Is Australia An Asian Country:

Australia's Asia David Robert Walker, Agnieszka Sobocinska, 2012 To think that Australia is confronting Asia for the first time in the 21st century is to deny Australia's history and the self awareness that comes from understanding that the country has been here before Asia appears throughout modern Australian history as a source of anxiety or hope It has been a presence both within and outside Australia shaping who Australians are as well as the country's engagement with the wider world This book assembles an impressive group of scholars across a range of disciplines to present a broadly conceived cultural history that places Asia at or near the center of Australia's national story Australia's Asia From Yellow Peril to Asian Century captures the essence of the pendulum swings that have characterized Australian approaches to Asia over the past century and a half The editors have done a first class job in assembling high quality chapters that make an important contribution to the existing literature on Australia and Asia Moreover this book tells an important story about the role and impact of individuals not just elites but in many cases ordinary citizens in building Australia's relations with Asia It is a valuable remedy to the ahistorical approach of so many of the debates within Australia over regional engagement and is a useful text for those outside Australia interested in acquiring insights into what motivates the country's approach to its region Pacific Affairs Vol 87 No 4 December 2014

Australia's Asian Sporting Context, 1920s - 30s Sean Brawley, Nick Guoth, 2013-10-18 This book examines Australia's sporting relationships with the Asian region during the interwar period Until now Australia's sporting relationships with the Asian region have been neglected by scholars of Australian and Asian sports history and the broader field of Australia's Asian context Concentrating on the period of the 1920s and 1930s when sporting relationships between Australia and a number of Asian nations emerged in a variety of sports this book demonstrates the depth of these previously under examined connections The book challenges and complicates the broader historiography of Australia's Asian context a historiography that has been strongly influenced by the White Australia Policy and the Pacific War Why for example did white Australia so warmly welcome visiting Japanese sportsmen at a time when the Pacific region appeared to be inexorably sliding into a war that was informed by racial antagonisms This book examines sporting relations between Australia and seven Asian countries China Japan India Netherlands East Indies Philippines Malaya and Singapore and a range of sports including rugby football swimming hockey

boxing cricket and tennis This book was published as a special issue of Sport in Society **Australia in Southeast Asia** Erik Charles Paul,1998 Australia s place in the global economy is linked to South East Asia Recent conflicts highlight a clash between countries that do not share common values about individuals political and civil rights as the legitimate basis for their sovereignty Governance and Regionalism in Asia Nicholas Thomas,2009-01-13 This book explores the pressures currently influencing East Asian regionalist policy debates analysing the trend towards deeper integration and the emergence of a governance model for managing regional processes The Geopolitics of Australia's Regional Relations D. Rumley,1999-07-31 This is the first book which examines Australia s external relations from a political geographical perspective It stresses above all the changing orientation of these relationships towards the Asia Pacific region It takes a realistic perspective emphasising the internal relationships among environment society economy and politics in a spatial context Audience This volume is of particular interest to political geographers specialists in foreign affairs and international relations but it is also aimed at business people diplomats and general readers *Australia's Trade, Investment And Security In The Asian Century* John Hynes Farrar,Mary Hiscock,Vai Io Lo,2015-06-22 Given its geographical proximity to Asia and its close alliance with the West Australia amid the rise of Asian economies needs to re formulate its policies on trade investment and security Over the years in making decisions on issues relating to trade investment and security the Australian government has often resorted to the notion of national interest This book attempts to analyse national interest from the perspectives of economics finance international trade foreign direct investment international relations energy resources and migration in the context of Australia in the Asian century Currently there are no multidisciplinary books on the Australian national interest This book fills the gap with a broad and integrated approach in examining the subject Academics researchers and students of various disciplines such as economics finance international relations international trade foreign direct investment and Asian studies policy advisors government agencies financial institutions and trade law practitioners from around the world will find this book useful and stimulating **War, Strategy and History** Daniel Marston,Tamara Leahy,2016-05-31 This is a collection of essays in honour of eminent Professor Robert O Neill Each chapter was written by prominent academics and practitioners who have had a professional connection with Professor O Neill during his long and distinguished career The overarching themes running throughout the book are war strategy and history All the essays are shaped by the role that Professor O Neill has played over the last 50 years in the debates in Australia Europe and the US This book covers not only Professor O Neill s impressive career but also the evolution of strategy in practice and of strategic studies as an internationally recognised academic discipline **Asian Sport Celebrity** Koji Kobayashi,Younghan Cho,2021-03-31 What does the Asian mean in Asian sport celebrity With a collection of nine essays on Asian sport celebrities variously associated with Australia Belgium China Japan New Zealand North Korea Philippines South Korea Taiwan and the United States this book offers a comprehensive understanding of the multi faceted construction of what it means to be Asian

from the perspectives of race ethnicity and regionality Sport celebrity as a modern invention is disseminated from the West to the rest of the globe including Asia and so are its functions of symbolizing particular values desires and personalities idolized and idealized within their respective societies While Asian athletes were historically depicted as weak fragile and biologically unsuited to modern sport the emergence of more than a few world class Asian athletes in the twenty first century demands an in depth inquiry into the relationship between sport celebrity and the representation of Asia This book is therefore essential for those interested in a range of socio cultural issues including globalization transnationalism migration modernity post coloniality gender politics spectacle citizenship Orientalism and nationalism within and beyond Asia It was originally published as a special issue of The International Journal of the History of Sport *Australia's Pursuit of an Independent Foreign Policy under the Whitlam Labor Government* Changwei Chen, 2023-08-11 Examining a series of episodes in Australia's foreign relations under Whitlam the author pays attention to a broad range of hitherto insufficiently researched domestic and international issues in Australian's foreign relations of the early 1970s The election of the Whitlam led Labor Government in December 1972 ushered in fresh ideas and audacious initiatives in Australia's foreign policy Whitlam's approach was shaped by a vision of taking Australia forward to its rightful and independent place in the future of the Asia Pacific region They range from immigration policy and the abolition of appeals from Australian Courts to the Privy Council to such major international issues as the Anglo American base in Diego Garcia French nuclear testing in the Pacific and the Five Power Agreement with respect to Malaysia and Singapore He demonstrates how the pursuit of foreign policy independence repeatedly placed the Whitlam Government in a position wedged in between Australia's traditional allies and the Third World and how it navigated Australia's national interests on a series of dilemma situations involving conflicting strategic interests between Australia and its traditional allies and those between major powers and the non aligned countries The analysis presented in this book contributes to not only historical literature on the subject but also the understanding of how a middle power like Australia can navigate intensifying great power rivalry Essential reading for scholars of Australian foreign policy as well as being an invaluable case study of middle power diplomacy in the Asia Pacific region **Diasporas, Development and Governance** Abel Chikanda, Jonathan Crush, Margaret Walton-Roberts, 2015-12-12 Drawing on examples from the global North and South this book examines the relationship between migration development and diaspora engagement from a governance perspective It explores the ways that governments interact with their own extra national diasporic populations in order to boost economic development build global trading and investment networks and increase their political leverage overseas Inside readers will find fifteen essays which highlight such issues as diaspora engagement by governments at different scales the divisions that often exist within diaspora groups diaspora transnationalism and return migration diaspora knowledge networks and higher education capacity building and the neglected issues of South South migration and diasporas as well as North South migration and diasporas The book presents empirical case studies from

various geographical contexts including Australia Canada the Philippines India the Caribbean Zimbabwe and the United States Overall this book presents fresh insights into how and why migrant sending countries are increasingly turning to the diaspora option to attempt to benefit from the transfer of knowledge skills and financial and social capital It provides policy makers researchers and students with new perspectives on governance and the means by which states are attempting to utilize their diaspora resources

Festivals, Tourism and Social Change David Picard, Mike Robinson, 2006-10-12 This book explores the links between tourism and festivals and the various ways in which each mobilises the other to make social realities meaningful Drawing upon a series of international cases festivals are examined as ways of responding to various forms of crisis social political economic and as a way of re making and re animating spaces and social life Importantly this book locates festivals in the constantly changing socio economic and political contexts that they always operate in and respond to contexts that are both historical and modern at the same time Tourism is bound closely together with such contexts feeding and challenging festivals with audiences that are increasingly transient and transnational Tourism interrogates notions of ritual and tradition shapes new spaces and creates and renews relationships between participants and observers No longer can we dismiss tourists simply as value neutral and crass consumers of spectacle nor tourism as some inevitable commercial force Tourism is increasingly complicit in the festival processes of re invention and in forming new patterns of social existence

Australia and Human Rights Caroline Fleay,2020-05-22 The Howard government s term in office in Australia from 1996 to 2007 is often portrayed as one where Australia retreated from its international human rights obligations Throughout this era a range of government policies attracted much criticism for downplaying or ignoring human rights Less attention has been given to the human rights policies of previous Australian governments and the heritage they provided for the Howard government Situating the policies of the Howard government within those of previous Australian governments provides a greater understanding of human rights in Australia This book examines human rights policies in Australia in three key areas human rights in Australia China relations responses to asylum seekers and refugees and engagement with human rights at the United Nations These areas highlight where the Howard government clearly deviated from some of the more positive human rights policies of its predecessors The book also challenges the perception that Australia has a proud history of human rights policy by revealing where the Howard government continued or revived policies of earlier Australian governments that were not consistent with international human rights standards Such an understanding of human rights in Australian policy is imperative for informed analysis and debate on current and future policy trends
