Politics in Ireland Maura Adshead, Jonathan Tonge, 2009-04-21 Politics in Ireland is the first major text to provide an

accessible and systematic analysis of the politics of Ireland North as well as South With the development of a new Northern Irish political system and increasing links across the island the authors argue that the time is ripe to study together the two polities which share so much of a common history but which have had very different evolutions through the 20th century Drawing upon an exceptionally wide range of sources and their own original research the authors deploy a thematic approach to the study of political institutions political behaviour and public policy in both the Republic and Northern Ireland in order to produce a detailed but highly readable assessment of governance and politics in both political systems This approach enables them both to outline the differences and similarities between the polities and to explain how they relate to the wider world in particular to the UK and to Europe

on interviews with key players and previously unused archival sources this book offers a fascinating account of a critical period in Fine Gael's history when the party was challenged to define its place in Irish politics

The Catholic Church and the Nation-State Paul Christopher Manuel, Lawrence C. Reardon, Clyde Wilcox, 2006-08-16 Presenting case studies from sixteen countries on five continents The Catholic Church and the Nation State paints a rich portrait of a complex and paradoxical institution whose political role has varied historically and geographically In this integrated and synthetic collection of essays outstanding scholars from the United States and abroad examine religious diplomatic and political actions both admirable and regrettable that shape our world Kenneth R Himes sets the context of the book by brilliantly describing the political influence of the church in the post Vatican II era There are many recent instances the contributors assert where the Church has acted as both a moral authority and a self interested institution in the United States it maintained unpopular moral positions on issues such as contraception and sexuality yet at the same time it sought to cover up its own abuses it was complicit in genocide in Rwanda but played an important role in ending the horrific civil war in Angola and it has alternately embraced and suppressed nationalism by acting as the voice of resistance against communism in Poland whereas in Chile it once supported opposition to Pinochet but now aligns with rightist parties With an in depth exploration of the five primary challenges facing the Church theology and politics secularization the transition from serving as a nationalist voice of opposition questions of justice and accommodation to sometimes hostile civil authorities this book will be of interest to scholars and students in religion and politics as well as Catholic Church clergy and laity By demonstrating how national churches vary considerably in the emphasis of their teachings and in the scope and nature of their political involvement the analyses presented in this volume engender a deeper understanding of the role of the Roman Catholic Church in the world

essential message of the two regimes model is that the social politics of fatherhood have taken on a global significance and that the USA and Sweden represent two ends of an international continuum of ways of thinking about fatherhood. The key selling points of the two regimes model are its topicality, originality, its global appeal and its particularised appeal to readers in the USA, the Nordic countries, Great Britain, Ireland, the European Union, Japan and China. The book offers students a comparative analytical framework and new insights into why some welfare states have father friendly social policies and others do not. The book makes an original contribution to the growing fields of welfare regime and gender studies by linking the epochal decline of patriarchal fatherhood to welfare state expansion over the course of the twentieth century and it raises new questions about the legitimacy of religiously inspired neo patriarchy. Community Economic Development Graham Haughton, 2013-12-16. This important book examines the ways in which community economic development can contribute to local and regional regeneration. It presents a unique overview of the state of contemporary British practice in this important policy area and provides a series of fresh theoretical, methodological and empirical insights which help us to understand ways in which communities are facing up to the challenges of devising and bringing about their own revitalisation. Community Economic Development is underpinned by the argument that much conventional regeneration work represents at best a short term fix rather than a long term sustainable solution to the problems of socially excluded communities. The emphasis of the book is largely on the British experience with contributions from a rich mix of new and established academics and practitioners. *Governance and Regulation in the Third Sector* Susan Phillips, Steven Rathgeb Smith, 2011-01-25. *Governance and Regulation in the Third Sector* brings together scholars and experienced practitioners from different countries to investigate the relationship between regulation and relational governance for the third sector in a comparative context. Each chapter reviews recent regulatory changes in the country in question. To what extent are there significant convergences in these reforms and what are the implications for the third sector? Is there any evidence that the foundational architecture for a more collaborative relationship between the state and the third sector has been laid? Overall the book reveals that the reality of the supposedly new collaborative relationships and the impacts of regulatory reform are quite different from what contemporary theories of public management would have us believe. Recognizing the gap between theory and reality the chapters explore some of the outstanding challenges for regulatory reform for the third sector.
