[Languages, Scripts, and Chinese Texts in East Asia](#) Peter Francis Kornicki, 2018 Chinese Writing and the Rise of the Vernacular in East Asia is a wide ranging study of vernacularization in East Asia not only China Japan Korea and Vietnam but also societies that no longer exist such as the Tangut and Khitan empires Peter Kornicki takes the reader from the early centuries of the common era when the Chinese script was the only form of writing and Chinese Buddhist Confucian and medical texts spread throughout East Asia through the centuries when vernacular scripts evolved right up to the end of the nineteenth century when nationalism created new roles for vernacular languages and vernacular scripts Through an examination of oral approaches to Chinese texts it shows how highly valued Chinese texts came to be read through the prism of the vernaculars and ultimately to be translated This long process has some parallels with vernacularization in Europe but a crucial difference is that literary Chinese was unlike

Latin not a spoken language As a consequence people who spoke different East Asian vernaculars had no means of communicating in speech but they could communicate silently by means of written conversation in literary Chinese a further consequence is that within each society Chinese texts assumed vernacular garb in classes and lectures Chinese texts were read and declaimed in the vernaculars What happened in the nineteenth century and why are there still so many different scripts in East Asia How and why were Chinese texts dethroned and what replaced them These are some of the questions addressed in Chinese Writing and the Rise of the Vernacular in East Asia People of India: Languages and scripts K. portray themselves as the legitimate protectors of minority interests by promoting Hakka and Aboriginal cultures These concomitant logics have discouraged parties from appealing to ethnonationalist rhetoric prompting them to express their antagonistic ideologies of Taiwanese and Chinese nationalism through more liberal conceptions of language rights Therefore the book argues that constraints to cultural and linguistic recognition in Taiwan are shaped by political rather than cultural and sociolinguistic factors Investigating Taiwan's counterintuitive ethnolinguistic situation this book makes an important theoretical contribution to the literature to many fields of study and will appeal to scholars of Taiwanese politics sociolinguistics culture and history
