelo Sifaleras, Fuhua Lin, 2024-05-31 This book constitutes the refereed proceedings of the 20th International Conference on Generative Intelligence and Intelligent Tutoring Systems ITS 2024 held in Thessaloniki Greece during June 10 13 2024 The 35 full papers and 28 short papers included in this book were carefully reviewed and selected from 88 submissions This book also contains 2 invited talks They were organized in topical sections as follows Generative Intelligence and Tutoring Systems Generative Intelligence and Healthcare Informatics Human Interaction Games and Virtual Reality Neural Networks and Data Mining Generative Intelligence and Metaverse Security Privacy and Ethics in Generative Intelligence and Generative Intelligence for Applied Natural Language Processing *Serving the Academic, Social, and Emotional Needs of Multicultural Newcomers*

Brenda Custodio, Judith B. O'Loughlin, 2025-01-29 Diving into the research and strategies teachers need to know to support newcomer students Teaching Emergent Bilingual Students

C. Patrick Proctor, Alison Boardman, Elfrieda H. Hiebert, 2016-09-07 Recent educational reform initiatives such as the Common Core State Standards CCSS largely fail to address the needs or tap into the unique resources of students who are developing literacy skills in both English and a home language This book discusses ways to meet the challenges that current standards pose for teaching emergent bilingual students in grades K 8 Leading experts describe effective standards aligned instructional approaches and programs expressly developed to promote bilingual learners academic vocabulary comprehension speaking writing and content learning Innovative policy recommendations and professional development approaches are also presented
