## Is Japan Still Number One:

**Japan as Number One** Ezra F. Vogel, 1979 A chronicle of Japan's development into one of the world's most effective industrial powers

**Japan as (Anything but) Number One** Jon Woronoff, 2016-09-16 A full scale examination of the 1979 Sino Vietnamese War the events that led to it the Cold War aftermath and the implications for the region and beyond

Japan as -anything but- Number One J. Woronoff, 1996-10-11 Japan as anything but Number One should be everybody's number two book to read about Japan After almost any introduction that lays out the claims made for Japan's truly unusual economy and society the next step forward should be to read an informed critical text to set a contrast in the mind No book achieves this more concisely more accurately and more succinctly than Japan as anything but Number One James Y Bourlet Professor of Japanese Management London Guildhall University Is Japan No 1 Well maybe it is if you only consider those sectors where it has been particularly successful But not if you add many others where its performance was mediocre or worse Is Japan No 1 Well maybe it is if you ask the foreign friends who have made a career and sometimes a fortune as apologists of Japanese causes But if you ask the Japanese themselves you will find that they are anything but satisfied Is Japan No 1 Well maybe it is if you are taken in by the *tatemaie* i.e. the official version or how its admirers like to picture it But it does not look so great once you perceive the *honne* i.e. the realities of life in Japan Is Japan No 1 Well maybe it is if you take what is best in Japan and contrast it to what is less good in foreign countries But it does not compare so well if you mix the good with the bad in both places No the author does not think that Japan is a horrible place or that its leaders have made a complete mess of things But if you look closely it is certainly not the extraordinary success it is frequently claimed to be It is closer to the mean with many serious problems that will only get worse if people foolishly assume it is No 1

*Japan-Bashing* Narrelle Morris, 2013-01-11 The aim of this book is to examine and analyse the phenomenon of Japan bashing from its invention and popularisation in the United States in the late 1970s to the emergence of other national variants including in Australia and Japan to its gradual decline in the late 1990s It is the first major book length study of Japan bashing from a multinational perspective one that attempts to place Japan bashing in its proper historical context and to examine its operation and legacy in the twenty first century Despite its importance in the study of discourses about Japan as well as in understanding broader global changes in the late twentieth century and beyond the phenomenon of Japan bashing remains largely neglected in published writings Moreover it is a far more complex phenomenon than has been assessed thus far While on first glance Japan bashing merely seems to recall other periods in which Japan has been viewed as a dangerous other to the West such as the Western emphasis on the yellow peril from the late nineteenth century as well as Allied anti Japanese propaganda during World War II Japan bashing also had its own distinctive characteristics Moreover while Japan bashing is often described as a quaint historical rather than a pressing contemporary phenomenon it is actually by no means extinct The ongoing influence of Japan bashing also has parallels in other bashing phenomena such as China

bashing This book will be of interest to scholars and postgraduate students in Japanese studies and international relations

**Japan in the 21st Century** Pradyumna Karan, 2010-09-12 The ancient civilization of Japan with its Shinto shrines and Buddhist temples is also closely associated with all that is new and modern Looking outward Japan sees what it has become since Hiroshima the world's second largest economy a source of fury and wonder a power without arms Looking inward Japan sees old ways shaken and new ones developing at a hectic pace Japan in the Twenty first Century offers compelling insights into the current realities of the country and investigates the crucial political economic demographic and environmental challenges that face the nation A combination of text maps and photographs provides an essential understanding of Japan's geography cultural heritage demography economic and political development and of many other important issues Pradyumna P Karan explores the obstacles and opportunities that will shape Japan and affect the world community in the coming years He highlights strategies and policies that will facilitate economic and political change and stimulate the development of effective institutions for long term sustainable prosperity and economic vitality Unique field reports drawn from direct observations of events and places in Japan illuminate Japanese traditions and sensibilities The first full length English language textbook on Japan's geography culture politics and economy to appear in nearly four decades Japan in the Twenty first Century will be a vital resource for researchers academics general readers and students of Japan Pradyumna P Karan professor of geography and Japan studies at the University of Kentucky is the author or editor of numerous books on Asian geography and culture including **The Japanese City** and **Japan in the Bluegrass**

**Peak Japan** Brad Glosserman, 2019-04-01 The post Cold War era has been difficult for Japan A country once heralded for evolving a superior form of capitalism and seemingly ready to surpass the United States as the world's largest economy lost its way in the early 1990s The bursting of the bubble in 1991 ushered in a period of political and economic uncertainty that has lasted for over two decades There were hopes that the triple catastrophe of March 11 2011 a massive earthquake tsunami and accident at the Fukushima Daiichi nuclear power plant would break Japan out of its torpor and spur the country to embrace change that would restart the growth and optimism of the go go years But several years later Japan is still waiting for needed transformation and Brad Glosserman concludes that the fact that even disaster has not spurred radical enough reform reveals something about Japan's political system and Japanese society Glosserman explains why Japan has not and will not change concluding that Japanese horizons are shrinking and that the Japanese public has given up the bold ambitions of previous generations and its current leadership This is a critical insight into contemporary Japan and one that should shape our thinking about this vital country

**American Power, the New World Order and the Japanese Challenge** W. Nester, 1992-12-18 This book analyzes US Japan relations amidst the changing nature of power and international relations Chapters explore the relative successes and shortcomings of American liberalism and Japanese Neomercantilism the bilateral trade duels over finance high technology agriculture and other industries and the costs and benefits of foreign investment

and military spending The book concludes with suggestions for a systemic and radical overhaul of American policies toward itself the global economy and Japan *Travel Like a Millionaire Without Being One* Sigrid Carter,2018-11-21 Sigrid Carter's life story is worthy of becoming a movie This was true before she even turned thirty As an adventurous girl in her twenties she and three girlfriends from Germany trekked from Colorado to the Pacific coast of Panama where the group of friends took a canoe into the ocean got lost and found themselves surrounded by sharks just as bad weather set in Somehow they survived The tide carried them to the shores of Columbia where they spent time living with Indians Further into their exciting adventure they assisted biologists researching the Amazon rain forests The chief of that US expedition later became Sigrid's husband A Peruvian filmmaker did in fact turn the ordeal into a television movie but before the girls had the chance to see the movie they were already in Chile busy continuing the lives most of us can only imagine **Asia, America, and the Transformation of Geopolitics** William H. Overholt,2007-11-05 American security and prosperity now depend on Asia William H Overholt offers an iconoclastic analysis of developments in each major Asian country Asian international relations and US foreign policy Drawing on decades of political and business experience he argues that obsolete Cold War attitudes tie the US increasingly to an otherwise isolated Japan and obscure the reality that a US Chinese condominium now manages most Asian issues Military priorities risk polarizing the region unnecessarily weaken the economic relationships that engendered American preeminence and ironically enhance Chinese influence As a result US influence in Asia is declining Overholt disputes the argument that democracy promotion will lead to superior development and peace and forecasts a new era in which Asian geopolitics could take a drastically different shape Covering Japan China Russia Central Asia India Pakistan Korea and South East Asia Overholt offers invaluable insights for scholars policy makers business people and general readers Industrial Development, Technology Transfer, and Global Competition Pierre-Yves Donze,2016-10-14 The phenomena of Japan emerging as one of the most competitive industrial nations in the twentieth century and the general shift of competitiveness to East Asia since the 1980s have been widely studied by many scholars from different fields of the social sciences Drawing on sources from Japanese Swiss and American archives the historical analysis of this book tackles a wide range of actors and sheds light on the various processes that enabled Japanese watch companies to transfer technology and expand commercially starting in the second half of the nineteenth century By exploring the case of the watch industry this book serves to establish a better understanding of the origins of the competitiveness of Japanese manufacturing and its evolution until its decline in the post bubble economy in the 1990s and 2000s International Trade Policy and European Industry Marcel van Marion,2013-07-03 Trade policy has played a vital role in the decline of European electronics business The events that resulted in the disappearance of the European television industry of a European and Japanese video recorder format and of other European consumer electronics are directly related to market structures in exporting countries and business practices In this book factual business data shows and economic models explain how restrictive trade practices

result in elimination of efficient competitors in export markets It deals with the memorable case how a videocassette recorder format was established by dumping and how politics enabled it An innovative tariff increase for CD players was invalidated by heavy dumping causing closure of production in Europe European CTV industry succumbed under permanent dumping and a series of biases as the interest of a state owned company and serious errors making trade instruments void and rules irreconcilable with international agreements Practical and theoretical examples and explanations some in detail of trade rules are provided The book sketches events carelessness prejudice or special interests arbitrary and false application of trade instruments and fraud resulting in disappearance of various European electronics business segments

**Modern Japan** James L. Huffman, 1998 A reference on Japan concentrating on the period beginning in the 1850s with entries on events leaders and societal pressures in the country's recent past that affected its entry into the modern age Coverage includes politics the arts religion business education journalism and other major social and economic forces as well as broad topics such as militarism labor and censorship Includes English language bibliographies and bandw photos Annotation copyrighted by Book News Inc Portland OR

**Japan in Decline** Purnendra Jain, Brad Williams, 2011-03-21 To what extent is Japan in decline In recent years popular writings media commentaries and analysts often take the view that the rise of Japan is long since over and that the world's second largest economy is not just treading water but that society and the economy are failing with potential catastrophic outcomes But is this really the case Could it be that once again Japan is being misread and misinterpreted Are there not both obvious and less obvious signs of renewal and recovery And how might the new DPJ led government reform Japan Based on papers given at a major international conference held at the University of Adelaide in November 2009 this thesis is examined here by a group of the world's leading specialists in their fields addressing many of the key issues facing Japan today from the economy and environment to education social policy politics internationalization diplomacy security This volume will have wide ranging interdisciplinary relevance for students and specialists alike

**Pros and Cons of Initiating Negotiations with Japan to Explore the Possibility of a U.S.-Japan Free Trade Area Agreement**, 1988

**Free and Equal** Joseph Grčić, 2011 The ideas of John Rawls have revolutionized the shape and content of much of contemporary political and social philosophy His A Theory of Justice 1971 and Political Liberalism 1993 among other works have been a rich source of ideas which continue to influence contemporary discussions about justice and politics Although much has been written on the political philosophy of Rawls there has not been any in depth study focused on the implications of the ideas of Rawls for contemporary existing democracies Drawing on some of his earlier work the author offers a detailed exploration of how Rawlsian ideas impact the basic elements of Western democracies and the US Constitution and discusses the changes that would be necessary to make modern democracies more consistent with the basic values of liberal equality as understood by Rawls The ideas of justice equality fairness liberty public reason stability the rule of law and other related concepts are the bases of the analysis of the US Constitution and

suggestions for reform presented here For many people the American Dream has come to seem more like a vague hope than a real possibility It is becoming increasingly clear that our society is faced with profound social and political problems which need to be confronted and addressed Some of these problems are described in this book and the solutions defended here are based on a deeper understanding of the underlying principles of the Constitution informed by the ideas of the philosopher John Rawls This book is intended for the general educated public and college classrooms in political philosophy philosophy of law American government

**Japan Diary** Mark Gayn,1989-12-15 This book is an eyewitness report of what happened in Japan and Korea during the Occupation years from December 1945 to May 1948 It is also meant to be some other things It is the story of that extraordinary figure General Douglas MacArthur and the men around him It is the story of the way American foreign policy operated in one segment of the globe and of the plot and counterplot that went on behind the Japanese throne in the years of war and of the subsequent conspiracy to thwart the Allied purposes It is the story of the common people in two Oriental lands It is finally the record of the author's education and not a few readers will find it controversial But it is an absorbing book nonetheless and the years that have passed since its first publication have not diminished its value as the chronicle of a highly observant reporter It is indeed an intriguing panorama that Gayn presents and whether the reader agrees with him in all of his observations he can hardly accuse him of being unexciting

United States-Japan Relations  
United States. Congress. House. Committee on Foreign Affairs. Subcommittee on Asian and Pacific Affairs,1989

**The Luxury Strategy** Jean-Noël Kapferer,Vincent Bastien,2012-09-03 Discover the secrets to successful luxury brand management with this bestselling guide written by two of the world's leading experts on luxury branding Jean No l Kapferer and Vincent Bastien providing a unique blueprint for luxury brands and companies Having established itself as the definitive work on the essence of a luxury brand strategy this book defines the differences between premium and luxury brands and products analyzing the nature of true luxury brands and turning established marketing rules upside down Written by two world experts on luxury branding The Luxury Strategy provides the first rigorous blueprint for the effective management of luxury brands and companies at the highest level This fully revised second edition of The Luxury Strategy explores the diversity of meanings of luxury across different markets It rationalizes those business models that have achieved profitability and unveils the original methods that were used to transform small family businesses such as Ferrari Louis Vuitton Cartier Chanel Armani Gucci and Ralph Lauren into profitable global brands Now with a new section on marketing and selling luxury goods online and the impact of social networks and digital developments this book has truly cemented its position as the authority on luxury strategy

Cognac Kyle Jarrard,2008-04-21 Rich in history and admirable scholarship It's a fine grande champagne of a book to be savored over and over Patricia Wells author of The Provence Cookbook Called the brandy of the gods by Victor Hugo Cognac is a universal symbol of refinement and quality In the first comprehensive history of this celebrated drink Kyle Jarrard charts Cognac's birth in the 1500s and its transformation into the world's most coveted brandy

Along the way he reveals how Cognac distillers weathered vineyard die offs the German occupation and other challenges over the years and offers a fascinating behind the scenes look at Hennessy Remy Martin Courvoisier Martell and other legendary brands For any Cognac lover this fascinating book will make the perfect gift Kyle Jarrard Paris France is a senior editor at the International Herald Tribune and author of the highly acclaimed novels Over There and Rolling the Bones

**The Politics of Economic Change in Postwar Japan and West Germany** Haruhiro Fukui, Peter H. Merkl, Hubertus Muller-Groeling, Akio Watanabe, 1993-02-12 The book begins with an editors introduction that provides a conceptual setting for a comparative study of the role of policy in the development of the postwar Japanese and West German economies It then offers detailed comparative analyses of developments in the two countries on seven substantive topics an overview of macroeconomic change economic advisory and planning monetary control inflation control labour markets and wage determination agriculture and social security and welfare It ends with an editor s summary and conclusion

## Unveiling the Power of Verbal Artistry: An Emotional Sojourn through **Is Japan Still Number One**

In a global inundated with screens and the cacophony of instantaneous connection, the profound power and emotional resonance of verbal artistry usually fade into obscurity, eclipsed by the regular onslaught of sound and distractions. However, nestled within the lyrical pages of **Is Japan Still Number One**, a charming perform of literary splendor that impulses with fresh thoughts, lies an unique trip waiting to be embarked upon. Composed by way of a virtuoso wordsmith, that interesting opus guides visitors on an emotional odyssey, lightly exposing the latent possible and profound affect stuck within the complicated web of language. Within the heart-wrenching expanse of the evocative examination, we will embark upon an introspective exploration of the book is central themes, dissect their captivating publishing type, and immerse ourselves in the indelible impact it leaves upon the depths of readers souls.
