Raskin, 2019-11-19 First published in 1986. In this thought-provoking book, the widely acclaimed thinker and activist Marcus Raskin moves beyond the limits and failures of socialism and capitalism to an original theory of social reconstruction for a humane society. Presenting concrete alternatives for education, health, economics, and national security, he develops a new conception of democracy and the rule of law in relation to our common good. A political and philosophic tool designed for those who search for alternatives in their lives and in the world, *The Common Good* shows how to organize for social reconstruction, the type of leadership now required, and the importance of restoring progress as a political purpose. Defining politics as broader than the mere manifestation of power, Raskin's vision helps the left and liberals find their way towards a new public philosophy and program.

Democracy's Think Tank Brian S. Mueller, 2021-07-02 In Democracy s Think Tank Brian S Mueller places the Institute for Policy Studies IPS at the center of a network of activists involved in making the world safe for diversity Unlike defense intellectuals at the RAND Corporation and other think tanks responsible for formulating military strategy the peace intellectuals at IPS developed blueprints for an alternative to the U S led world order As the Iron Curtain fell across Eastern Europe a triumphalist Cold War narrative emerged proclaiming victory for freedom democracy and free enterprise over totalitarianism Yet for the peace intellectuals at IPS the occasion did not merit celebration Since its doors opened in 1963 IPS refused to embrace American exceptionalism and waged a battle against the Cold War and its liberal anti communist supporters As IPS founders Marcus Raskin and Richard Barnet saw it in the process of fighting communism and preserving the liberal capitalist order Cold War liberals had forsaken democracy Democracy s Think Tank tells the story of IPS s crusade to resurrect democracy at home and abroad Borrowing from populist progressive and New Left traditions IPS challenged elite expertise and sought to restore power to the people To this end IPS in the words of journalist I F Stone served as the institute for the rest of us Mueller tells the story of IPS s involvement in a broad range of grassroots campaigns aimed at ending the Cold War and increasing participatory democracy in the United States and across the globe Contemporary observers seeking an alternative to American empire in the twenty first century will find Democracy s Think Tank offers several possible paths toward a more democratic order

Redesigning The American Dream Revised And

Updated Dolores Hayden, 2002-09-03 In a provocative critique of American housing patterns that perpetuate Victorian stereotypes of the home as woman's place and the city as man's world urban historian and architect Dolores Hayden tallies the personal and social costs that an architecture of gender creates for the two earner family the single parent family and single people She traces three models of home in historical perspective to document innovative alternatives for reconstructing neighborhoods *Economic Outlook for Fiscal Years 1978 and 1979* United States. Congress. House. Committee on the Budget, 1978 **Hearings, Reports and Prints of the House Committee on the Budget** United States. Congress. House. Committee on the Budget, 1977 **Nominations of Ronald Grzywinski, Joseph L. Hansknecht, Jr., Frances W. Levenson, Albert J. McKnight, Juan J. Patlan, Derek N. Shearer, Roger Altman, Carol T. Foreman, Geno C. Baroni, Sam W. Brown, Lawrence Connell, Jr., William A. Clement, Jr., Graciela Olivarez, and Harold A. Black** United States. Congress. Senate. Committee on Banking, Housing, and Urban Affairs, 1979 *The Transformation of American Politics* David M. Ricci, Professor David M Ricci, 1993-01-01 Washington think tanks such as the Brookings Institution the American Enterprise Institute and the Heritage Foundation have become so large and influential in recent years that they now constitute virtually a new branch of the political system In this engrossing and lively book David M Ricci brilliantly explores the parallel and convergent social economic and political trends within America that have transformed government in Washington and led to the development and prestige of these public policy research centers Ricci argues that since the late 1960s Americans have lost sight of the familiar guidelines that used to help them assess issues and have become more hospitable to think tank research and advice He examines the flood of policy relevant information that has resulted from the growth of expertise and the advent of big government the confusion over national goals that comes from the decline of the Protestant ethic and the empowerment of minorities the growing influence of television and its focus on instant testimony from experts political changes such as the decline of parties the move to an open Congress and the growth of an independent presidency the pervasive power of modern marketing and much more According to Ricci policy ideas generated by think tank research and commentary are helpful in providing greater objectivity and political insight not only because of their general reliability but also because in their ideological variety think tanks generate a substantial range of policy proposals giving voice to a healthy factional pluralism and facilitating a constant testing of ideas In today's dissonant politics Ricci concludes think tanks contribute some order and occasionally wisdom in the ongoing battle in Washington over political ideas Housing Urban America E. Jay Howenstine, 2017-09-04 Life liberty and the pursuit of housing an increasingly difficult quest in the contemporary urban United States where crime urban blight and continuing capital decay undercut the advantages of city living The American dream has moved to the suburbs the nightmare of our cities prompts new recognition both in the president's cabinet and the college curriculum The editors of this book have updated their acclaimed earlier collection providing new introductory articles new papers such as Discrimination in Housing Prices and

Mortgage Lending A Summary Report of Current Findings from the Experimental Housing Allowance Program Alternative Mortgage Designs and Their Effectiveness in Eliminating Demand and Supply Effects on Inflation and a new bibliography of the literature Additional chapters focus on differing strategies for improved urban housing and renewal by providing concrete suggestions for distributing existing resources and allocating new funding The bibliography provides the best single guide to the current literature on housing Housing Urban America in this new edition is an important guide to those students and scholars fascinated by the essential questions of adequate housing its social costs and the source of the revenues to provide it
