## **Fed Up With Fat:**

**Fat, Crazy, and Tired** Van Lathan Jr., 2022-04-26 Podcaster and former TMZ host Van Lathan Jr writes a sharp funny and brutally honest cultural critique of the unspoken obstacles and extreme anxiety that keep us from maintaining good health in America's wellness wasteland explored through vignettes about his mental health and weight loss journey as a Black man. A formerly chubby kid who self-identified for much of his life as the fat friend, media personality and podcast host Van Lathan Jr has struggled with physical and mental health his entire life. He was used to being his besties' wing man on the dating scene, the slack bench dweller at the gym and his mother's biggest fan at every meal especially whenever she served up her infamous mac and cheese with five different kinds of cheese. At 365 lbs Van hated being fat so much he found it harder than being Black. After dedicating years to improving his physical and mental health with many ups and downs in 2020 Van found himself in a shared slump with other Americans when the Covid 19 pandemic hit and the George Floyd video was released suddenly he was surrounded by carbs galore bingeing everything feeling non-stop exhaustion and crippling waves of anxiety and depression. *Fat Crazy and Tired* isn't just about Van's ultimately unsuccessful journey to an Instagram-able body and zen it's about the unspoken personal battlefield of attaining and maintaining what Americans deem as good health. He explores the real reasons behind our unending physical and mental health battles: culture, family and the baggage of life and demonstrates how we can better understand our bodies by better understanding ourselves. He takes it back to his southern upbringing in Baton Rouge, opens up about how being the Black guy at work at TMZ overshadowed his identity and shares how he holds up to survive the madness. Detox, cleanses, Weight loss pills, Celery juice. No thank you. Unlike the self-help gurus that push you to go all or nothing and keep it 100 Van wants you to be happier and healthier at 50% without totally admonishing yourself to get there. Packed with double doses of humor *Fat Crazy and Tired* shares a brutally honest cultural critique of mental health and our weight loss obsession in what he dubs America's wellness wasteland. **The 'Fat'**

**Female Body** S. Murray, 2008-09-30 Investigating the current interest in obesity and fatness this book explores the problems and ambiguities that form the lived experience of fat women in contemporary Western society. Engaging with dominant ideas about fatness and analysing the assumptions that inform anti-fat attitudes in the West *The Fat Female Body* explores the moral panic over the obesity epidemic and the intersection of medicine and morality in pathologising fat bodies. It contributes to the emerging field of fat studies by offering not only alternative understandings of subjectivity, the re-production of public knowledge of fatness and politics of embodiment but also the possibility of re-reading fat bodies to foster more productive social relations.

**Being Fat** Jenny Ellison, 2020-04-02 It is okay to be fat. This is the basic premise of fat activism, a social movement that has existed in Canada since the 1970s. *Being Fat* focuses on the earliest strands of the movement covering the last decades of the twentieth century. The book explores how fat activists wrestled with feminist issues of the era including femininity, sexuality and health. Showcasing the earliest efforts of fat activists in Canada such as the growth of social

initiatives for fat women only Being Fat helps us recognize the long reach of second wave feminism and how it shaped activists approaches to everyday experiences like shopping exercise and going to the doctor Fat, Fifty, and Finished Caroline Pledger,2018-04-20 Fat fifty finished where are you now is a social commentary regarding all aspects of health and how each component works in unison to create wellbeing and prosperity It encompasses the idea that you are the one that is truly responsible for your own health and wellbeing Despite where you may be on the disease continuum and regardless of age you have the ability to intervene to reverse and to regenerate to produce a sense of vitality Life experiences has taught me one major lesson Our choices conscious or otherwise has certainly dictated the circumstances in our lives It is how we deal with the circumstances that matter Although the Authors intention is honorable and for the good of all beings it is somewhat or at least she has been told as subtle as a sledge hammer to remind ourselves that there is personal accountability regarding health and your own perception of health Health begins in the library of the mind and is affected by our internal physiology and our external environment Perhaps a rehash of old news but it is much easier to check up with yourself now and again and create better choices before you get to the stage where you are fat fifty and nearly finished

**"I'm, Like, SO Fat!"** Dianne Neumark-Sztainer, 2011-12-08

It's hard to decide which is more frightening: the food teenagers enjoy or the things they say about their bodies. Whether it's your son's passion for chips and soda or your daughter's announcement that she feels fat, kids' attitude about how they look and what they should eat often seem devoid of common sense. In a world where television and school cafeterias push super-sized sandwiches while magazines feature pencil-thin models, many teens feel pressured to starve themselves and others eat way too much. Blending her experience as the mother of four with results from a survey of nearly 5,000 teens, Dr. Diane Neumark-Sztainer shows you how to respond constructively to fat talk, counteract negative media messages, and give your kids the straight story about nutrition and calories, the dangers of dieting, and eating right when they're away from home. Full of examples illustrating the challenges teens face today, this upbeat and insightful book is packed with great ideas that will help kids everywhere feel better about their looks and make healthier choices about eating and exercise.
