Is America Committing Suicide:

Is America Committing Suicide? Austin L. Sorenson, 1994 **America and Its Guns** James E. Atwood, 2012-06-01 James Atwood contends that the thirty thousand gun deaths America suffers every year cannot be understood apart from our national myth that God has appointed America as the trustee of the civilization of the world and even Christ's light to the nations. Because these purposes are noble and we are supposedly a good and trustworthy people, violence is sometimes required and gives license to individuals to carry open or concealed weapons which save lives and can even be redemptive. Atwood, an avid hunter, cautions that an absolute trust in guns and violence morphs easily into idolatry. Having spent thirty-six years as a Presbyterian pastor fighting against the easy access to firearms, one of which took the life of a friend, he uses his unique experience and his biblical and theological understanding to graphically portray the impact guns have on our society. He documents how Americans have been deceived into believing that the tools of violence, whether they take the form of advanced military technology or a handgun in the bedside stand, will provide security. He closes with a wake-up call to the faith community, which he says is America's best hope to unmask the extremism of the Gun Empire. HOW AMERICA BECAME ANTI-CHRISTIAN AND SELF-DESTRUCTIVE Dr. George Joseph K PhD, 2015-12-10 The American dream of a free world will be defeated if Christianity will be defeated in USA. USA cannot survive unless the current perceptions of freedom and secularism undergo a drastic change. There is freedom to promote almost everything except the Christian truth. Ten Commandments are banned. But yoga is promoted at all levels. This kind of selective discrimination against the truth will destroy the very foundations of any society. Strange motivations of the anti-supernatural secularist lobby in the governmental institutions and their complicity in sidelining Christian faith cannot be ruled out. Thus ironically the undefeatable America tends to defeat itself. In its rejection of Christian truth and values, USA made truth a lie and the lie a truth. If the current trends of self-hatred of Christian faith by higher criticism and liberal theology and destruction of churches continue in 20 years, USA will be overrun by the values and culture of Hinduism and Islam. And USA will go down in history as the most powerful empire which had the best values in its custody since the days of its foundation but subjected itself to a silent death executed by its experts and enjoyed by its people who went after thrillers, fantasies, romances, and other vain imaginations neglecting the truth. Remember it was the hatred to Christian values that instigated the anti-supernatural liberal theology from within and without the church, which ultimately resulted in the Nazi Holocaust. Beware when the Christian faith and values are suppressed, the very survival of the societies at large is endangered. This is the lesson of the entire world history.

Suicide and Suicide Prevention From a Global Perspective Ella Arensman, Diego De Leo, Jane Pirkis, 2020-04-06 Suicide is one of the most personal yet one of the most complex acts anyone can perform and it continues to be a major global public health problem with an estimated 800,000 deaths annually. Suicide prevention is an important target in the United Nations Sustainable Development Goals (SDGs) for 2030, which aims to reduce premature mortality from

noncommunicable diseases by one third Suicide is a global problem but what differences are there is the challenges faced and the solutions found regionally Written by leading experts the nine chapters of this volume provide a clear outline of the major milestones and achievements that have been reached so far in six different geographical regions according to data collated by IASP and the WHO Recent progress in the development and implementation of national suicide prevention programs in different countries is also explored In two concluding chapters the evidence base and best practice of suicide prevention programs are reviewed as well as a look at the future directions for suicide prevention at the global level This is essential reading for all those involved in suicide research and prevention as well as public health policy and epidemiology who want to keep up to date with the latest global developments Zen : Take It Easy Osho,2003 **Taiwan Agents in**

America and the Death of Prof. Wen-chen Chen United States. Congress. House. Committee on Foreign Affairs.

Subcommittee on Asian and Pacific Affairs,1982 *What Now, Adam?* Osho,2017-05-09 After decades in which women have started to take control of their own lives and have stepped out of old roles and restrictions to become independent of men the focus now turns to men The question at hand is What now Adam Men s liberation has not happened yet Not only women but men also need a great liberation movement liberation from the past from the slavery of life negating values and social conditionings that have been imposed upon them for thousands of years Man needs a new psychology to understand himself says Osho and the basic understanding that needs to be deeply imbibed and experienced is that no man is just male and no woman is just female each man is both man and woman and so is each woman woman and man Adam has Eve in him and Eve has Adam in her In fact nobody is just Adam and nobody is just Eve we are Adam Eves This is one of the greatest insights ever attained But throughout history men have been conditioned to deny and reject their feminine qualities to suppress their so called feminine responses and feelings and this has been reflected in the suppression of the female element in the outer world Unless each man can start to discover his own inner woman he is going to be tied up in a frustrating search for female qualities on the outside in the outer woman Each man needs to reintegrate his feminine qualities in order to become healthy and whole complete within himself Unless the individual man starts to come out of his robot like mechanical functioning and unawareness and begins to live his life with self love awareness and deep respect for his real nature there seems to be no chance that our world can escape global suicide Being a man or being a woman is an accident says Osho Just like being a German or an Indian is an accident being black or white is an accident all of these things are not our choices but you are lost in the accidents You are too worried about them your whole time and energy is wasted in them and you become so occupied with the non essential that the essential is forgotten The essential for Osho is what he calls the being simply the being which is not accidental but is destined Rather than trying to figure out what it is to be a man Osho suggests to find that which is absolutely destined That is your nature that is your essence In his playful and insightful way Osho looks at all of the different facets of the varying roles men play showing how these qualities have shaped and influenced society He shows how energies

that are so often channeled into aggression and negativity can be transformed into creativity and personal evolution and provides meditative techniques as a practical aid to moving through this process The book functions as a mirror using common archetypes to structure the wealth of material that is available from Osho on the subject of Men s Liberation These archetypes Adam The Robot The Beggar The Lover The Politician The Gambler The Creator and so on should not be understood as fixed types of character or personality but simply useful descriptions of certain tendencies conditionings and trained behavior patterns of the personality common to all of us As Osho indicates our reality lies beyond all these stereotypes and categories The archetypal concepts are used to help us recognize our particular mind sets and then move beyond the mind s limitations and confinements To go beyond the personality and discover the original face the real and essential self
