Teaching the Early Modern Period D. Conroy,D. Clarke,2011-06-03 This innovative project unites leading scholars of English History and French to examine the challenges of teaching early modern literature history and culture within higher education The volume sets out a variety of approaches to teaching the period and aims to revitalize the connection between teaching and research *The Mind-Body Stage* R. Darren Gobert,2013-08-21 Descartes s notion of subjectivity changed the way characters would be written performed by actors and received by audiences His coordinate system reshaped how theatrical space would be conceived and built His theory of the passions revolutionized our understanding of the emotional exchange between spectacle and spectators Yet theater scholars have not seen Descartes s transformational impact on theater history Nor have philosophers looked to this history to understand his reception and impact After Descartes playwrights put Cartesian characters on the stage and thematized their rational workings Actors adapted their performances to account for new models of subjectivity and physiology Critics theorized the theater s emotional and ethical benefits in Cartesian terms Architects fostered these benefits by altering their designs The Mind Body Stage provides a dazzlingly original picture of one of the most consequential and confusing periods in the histories of modern theater and philosophy Interdisciplinary and comparatist in scope it uses methodological techniques from literary study philosophy theater history and performance studies and draws on scores of documents including letters libretti religious jeremiads aesthetic treatises and architectural plans from several countries **The Cambridge Companion to Moliere** David Bradby,Andrew

Jean Racine John Sayer, 2006 This first biography of Racine in over half a century for an English language readership also traces the impact of Racine over three centuries in England as well as France The plays and their reception are reviewed using contextual approaches as part of each phase of Racine's life story with excerpts and quotations translated Racine's upbringing and work as poet and historiographer are related to the France of Louis XIV to audiences and to advancement for this man from nowhere with parallels in Britain and elsewhere Changing attitudes to Racine are traced across the centuries across literary movements and on stage including recent productions The book provides insights in the specialist field of Racine studies and seventeenth century French literature and theatre in comparative literary studies particularly between France and Restoration England and to the interaction of Racine and European cultural movements to the present day

Antiquarianism and the Visual Histories of Louis XIV Robert Wellington, 2017-07-05 Antiquarianism and the Visual Histories of Louis XIV Artifacts for a Future Past provides a new interpretation of objects and images commissioned by Louis XIV 1638 1715 to document his reign for posterity The Sun King's image makers based their prediction of how future historians would interpret the material remains of their culture on contemporary antiquarian methods creating new works of art as artifacts for a future time The need for such items to function as historical evidence led to many pictorial developments and medals played a central role in this Coin like in form but not currency the medal was the consummate antiquarian object made in imitation of ancient coins used to study the past Yet medals are often elided from the narrative of the arts of ancient France their neglect wholly disproportionate to the cultural status that they once held This revisionary study uncovers a numismatic sensibility throughout the iconography of Louis XIV and in the defining monuments of his age It looks beyond the standard political reading of the works of art made to document Louis XIV's history to argue that they are the results of a creative process wedded to antiquarianism an intellectual culture that provided a model for the production of history in the grand siècle

Racine Mary Reilly, 2005 What is the nature of power in Racinean tragedy This study looks beyond the conventional pageant of political power in the plays by exploring tensions inherent in the very concept of power with each chapter elucidating how Racine's power relationships are concentrated in the question of language

Staging France between the World Wars Susan McCready, 2016-09-21 Staging France between the World Wars aims to establish the nature and significance of the modernist transformation of French theater between the World Wars and to elucidate the relationship between aesthetics and the cultural economic and political context of the period Over the course of the 1920s and 30s as the modernist directors elaborated a theatrical tradition redefined along new lines more abstract more fluid and more open to interpretation their work was often contested especially when they addressed the classics of the French theatrical repertory

This study consists largely of the analysis of productions of classic plays staged during the interwar years and focuses on the contributions of Jacques Copeau and the Cartel because of their prominence in the modernist movement and their outspoken promotion of the role of the theatrical director in general Copeau and the Cartel began on the margins of theatrical activity but over the course of the interwar period their movement gained mainstream acceptance and official status within the theater world Tracing their trajectory from fringe to center from underdogs to elder statesmen this study illuminates both the evolution of the modernist aesthetic and the rise of the metteur en scène whose influence would reshape the French theatrical canon
