Federal Condition In Canada:

Canada: the State of the Federation 1995 Jonathan W. Rose, 1995-05 *Canadian Fiscal Arrangements* Harvey Lazar, 2005-08-18 The key issues in fiscal federalism will be debated once again when the federal government the provinces and the territories return to the negotiating table Ottawa has appointed an expert panel on equalization and territorial formula financing and the provinces and territories have established an advisory panel on fiscal imbalance Both will report in the first half of 2006 after which the negotiating pace will accelerate In a timely collection contributors from the government and academia tackle these fiscal policy issues from a broad spectrum of perspectives **Canadian Federalism** Herman Bakvis, Grace Skogstad, 2020-07-09 Canadian Federalism is Canada's leading text on federal institutions and processes The fourth edition provides extensive updates and covers all the significant developments of the past decade including Prime Minister Stephen Harper's battles with the Supreme Court and Prime Minister Justin Trudeau's efforts at a more cooperative approach to intergovernmental relations It also features two entirely new chapters one on criminal justice and criminal law the other on comparative federalism Specific topics include the Supreme Court's renewed emphasis on cooperative federalism and a federal provincial balance tilted more in favour of the provinces the Trudeau government's efforts to broker a deal between provinces over pipelines and carbon taxes as part of its commitment under the Paris Agreement the strains imposed on federal provincial relations with the influx of refugees and the changing role of Ottawa and the provinces towards cities and in accommodating Indigenous rights Examination of these key issues includes discussion of the implications of the 2019 federal election and recent provincial elections *In Search of Canada* Stephen Richards Graubard, 1989-01-01 In Search of Canada **Reconsidering the Institutions of Canadian Federalism** J. Peter Meekison, Hamish Telford, Harvey Lazar, 2004 Beginning with an examination of the role of traditional institutions such as Parliament Cabinet the Supreme Court and political parties *Canada State of the Federation* 2002 affirms the long held belief that these bodies do not provide effective forums for interregional bargaining creating a void that has been filled at least in part by executive federalism Contributors conclude that the performance of traditional institutions taken as a whole has deteriorated over the last several decades placing more pressure on the processes of executive federalism **Federalism, Democracy and Labour Market Policy in Canada** Queen's University (Kingston, Ont.). Institute of Intergovernmental Relations, Queen's University (Kingston, Ont.). School of Policy Studies, 2000 In *Federalism Democracy and Labour Market Policy in Canada* the authors provide comprehensive assessments of the current state of governance within the areas of income support for the unemployed active labour market measures and youth policy The analysis focuses on how the current state of governance reflects a combined commitment to specific social policy goals principles of federalism and democratic oversight of the policy making process This volume sheds new light on the complex nature of the intergovernmental regimes governing labour market policy It makes recommendations concerning how different governance structures might better

serve both Canadians and the federation **Constitutional Politics in Canada and the United States** Stephen L. Newman, 2012-02-01 The Canadian constitutional reforms of 1982 which included a Charter of Rights and Freedoms analogous to the American Bill of Rights brought about a convergence with American constitutional law As in the U S Canadian courts have shown themselves highly protective of individual rights and they have not been shy about assuming a leading and sometimes controversial political role in striking down legislation In clear and easy to understand language the contributors not only chart but also explore the reasons for areas of similarity and difference in the constitutional politics of Canada and the United States *Report on Financial, Industrial and Commercial Conditions in Canada* Great Britain. Department of Overseas Trade, 1920 *Romanow Papers: The governance of health care in Canada* Commission on the Future of Health Care in Canada, 2004-01-01 The twelve papers in this third volume of the research program for the Romanow Commission offer a detailed analysis of the governance of health care in Canada from the perspective of constitutionalism intergovernmental relations and societal context In the first section the authors deal with the formal division of powers regarding health care as outlined in the Canadian constitution and the Charter of Rights and Freedoms The second section outlines the strengths and weaknesses of the intergovernmental governance of health care Finally the third section focuses on governance of health care outside of the governmental sphere The theme that resonates throughout the contributions and which is in itself a call for deeper analysis is that health care governance has become locked in a cycle of mutual recrimination blame assigning and blame avoidance from the federal and provincial levels right down to the level of the individual citizen The United States and Canada Paul J. Quirk, 2019-07-11 The United States and Canada share the longest border in the world maintain one of the closest alliances and are notably similar in many ways Yet the two countries also have important differences including sharply contrasting political institutions In *The United States and Canada* Paul J Quirk has gathered a distinguished cast of contributors to present an integrated comparative examination of the political systems of the United States and Canada with special attention to the effects of political institutions and their interaction with political values geographic and demographic factors and other influences The volume explores the differences between the American presidential or separation of powers system and the Canadian parliamentary system focusing on electoral and party systems executive leadership and the legislative process bureaucratic influence and federalism It proceeds to examine patterns of governance in a wide range of issue areas economic policy climate change policy healthcare policy civil rights integration and immigration and abortion and gay rights A sweeping comparative account this volume serves as an authoritative guide for anyone interested in why the two countries differ and where they might be headed The Comparative Turn in Canadian Political Science Linda White, Richard Simeon, Robert Vipond, Jennifer Wallner, 2009-01-01 Over the past decade the introspective insular and largely atheoretical style that informed Canadian political science for most of the postwar period has given way to a deeper engagement with and integration into the global field of comparative politics

This volume is the first sustained attempt to describe analyze and assess the comparative turn in Canadian political science Canada s engagement with comparative politics is examined with a focus on three central questions In what ways and how successfully have Canadian scholars contributed to the study of comparative politics How does study of the Canadian case advance the comparative discipline Finally can Canadian practice and policy be reproduced in other countries Executive Federalism Ronald L. Watts, Queen's University (Kingston, Ont.). Institute of Intergovernmental Relations, 1989 Survey of Current Business, 1926 *Case Studies in Canadian Health Policy and Management, Second Edition* Raisa B. Deber, Catherine L. Mah, 2014-04-30 Covering a wide range of issues the 22 cases included in *Case Studies in Canadian Health Policy and Management* constitute an exceptional resource for bringing real life policy questions into the classroom Based on actual events the cases have been developed with input from mid career professionals with strong field experience and extensively tested in Raisa B Deber s graduate case study seminar at the University of Toronto Each case features both a substantive health policy issue and a selection of key concepts and methods appropriate to examining public policy public health and health care management issues In each case the authors provide a summary of the case and the related policy issues a description of events suggested questions for discussion supporting information and both works cited and further reading Suitable for graduate and undergraduate classrooms in programs in a variety of fields *Case Studies in Canadian Health Policy and Management* is an exceptional educational resource This second edition features all new cases as well as adding an introductory chapter that provides a framework and tools for health policy analysis in Canada **Continuity and Change in Canadian Politics** David E. Smith, 2006-01-01 *Change and Continuity in Canadian Politics* gets to the heart of key issues and provides important insights into contemporary Canadian government and politics **The Case for Multinational Federalism** Alain-G. Gagnon, 2009-09-10 Throughout the world liberal democracies are grappling with increasing claims made in the name of minority national socio cultural and ethno cultural identities that seek greater recognition in the institutions of the nation state This work inserts itself into debates centred on diversity through a normative and empirical analytical assessment of the political sociology of multinational democracies The main thread of the arguments put forward is that federalism in both its institutional manifestations and its sociological properties constitutes a promising avenue for the management of cohabitating political communities and for the affirmation of collective identities within states that are constituted by two or more nations Author Alain G Gagnon develops his argument by contending that the federal principle allows for the exercise of advanced democratic practices within nation states permitting internal nations to openly affirm the bases of adherence to a common political project At the same time he argues that federalism nourishes the development of distinct collective traditions that serve to benefit all parties to the association It is concluded that only in such a scenario will the elusive pursuit of an authentic and shared loyalty underpin multination states and ensure their stability in contrast to the instrumental sentiments of belonging engendered by procedural territorial federal models

Focusing primarily on the Canadian case this book also draws inspiration from other federal states Belgium the United States as well as federalizing states Spain the United Kingdom It will be of keen interest to students and scholars of Politics European Studies along with Nationalism and Federalism Studies

The Canadian Regime Patrick Malcolmson, Richard Myers, Gerald Baier, Tom Bateman, 2016-01-01 Now in its sixth edition The Canadian Regime continues to provide the most accessible introduction to the institutions processes and principles of the Canadian political system The book's focus on the inner logic of parliamentary government explains the rationale for Canada's relatively complex political system which the authors encourage readers to think of as an organic entity where change in one area inevitably ripples through the rest of the system The new edition includes the results of Canada's 2015 federal election and looks ahead to consider changes resulting from the Liberal victory It has been thoroughly updated and revised and introduces several new topics such as the impact of the previous Conservative government on the conventions and practices of parliamentary government and the important influence of social media on politics Two new co authors Gerald Baier and Thomas M J Bateman join Patrick Malcolmson and Richard Myers to bring new expertise in the areas of federalism judicial politics Charter jurisprudence political parties and the ongoing health care debate

Community-Based Programs and Policies Howard A. Palley, 2014-01-02 This collection is focused on the provision of community based programs and activities in health and related long term care services that have contributed or may in the future contribute to social policy development Several of the articles in this collection deal with community based health and long term care program and policy initiatives that have been facilitated through federal programs such as Medicare Medicaid and the Older Americans Act The implementation of some of these community based programs have significantly influenced social policy thinking regarding the beneficial effects of integrating medical and social aspects of health and long term care services as well as the health care team approach to the delivery of health and long term care services Another dimension addressed is the impact of interest groups such as family caregivers in advancing social policy that supports the efforts of community based family care givers in providing services to patients in need The underlying theme is how such local community programs have contributed in a variety of ways to the development of social policies at the community level that in many ways focus on the integration of health and related long term care services and a health care team approach to the provision of such services The book will be of interest to community development courses in Schools of Social Work and other health professions such as Nursing and Public Health It will also be of interest to health policy programs in public administration and other social sciences This book was published as a special issue of Social Work in Public Health

Parties, Candidates, and Constituency Campaigns in Canadian Elections Anthony Sayers, 2011-11-01 Political scientists have traditionally examined the democratic process at the macro level With its unique micro level focus Parties Candidates and Constituency Campaigns in Canadian Elections provides the first systematic analysis of the local constituency campaigns that are the basis of elections and democracy in Canada By taking a detailed

look at campaigns in seven B C ridings during the 1988 free trade election the last under the old three party system Anthony Sayers develops a typology of candidates and campaigns The dynamics of local associations nominations and campaigns including those of former prime minister Kim Campbell and New Democrat Svend Robinson as well as key strategic events and the role of the media are reconstructed from interviews with candidates campaign managers party strategists volunteers and journalists The 1993 and 1997 elections are then invoked to show that the insights drawn about the nature of constituency politics remain relevant to the new party system This important contribution to the study of Canadian elections forcefully argues that knowledge of the dynamics at the local level is essential to a full understanding of Canadian polity its underlying social basis and the factors that determine successful election campaigns As such Parties Candidates and Constituency Campaigns in Canadian Elections will intrigue not only political scientists and students of Canadian politics but also election candidates and party strategists

Canada: The State of the Federation 2015 John R. Allan, David L.A. Gordon, Kyle Hanniman, André Juneau, 2018-05-31

Renewing and expanding national infrastructure is critical to the wellbeing and productivity of Canadians and is one of the foremost challenges confronting our federal provincial and municipal governments Not only are the required investments dauntingly large for all three levels of government but so too is the required level of intergovernmental cooperation if our goals are to be realized The 2015 State of the Federation volume advances our understanding of these infrastructure challenges and identifies how best to resolve them The contributors to the volume provide historical or international comparative perspectives and utilize legal economic or administrative approaches to examine the nature and magnitude of the so called infrastructure deficit and the question of how best to finance the necessary investments The possible roles played by deficits and debt are considered together with options such as public private partnerships and asset recycling and a possible Aboriginal resource tax to finance the on reserve infrastructure needs of First Nations Considerable attention is also paid to pricing the use of infrastructure both to achieve efficiency in use and to avoid excess demand and an exaggerated perception of the required level of investment Other contributors examine the infrastructure investment decision processes at the federal and provincial levels and consider the optimal allocation of responsibility for infrastructure investments among the different levels of government and the related issue of the role of intergovernmental transfers to underwrite this allocation
