Faulkner's Cartographies of Consciousness John Michael Corrigan, 2023-11-16 William Faulkner continues to be an author who is widely read studied and admired This book provides a new and interdisciplinary account of Faulkner's legacy arguing that his fiction is just as relevant today as it was during his own time Indeed Faulkner's far reaching critique of his Southern heritage speaks directly to the anti racism discourse of our own time and engages the dire threat to subjecthood in a technologically saturated civilization Combining literary critique with network and complexity science this study offers a new reading of William Faulkner as a novelist for the information age Over the course of his career we find an artist struggling to articulate the threat to human wellbeing in rapidly scaling social systems and gradually developing a hard won humanism that affirms the individual and interpersonal life as a source of novelty and social change Faulkner's Questioning Narratives David L. Minter, 2001 Focusing on the core novels including The Sound and the Fury Absalom Absalom Sanctuary Light in August 2003 and Go Down Moses David Minter illuminates Faulkner's mature fiction the tensions at play within the fiction and the creativity not only exhibited by the author but also extended to his characters and required of his readers Faulkner's achievement Minter contends was in combining daring experiments in form with searching examinations of grave social political and moral problems His novels change and expand the role of the reader by means of proliferating narratives that lead to questions rather than answers and to approximation rather than resolution Minter shows how this process at times implicates the reader in the corruption and violence of the story as when the reader is required to fill in out of his or her own experience the crucial gaps left in the narrative of Sanctuary Positioning Faulkner on the cusp between modernist and postmodernist writing Minter shows how his methods undercut the self contained exclusivity of the New Criticism by integrating the world of the novel with the reader's experience of history and culture Reading Faulkner's Best Short Stories Hans H. How Close Reading Made Us Yael Segalovitz, 2024-09-01 Shows how the method of close reading traveled from the United States to Brazil and Israel revealing its profound impact on global modernisms and reframing the lasting significance of New Criticism Does reading shape who we are What happens to the relationship between reading and subject formation as methods of interpretation travel globally Yael Segalovitz probes these questions by tracing the transnational journey of the New Critical practice of close reading from the United States to Brazil and Israel in the mid twentieth century Challenging the traditional view of New Criticism as a purely aesthetic project Segalovitz illustrates its underlying pedagogical objective to cultivate

close readers capable of momentarily suspending subjectivity through focused attention How Close Reading Made Us shows that close reading as a technique of the self exerted a far reaching influence on international modernist literary production impacting writers such as Clarice Lispector Yehuda Amichai William Faulkner Jo o Guimar es Rosa and A B Yehoshua To appreciate close reading s enduring vitality in literary studies and effectively adapt this method to the present Segalovitz argues we must comprehend its many legacies beyond the confines of the Anglophone tradition **The Art of Faulkner's Novels** Peter Swiggart,2014-07-03 To say that the entirety of human experience can be a novelist s theme is to voice an absurdity But as Peter Swiggart convincingly argues Faulkner s work can be viewed as an extraordinary attempt to transform the panorama of man s social experience into thematic material Faulkner s two dimensional characters his rhetorical circumlocutions and his technical experiments are efforts to achieve a dramatic focus upon material too unwieldy at least in principle for any kind of fictional condensation Faulkner makes use of devices of stylization that apply to virtually every aspect of his successful novels For example the complex facts of Southern history and culture are reduced to the scale of a simplified and yet grandiose social mythology the degeneration of the white aristocracy the rise of Snopesism and the white Southerner s gradual recognition of his latent sense of racial guilt Within Faulkner s fictional universe human psychology takes the form of absolute distinctions between puritan and nonpuritan characters between individuals corrupted by moral rationality and those who are simultaneously free of moral corruption and social involvement In this way Faulkner is able to create the impression of a comprehensive treatment of important social concerns and universal moral issues Like Henry James he makes as much as he can of clearly defined dramatic events until they seem to echo the potential complexity and depth of situations outside the realm of fiction When this technique is successful the reader is left with the impression that he knows a Faulkner character far better than he could know an actual person At the same time the character retains the atmosphere of complexity and mystery imposed upon it by Faulkner s handling of style and structure This method of characterization reflects Faulkner s simplifications of experience and yet suggests the inadequacy of any rigid interpretation of actual behavior The reader is supplied with special eyeglasses through which the tragedy of the South as well as humanity s general inhumanity to itself can be viewed in a perspective of simultaneous mystery and symbolic clarity Voice and Eye in Faulkner's Fiction Hugh M. Ruppensburg,2008-11-01 Hugh M Ruppensburg examines the use of narrative viewpoint and structure in four representative novels by William Faulkner Light in August Pylon Requiem for a Nun and Absalom Absalom In his discussion of these four works he refers frequently and often at length to Faulkner s other novels and stories so that the book offers a comprehensive examination of the narrative principle that underlie Faulkner s literary achievement Ruppensburg shows how the Nobel Prize winning novelist employed a number of elements to guarantee the impersonality of his fiction how he built his novels primarily around the speech and thoughts of his characters The absence of a judgmental authorial or narrational voice says Ruppensburg compels the reader to reach his own judgment concerning the behavior of

these characters as well as the meaning and value of the fiction. By fusing a number of individual perspectives into a composite perspective, Faulkner gives the community itself a voice. He also uses narrative viewpoint to dramatize the individual's search for identity and the nature of truth, time, history, and human consciousness. Most significantly, the author says Faulkner's manipulation of character perspective forces the reader to participate in the narrative process on the same level as that of the fictional characters. *Voice and Eye in Faulkner's Fiction* is primarily intended for the literature teacher and specialist, but it is directed as well to all readers curious about Faulkner's methods and the ways in which his novels work.
