Cultural Cleansing in Iraq Raymond W. Baker, Shereen T. Ismael, Tareq Y. Ismael, 2009-11-06 Why did the invasion of Iraq result in the destruction of culture and murder of intellectuals Convention sees accidents of war and poor planning in a campaign to liberate Iraqis The authors argue instead that the invasion aimed to dismantle the Iraqi state to remake it as a client regime Post invasion chaos created conditions under which the cultural foundations of the state could be undermined The authors painstakingly document the consequences of the occupiers wilful inaction and worse which led to the ravaging of one of the world's oldest recorded cultures Targeted assassination of over 400 academics kidnapping and the forced flight of thousands of doctors lawyers artists and other intellectuals add up to cultural cleansing This book lays to rest claims that the invasion aimed to free an educated population to develop its own culture of democracy The Destruction of Cultural Heritage in Iraq Peter G. Stone, Joanne Farchakh Bajjaly, 2008 Discussion of the issues surrounding the destruction of cultural property in times of conflict has become a key issue for debate around the world This book provides an historical statement as of 1st March 2006 concerning the destruction of the cultural heritage in Iraq In a series of chapters it outlines the personal stories of a number of individuals who were and in most cases continue to be involved These individuals are involved at all levels and come from various points along the political spectrum giving a rounded and balanced perspective so easily lost in single authored reports It also provides the first views written by Iraqis on the situation of archaeology in Iraq under Saddam and an overview and contextualisation of the issues surrounding the looting theft and destruction of the archaeological sites the Iraqi National museum and the libraries in Baghdad since the war was launched in 2003 Beyond this it examines our attitudes towards the preservation of cultural and heritage resources and in particular the growing political awareness of their importance Although related to a single conflict taking place at a specific time in history the relevance of this work goes far beyond these self imposed boundaries PETER STONE is Professor of Heritage Studies and Head of School of Arts and Cultures at Newcastle University JOANNE FARCHAKH BAJJALY is a Lebanese archaeologist and Middle East correspondent for the French magazine Arch ologia **Assyrian History Culture and Traditions** Venesia Yacoub, 2021-12-22 This book is the first of its kind and takes an in depth look at one of the oldest nations in the world while documenting various traditions and rituals tracing Assyrian lineage from cuneiform the beginning of time and writing until now Their rich history has engaged various archaeological groups throughout the world to visit their homelands and conduct various excavations which has led to incredible ancient discoveries that have been housed in universities and museums for centuries Their heartland is called the Cradle of Civilization and their legacy has earned the prestigious name of History of the World They were one of the first people to convert to Christianity and have been mentioned in the Bible and various books throughout time This book highlights information on their artifacts including one of the seven wonders of the ancient world the Hanging Gardens We also take an insider look at some topics that have been extensively chronicled and studied

the intersections of cultural heritage law and public international law but also examines how the regimes operate together and how the relationship between them largely facilitates but also sometimes hinders the development of international law governing the protection of cultural heritage

**The city guide for Basra (Iraq)** YouGuide Ltd, **Seeing Culture Everywhere** Joana Breidenbach, Pál Nyíri, 2011-07-01 Today's world is shaped by an obsession with cultural difference that penetrates everyday life and matters of state in unprecedented ways Culture and cultural difference are commonly used to explain everything that is in the news from wars to economic development and consumer behavior This fuels the belief that our world is shaped by clashing cultures a view that is counterproductive when it assumes falsely that culture is a timeless container that traps nations and ethnic groups Seeing Culture Everywhere challenges the misguided and dangerous global obsession with cultural difference and directly critiques the popular notion that world affairs are determined by essential civilizations with immutable and conflicting cultures The book offers an alternative view of a world in which cultural mixing not isolation is the norm but where several historical trends have come together at the beginning of the twenty first century to produce the current wave of culture think Brimming with concrete examples that move from genocide in Rwanda to schools in Berlin from the Chrysler boardroom to the war in Iraq it contemplates how ethnic identity can be mobilized in the service of all kinds of goals violent or nonviolent laudable or despicable and the unintended effects such mobilization invariably produces The authors suggest ways to remain sensitive to the cultural impacts of policies and decisions without falling into the traps of determinism essentialism and misrepresentation Seeing Culture Everywhere will be useful in the fields of anthropology law intercultural communication and international relations as well as for general readers interested in ethnicity and travel
