Macquarrie, 1967. Bibliographical footnotes. The problem introduced. How some contemporary theologians view language. Some general reflections on language. The theological vocabulary. Theology and logical empiricism. Types of theological discourse. Case study. The language of St. Athanasius. Language and interpretation. Case study. Heidegger on hermeneutics. Mythology. Symbolism. Case study. Light as a religious symbol. Analogy and paradox. Empirical language. The language of existence and being. **Language, logic, and god** Frédéric Ferré, 1969 *Logic* Vern S. Poythress, 2013-02-28. For the well-rounded Christian looking to improve their critical thinking skills, here is an accessible introduction to the study of logic. Parts 1-2 as well as an in-depth treatment of the discipline. Parts 3-4 from a professor with 6 academic degrees and over 30 years experience teaching. Questions for further reflection are included at the end of each chapter as well as helpful diagrams and charts that are appropriate for use in high school, home school, college, and graduate level classrooms. Overall, Vern Poythress has undertaken a radical recasting of the study of logic in this revolutionary work from a Christian worldview.

Bultmann Unlocked Tim Labron, 2011-01-13 **Language, Logic and Method** Robert S. Cohen, Marx W. Wartofsky, 2012-12-06. Fundamental problems of the uses of formal techniques and of natural and instrumental practices have been raised again and again these past two decades in many quarters and from varying viewpoints. We have brought a number of quite basic studies of these issues together in this volume, not linked conceptually nor by any rigorously defined problematic, but rather simply some of the most interesting and even provocative of recent research accomplishments. Most of these papers are derived from the Boston Colloquium for the Philosophy of Science during 1973-80, the two exceptions being those of Karel Berka on scales of measurement and A. A. Zinoviev on a non-traditional theory of quantifiers. Just how intriguing these results or conjectures seem to us may be seen from some brief quotations. 1. Judson Webb: the abstract machine concept has many of the appropriate kinds of properties for modelling living, reproducing, rule-following, self-reflecting, accident-prone, and lucky creatures. The a priori logical results relevant to the abstract machine concept above all Gödel's could not conceivably have turned out any better for the mechanist. 2. M. L. Dalla Chiara: modal interpretation of

quantum logic shows clearly that it possesses a logical meaning which is quite independent of quantum mechanics 3 Isaac Levi as against Peirce and Popper infallibilism is consistent with corrigibilism and a view which respects avoidance of error is an important desideratum for science **God, Revelation and Authority: God Who Speaks and Shows (Vol. 3)** Carl F. H. Henry, 1999-01-25 Part 3 in a monumental six volume set that presents an undeniable case for the revealed authority of God to a generation that has forgotten who he is and what he has done Philosophy of Religion Norman L. Geisler, Winfried Corduan, 2003-01-15 Is there any basis in reality for a religious experience Is there any basis in reason for belief in God Is it even possible to speak meaningfully of a transcendent being And how does one account for evil The authors answer these questions representing the four most important issues in the philosophy of religion in a comprehensive way and form the perspective of classical theism They support this position with in depth argumentation taking into account both classical and contemporary writers With its well outlined text Philosophy of Religion is user friendly An introduction chapter summaries a glossary indexes and bibliography contribute to this end In this second edition the authors have not only updated the text and bibliography but also refined some of the arguments scaled down and evened out the vocabulary and added several pedagogical aids The first edition written by Norman L Geisler alone appeared in 1974 *The "Language game" of confessing one's belief* Mary-John Mananzan, 2012-05-10 Over the past few decades the book series Linguistische Arbeiten Linguistic Studies comprising over 500 volumes has made a significant contribution to the development of linguistic theory both in Germany and internationally The series will continue to deliver new impulses for research and maintain the central insight of linguistics that progress can only be made in acquiring new knowledge about human languages both synchronically and diachronically by closely combining empirical and theoretical analyses To this end we invite submission of high quality linguistic studies from all the central areas of general linguistics and the linguistics of individual languages which address topical questions discuss new data and advance the development of linguistic theory **Homiletic** David G. Buttrick, 1987-01-01 Buttrick presents a complete homiletic that focuses on how sermons form in consciousness and how the language of preaching functions in the communal consciousness of a congregation His phenomenological approach marks a sharp departure from older homiletics *Does God Exist?* Mark Corner, 2015-06-04 Do people talking about God know what they are talking about Are they all talking about the same thing How do different religions approach the existence of God Can God's existence be proved And even if it can is God necessarily good Does God Exist sets out to provide a lively and readable introduction to the main issues of theism and atheism Taking care to avoid theological jargon Mark Corner provides a fresh look at the question that has always been at the very root of philosophy His arguments provoke further interest as a source of new ideas *Free Creatures of an Eternal God* Harm J. M. J. Goris, 1996 Peeters 1996 *Evidence and Faith* Charles Taliaferro, 2005-02-28 Taliaferro has written a dynamic narrative history of philosophical reflection on religion from the 17th century to the present with an emphasis on shifting views of faith and the nature of evidence The book begins with the

movement called Cambridge Platonism which formed a bridge between the ancient and medieval worlds and early modern philosophy While the book provides an overview of different movements in philosophy it also offers a detailed exposition and reflection on key arguments and the scope is broad from Descartes to contemporary feminist philosophy of religion

Nietzsche Richard White,2018-01-18 This title was first published in 2002 Nietzsche described himself as a godless anti metaphysician These writings encourage the student to question any reading that fails to address Nietzsche s sense of irony with respect to his own philosophical claims The anthology includes the best recent writings on Nietzsche It covers all the main themes of Nietzsche s philosophy and pays particular attention to Nietzsche s discussion of value and the need for a re evaluation of values his critique of metaphysics and the problem of knowledge and his account of art and politics

Christian Theology Millard J. Erickson,1998-08 A new edition of leading theologian Millard Erickson s classic text

Confessing and Commending the Faith Alan P.F. Sell,2006-09-01 Since Christianity is a way and not simply a theory commending the faith to others is an activity in which every Christian participates Confessing and Commending the Faith discusses the presuppositions which underlie the intellectual commendation of Christianity in the face of the philosophical challenges of the present day Following his earlier books John Locke and the Eighteenth Century Divines and Philosophical Idealism and Christian Belief Alan Sell proposes a way of proceeding with Christian apologetics in the twenty first century He discusses what Christians wish to proclaim asks whether these claims are reasonable and examines what is involved in the intellectual commendation of the Christian faith Confessing and Commending the Faith makes extensive use of the historical tradition of apologetics and brings this work to bear on contemporary questions such as the meaning use and reference of religious language and the question of transcendence in relation to history Alan Sell argues that if the intellectual commendation of Christianity s claim to truth is to be viable contemporary apologetics must draw upon reason revelation and experience to do justice to Christianity s basic confession of Christ as Saviour and Lord God's Inerrant Word John

Warwick Montgomery,2018-01-27 Editor John Warwick Montgomery b 1931 is one of the major philosophical apologists of the 20th century He is also a trained lawyer which influenced his historical legal approach to Christian apologetics He is perhaps best known as a writer for his books History and Christianity How Do We Know There is a God Faith Founded on Fact Evidence for Faith Where is History Going The Shape of the Past The Quest for Noah s Ark as well as for his debates with the infamous atheist Madalyn Murray O Hair 1967 with Joseph Fletcher reprinted in Situation Ethics True or False with Death of God theologian Thomas Altizer reprinted in The Suicide of Christian Theology R C Sproul wrote in the Foreword to this 1974 book The essays in this book were written as research articles for delivery at the Conference on the Inspiration and Authority of Scripture in the fall of 1976 The Conference was sponsored by the Ligonier Valley Study Center a facility developed to make the resources of Christian scholarship available to today s laymen and pastors The eleven essays comprising the text of this book were all publicly delivered at the Ligonier Conference Pg 9 Essays are included by authors

such as Montgomery J I Packer John Gerstner Clark Pinnock John Frame Sproul etc Montgomery states in his own Introduction that The Ligonier Conference was designed specifically to serve as an adrenal injection for the faint of heart who question the place of inerrancy in historic Christian theology or doubt that modern research is compatible with an errorless Bible The essayists may differ from each other in a number of respects but they hold in common the historic Christian confidence in an entirely trustworthy Bible They would impart that confidence to the readers of this volume Pg 14 Montgomery states in his first essay Embedded in the liberal evangelical s attempt to preserve an infallible Bible in spite of errors is a further and even more serious fallacy We invariably find that the non revelational areas are the areas of science and history the areas of prime testability The result if one carries this line of reasoning to its logical conclusion is Where the Bible errs it is non revelatory when it is capable of being tested it is precariously revelatory revelatory only until proven wrong and where it cannot be tested it always remains revelatory and inerrant This is just like believers in sea serpents claiming that they appear only when no scientists are present Pg 31 32 Pinnock observes If we say as Vatican II does that inspiration guarantees only those truths necessary for salvation the question arises how much we need to know to be saved The way is open for someone to come along with the opinion that he need know very little Very little then is inerrantly taught in Scripture Pg 150 Sproul says in an essay Jesus understanding of the Old Testament Scriptures casts a shadow over his own sinlessness Jesus does not have to be omniscient to be infallible But he must be infallible to be sinless That is to say if Jesus claiming to be sent from God and invoking the authority of God in his teaching errs in that teaching he is guilty of sin The one who claims to be the truth cannot err and be consistent with that claim Anyone claiming absolute authority in his teaching must be absolutely trustworthy in what he teaches in order to merit absolute authority In light of his claims Jesus cannot plead invincible ignorance as an excuse for error Pg 253 These essays will be of great interest to any Christians studying the doctrine of biblical inerrancy by Steven H Propp Top 100 Reviewer *The Genesis of the Bible* Shaka Saye Bambata Dolo,2012-03-06 This book is about Christianity Islam Judaism and how the Arabs and Europeans took these Afrikan Religious Belief Systems from ancient Egypt North Afrika and used them during The Trans Sahara Afrikan Slave Trade by the Arabs in the name of Allah and followed by The Transatlantic Afrikan Slave Trade by the Europeans in the name of Jesus to enslave the bodies minds and souls of the Afrikan Race This book is about the Jesus Deception that has been passed on down through history by European historians that is still being taught around the world today This book takes a provocative intellectual scholastic historical cultural and sociological look at the Bible This book identifies the names of the translators of the King James Bible of 1611 A D and when the chapters and verses in the Bible were created and who created them The purpose of this book is to expose the historical cultural sociological religious and theological lies of the Europeans and the Arabs This book reveals the truth of the origination of The Bible as There Is No Religion Higher Than The Truth Join me in an intellectual odyssey through time Here I feel like a Lone Warrior standing before a mighty army Come with me on this
