Favor For A Ghost:

The Visible Ghost Dante P. Chelossi Jr.,2017-11-21 The Visible Ghost tells a tale of a scientist who has an accident inside his laboratory and dies To his astonishment and that of everyone else around him he becomes a ghost who is visible for all to see with their eyes all the time He does not have the ability to become invisible Another fascinating detail about him in his ghost form is that his appearance is 100 percent solid like any living being around him If someone were to stand next to him they could have a conversation with him and not in any way ever suspect that he is in fact a ghost because of how solid in form he appears to be Being a scientist this ghost is extremely intrigued even in death about being a ghost He decides to investigate and document everything possible about being a ghost for others to understand before he disappears which can be at any moment At the very least he has proven to the world that ghosts do in fact exist *Fun for Kids III* Marion F.
