Gwynn,2012-02 As both chemist and priest your scribe believes that the current gap between science and religion can be bridged largely by revelation Revelation is a select part of religion often beyond the ken or competence of qualified science Types of revelation comprise the manifest supernatural and prophecy fulfilled prophecy supporting what is yet to be fulfilled The book offers answers and asks a variety of questions This book is written in four sections each with chapter like and numbered subsections Section 1 the most scriptural and salvational Section 2 the most prophetic or revelatory Section 3 the most scientific and integrative knowledge Section 4 the most semantic and hypothetic Section 1 Scripture Old and New Testament appears to be a rich source of revelation and other reliable spiritual reality Its integrity distinguishes divine and human reporting also religion versus irreligion Jesus early advent fulfilled dozens of Old Testament prophecies divine evidence for the reliability of its revelation Scripture reveals that Jesus of Nazareth walked among us both man and God Section 2 Section 2 comprise a commentary upon the Revelation to John The prophecy concentrated therein is mysterious in part yet relatively ordered and culminating It helps to organize other prophecy revealed in Scripture And it serves to guide our on going participation with the ascended Christ as Lord Prophecy reveals that God has operated mightily in and on history that he has revealed essential parts of his plan and care for mankind Section 3 Without religion science particularly inanimate science tends to support determinism also a relatively rigid causation or rationalism Science develops knowledge more than understanding Section 3 attempts to assemble salient science together with a minor proportion of related hypotheses Your scribe believes that God s concern and involvement and control of life is more intimate and profound than most science and philosophy has indicated Section 4 The relatively hypothetic Section 4 comprises much supposition some semantically treated Suppositions are offered concerning material or systematic structures for said living sub matter in body mind and soul Life after first death is a gift from the soul s Creator Spirits just and unjust await resurrection in the spirit not in the flesh not in reincarnation Tthe soul is foundational to theology and tends to respond to spiritual reality to living sub matter particularly to God and other souls *Reel Views 2* James Berardinelli,2005 Thoroughly revised and updated for 2005 Includes a new chapter on the best special edition DVDs and a new chapter on finding hidden easter egg features

**Straight Male Modern** John Brenkman,2015-11-06 Major psychoanalytic thinkers from Freud to Ricoeur to Lacan considered the Oedipus complex the key to explaining the human psyche and human sexuality even culture itself But in fact they were merely theorizing males In this title originally published in 1993 the author reassesses the benchmark concepts of Freudian thought building on feminist criticisms of psychoanalysis and the new history of sexuality The psychoanalytic questions become political questions How do the norms of heterosexuality and masculinity themselves emerge within modern society and culture How do the institutions of compulsory heterosexuality and modern patriarchy shape identity and desire

What make heterosexuality compulsory in our society Brenkman argues that the larger social world is part and parcel of the Oedipus complex He challenges psychoanalysis to reinvent its cultural project as a therapeutics and an ethics by recovering the moral political dimension in its approach to family sexuality and gender Straight Male Modern casts a new light on psychoanalysis s contribution to modern life revealing the richness of the Freudian tradition s encounter with modern politics and culture and the poverty of its response     **Principles of Mahomedan Law ...** Dinshah Fardunji Mulla,1912

The Voice of the Past Paul Thompson, 2017-02-24 Oral history gives history back to the people in their own words And in giving a past it also helps them towards a future of their own making Oral history and life stories help to create a

truer picture of the past and the changing present documenting the lives and feelings of all kinds of people many otherwise hidden from history It explores personal and family relationships and uncovers the secret cultures of work It connects public and private experience and it highlights the experiences of migrating between cultures At the same time it can bring courage to the old meaning to communities and contact between generations Sometimes it can offer a path for healing divided communities and those with traumatic memories Without it the history and sociology of our time would be poor and narrow In this fourth edition of his pioneering work fully revised with Joanna Bornat Paul Thompson challenges the accepted myths of historical scholarship He discusses the reliability of oral evidence in comparison with other sources and considers the social context of its development He looks at the relationship between memory the self and identity He traces oral history through its own past and weighs up the recent achievements of a movement which has become international with notably strong developments in North America Europe Australia Latin America South Africa and the Far East despite resistance from more conservative academics This new edition combines the classic text of *The Voice of the Past* with many new sections including especially the worldwide development of different forms of oral history and the parallel memory boom as well as discussions of theory in oral history and of memory trauma and reconciliation It offers a deep social and historical interpretation along with succinct practical advice on designing and carrying out a project *The Voice of the Past* remains an invaluable tool for anyone setting out to use oral history and life stories to construct a more authentic and balanced record of the past and the present
