The Familiar Enemy Ardis Butterfield, 2009-12-10 The Familiar Enemy re examines the linguistic literary and cultural identities of England and France within the context of the Hundred Years War During this war two profoundly intertwined peoples developed complex strategies for expressing their aggressively intimate relationship This special connection between the English and the French has endured into the modern period as a model for Western nationhood Ardis Butterfield reassesses the concept of nation in this period through a wide ranging discussion of writing produced in war truce or exile from the thirteenth to the fifteenth century concluding with reflections on the retrospective views of this conflict created by the trials of Jeanne d Arc and by Shakespeare s Henry V She considers authors writing in French Anglo Norman English and the comic tradition of Anglo French jargon including Machaut Deschamps Froissart Chaucer Gower Charles d Orlans as well as many lesser known or anonymous works Traditionally Chaucer has been seen as a quintessentially English author This book argues that he needs to be resituated within the deeply francophone context not only of England but the wider multilingual cultural geography of medieval Europe It thus suggests that a modern understanding of what English might have meant in the fourteenth century cannot be separated from French and that this has far reaching implications both for our understanding of English and the English and of French and the French

This Time Last Year Douglas Hobbie, 1998-03-15 Elizabeth Ash is on the run from her foundering marriage With her sidekick Lynn she has fled to England for a month where the cool air is a tonic and adventure may be at hand Seeking solitude Elizabeth s husband Henry has holed up in her sister s Vermont summerhouse to begin writing the book he hopes will transform his life But Henry is more alone and less isolated than he bargained for A year earlier his brother in law Fitz dropped dead in the same house Fitz s ghost is everywhere especially so after Henry inadvertently discovers Fitz s intimate life story stored in the Macintosh in the study

Victoriana Cora Kaplan, 2007 In Victoriana leading feminist cultural critic Cora Kaplan reflects on our modern obsession with Victorian culture She considers evocations of the nineteenth century in literature The French Lieutenants Woman by John Fowles Possession by A S Byatt Nice Work by David Lodge The Master by Colm T ib n

Fingersmith by Sarah Waters The Line of Beauty by Alan Hollinghurst film Jane Campion s The Piano and biography Peter Ackroyd s Dickens Why she asks does Jane Eyre still evoke tears and rage from its readers and why has Henry James become fiction s favorite late Victorian author Within Victoriana Kaplan argues lies a modern history of its own that reflects the shifting social and cultural concerns of the last few decades Distance has lent a sense of antique charm and exoticism to even the worst abuses of the period but it has also allowed innovative writers and filmmakers to use Victorian settings and language to develop a new and challenging aesthetic Issues of class gender empire and race are explored as well as the pleasures and dangers of imitating or referencing narrative forms individual histories and belief systems As Kaplan makes clear Victoriana can be seen as a striking example of historical imagination on the move restless and unsettled **Running**

Jean-Michel Rabaté,2014-09-22 Taking Sigmund Freud s theories as a point of departure Jean Michel Rabat s book explores the intriguing ties between psychoanalysis and literature Karl Marx's Grundrisse , Postcolonial Conrad Terry

Collits,2006-09-27 Winner of the 2006 NSW Prize for Literary Scholarship The work of Joseph Conrad has been read so disparately that it is tempting to talk of many different Conrads One lasting impression however is that his colonial novels which record encounters between Europe and Europe s Other are highly significant for the field of post colonial studies Drawing on many years of research and a rich body of criticism Postcolonial Conrad not only presents fresh readings of his novels of imperialism but also maps and analyzes the interpretative tradition they have generated Terry Collits first examines the reception of the author s work in terms of the history of ideas literary criticism traditions of Englishness Marxism and post colonialism before re reading Heart of Darkness Lord Jim Nostromo and Victory in greater depth Collits incisive and wide ranging volume provides a much needed reconsideration of more than a century of criticism discussing the many different perspectives born of constantly shifting contexts Most importantly though the book encourages and equips us for twenty first criticism where we must ask anew how we might read and understand these crucial and fascinating novels

Architect Knows Best Simon Richards,2016-04-15 The idea that buildings could be used to reform human behaviour and improve society was fundamental to the modernist architecture and planning of people like Walter Gropius Le Corbusier

and Jos Luis Sert in the first half of the 20th century Their proposals for functional zoning multi level transport high rise living and machine inspired aesthetics came under attack from the 1950s onwards and many alternative approaches to architecture and planning emerged It was thought that the environmental determinist strand of the discourse was killed off at this time as well This book argues that it was not but on the contrary that it has deepened and diversified Many of the most prominent architect planners continue to design with a view to improving the behaviour of individual people and of society at large By looking at and interviewing major figures and movements of recent years in Britain Europe and America including L on Krier Peter Eisenman Andr s Duany Jane Jacobs Robert Venturi and Denise Scott Brown it demonstrates the myriad ways that architect planners seek to shape human behaviour through buildings In doing so the book raises awareness of this strand within the discourse and examines its different purposes and manifestations It questions whether it is an ineradicable and beneficial part of architecture and planning or a regrettable throwback to a more authoritarian phase discusses why it is seldom acknowledged directly and whether it could be handled more responsibly and with greater understanding Richards does not provide any simple solutions but in conclusion is critical of architect planners who abuse the rhetoric of social reform simply to leverage their attempts to secure building commissions while being more sympathetic towards those who appear to have a sincere desire to improve society through their buildings
