## **Fayum Portraits:**

*Mummy Portraits in the J. Paul Getty Museum* David L. Thompson, 1982-01-01 These extraordinary Egyptian images produced from Julio Claudian times through the age of Constantine the first four centuries A D seem often to have been commissioned while the subject was still alive and displayed in the home At death the portrait was inserted into the deceased's mummy wrappings Thirteen mummy portraits from the Getty Museum's collection are catalogued in this text by Dr David Thompson professor of Classics at Howard University Placing the works in the context of other so called Fayum paintings Dr Thompson examines their importance as portraits and identifies the hands of individual painters Numerous illustrations accompany his discussion **The Mysterious Fayum Portraits** Euphrosyne Doxiadis, 2000 **Mysterious Fayum**

**Portraits** Euphrosyne Doxiadis, 1995-10-15 In the first three centuries A D in a fertile district of Roman Egypt called the Fayum a diverse community of Greeks Egyptians Romans Syrians Libyans Nubians and Jews flourished These people and many of their contemporaries throughout the Nile Valley embalmed the bodies of their dead and then placed over the faces portraits painted on wooden panels or linen These paintings today known as Fayum or mummy portraits were created to preserve the memory of each individual The Fayum portraits are by far the most important body of portraiture to have survived antiquity Reproduced in this arresting book are some 180 of the finest of the more than 1 000 extant images of men women and children young and old plain and beautiful all of whom seem uncannily alive A few of these faces have become familiar to scholars and museum goers but as a whole they have been neglected by art historians and will be new to most readers **FAYUM** Bérénice Geoffroy-Schneiter, 1998 Miraculously preserved in the desert sands the people of Roman

Egypt had their likenesses captured in portraits painted on coffins But who created these images This book attempts to piece together the secret of these ancient portraits which can be seen in museums all over the world *Ancient Faces* Susan Walker, 2020-03-25 From the first major discoveries a century ago the painted portraits of Roman Egypt were a revelation to scholars and the public alike and the recent finding of a new cache of these gilded images which made national headlines have only heightened their mystery and appeal Published to coincide with a new major exhibition of these portraits *Ancient Faces* is the most comprehensive up to date survey of these astonishing works of art Dating from the later period of Roman rule in Egypt shortly before the birth of Christ the painted mummy portraits are among the most remarkable products of the ancient world a fusion of the traditions of pharonic Egypt and the Classical world They are historical and cultural objects of outstanding importance and beauty superb works of art that represent some of the earliest known examples of life like portraiture Though the subjects of the portraits believed in the traditional Egyptian cults which offered them a firm prospect of life after death they also wished to be commemorated in the Roman manner with their fashion of dress and adornment signaling their status in life Despite their ancient history these portraits speak to the modern eye with a beauty and intensity that would be lost to portraiture until the Renaissance **Mummy Portraits from Roman Egypt** Paul Roberts, 2008 The

mummy portraits of Roman Egypt are haunting images of ancient faces anonymous people painted by anonymous artists And yet they are historical and cultural documents of outstanding interest and importance and many are of superb artistic quality This type of portrait appeared in Egypt in the first century AD and remained popular for around 200 years Though the subjects believed in the traditional Egyptian cults which offered them a firm prospect of life after death they also wished to be commemorated in the Roman manner Portraits were commissioned that would serve as a realistic record of the deceased as he or she had appeared in life These were painted on a wooden board at a roughly lifelike scale which was then placed on the outside of the cartonnage coffin over the head of the individual or carefully placed into the mummy wrappings The images also reveal the adoption of Roman fashions in dress and personal adornment by persons remote from the centre of the empire but likely to have been actively engaged in its local administration By careful assessment of the hairstyles clothes and jewellery it is possible to date the portraits often within a decade or so Many of the finest and best known examples come from the Fayum and are a dazzling testament to the Greek painting tradition in particular the sophistication of the Alexandrian school from which they are derived It is not until some fifteen centuries later in the faces painted by Titian or Rembrandt's depiction of his own features as he saw them reflected in a mirror that the same artistry that characterizes many of the anonymous painters of the Fayum is witnessed again The Mysterious Fayum Portraits Euphrosyne Doxiadis, 2024 The Hellenic Portraits from the Fayum at Present in the Collection of Herr Graf Georg Ebers, 1893

Paterson, 2022-06-30 This book focuses on the earliest surviving Christian icons dated to the sixth and seventh centuries which bear many resemblances to three other well established genres of sacred portrait also produced during late antiquity namely Roman imperial portraiture Graeco Egyptian funerary portraiture and panel paintings depicting non Christian deities Andrew Paterson addresses two fundamental questions about devotional portraiture both Christian and non Christian in the late antique period Firstly how did artists visualise and construct these images of divine or sanctified figures And secondly how did their intended viewers look at respond to and even interact with these images Paterson argues that a key factor of many of these portrait images is the emphasis given to the depicted gaze which invites an intensified form of personal
