Is There A Meaning In This Text:

Is There a Meaning in This Text? Kevin J. Vanhoozer, 2009-08-30 Is there a meaning in the Bible or is meaning rather a matter of who is reading or of how one reads Does Christian doctrine have anything to contribute to debates about interpretation literary theory and post modernity These are questions of crucial importance for contemporary biblical studies and theology alike Kevin Vanhoozer contends that the postmodern crisis in hermeneutics incredulity towards meaning a deep set skepticism concerning the possibility of correct interpretation is fundamentally a crisis in theology provoked by an inadequate view of God and by the announcement of God s death Part 1 examines the ways in which deconstruction and radical reader response criticism undo the traditional concepts of author text and reading Dr Vanhoozer engages critically with the work of Derrida Rorty and Fish among others and demonstrates the detrimental influence of the postmodern suspicion of hermeneutics on biblical studies In Part 2 Dr Vanhoozer defends the concept of the author and the possibility of literary knowledge by drawing on the resources of Christian doctrine and by viewing meaning in terms of communicative action He argues that there is a meaning in the text that it can be known with relative adequacy and that readers have a responsibility to do so by cultivating interpretive virtues Successive chapters build on Trinitarian theology and speech act philosophy in order to treat the metaphysics methodology and morals of interpretation From a Christian perspective meaning and interpretation are ultimately grounded in God s own communicative action in creation in the canon and preeminently in Christ Prominent features in Part 2 include a new account of the author s intention and of the literal sense the reclaiming of the distinction between meaning and significance in terms of Word and Spirit and the image of the reader as a disciple martyr whose vocation is to witness to something other than oneself Is There a Meaning in This Text guides the student toward greater confidence in the authority clarity and relevance of Scripture and a well reasoned expectation to understand accurately the message of the Bible Is There a Meaning in This Text is a comprehensive and creative analysis of current debates over biblical hermeneutics that draws on interdisciplinary resources all coordinated by Christian theology It makes a significant contribution to biblical interpretation that will be of interest to readers in a number of fields The intention of the book is to revitalize and enlarge the concept of author oriented interpretation and to restore confidence that readers of the Bible can reach understanding The result is a major challenge to the central assumptions of postmodern biblical scholarship and a constructive alternative proposal an Augustinian hermeneutic that reinvigorates the notion of biblical authority and finds a new exegetical practice that recognizes the importance of both the reader s situation and the literal sense **An Enquiry into the Meaning of that text Genesis i. 26. Let us make man in our image, after our likeness. Containing a full answer to the interpretation given ... in a letter lately published in the supplement to the Gentleman's Magazine for the year 1747; and likewise to Mr. Kennicott's interpretation of the same, in his Dissertation on the Tree of Life in Paradise ,1748** *The Idea of a Text and the Nature of Textual Meaning* Anders Pettersson, 2017-04-15 In

his account of text and textual meaning Pettersson demonstrates that a text as commonly conceived is not only a verbal structure but also a physical entity two kinds of phenomena which do not in fact add up to a unitary object He describes this current notion of text as convenient enough for many practical purposes but inadequate in discussions of a theoretically more demanding nature Having clearly demonstrated its intellectual drawbacks he develops an alternative boldly revisionary way of thinking about text and textual meaning His careful argument is in challenging dialogue with assumptions about language in use to be found in a wide range of present day literary theory linguistics philosophical aesthetics and philosophy of language

The Bible and the Crisis of Meaning Christopher Spinks, 2007-08-30 Many of the most pressing issues in theology and the church today depend greatly on the understanding of the bible Recent debates on the theological interpretation of scripture have emerged which consider whether the meaning of scripture should concern theologians and church leaders at all The Bible and the Crisis of Meaning is an account of these debates in examining the concept of meaning in current proposals of theological interpretation The concept of meaning is educed either from the supposed nature of the texts and their authors or from the function of the texts in religious communities Thus approaches to theological interpretation become debates between ontological and pragmatic strategists Stephen Fowl and Kevin Vanhoozer have embraced the term theological interpretation for their separate projects but their ideas of what this means and how meaning is a part of it differ greatly Christopher Spinks describes their respective concepts of meaning and argues for a more holistic concept that allows theological interpreters to understand their craft not so much as a discovery of intentions or the creation of interests but as a conversation in which truth is mediated

The Truth of History C. Behan McCullagh, 2002-11 Modern relativism and postmodern thought in culture and language challenge the truth of history This book considers how historians confined by argument of their own cultures can still discover truths about the past

Meaning and Reading Michel Meyer, 1983-01-01 According to the traditional view meaning presents itself under the form of some kind of identity To give the meaning of a sentence amounts to being capable of producing some substitute based on the identity of the terms of the sentence Is then

the meaning of a book or of any text the capacity of rewriting it Instead of retaining a double standard theory of meaning one for sentences and another for texts that would allow for an ad hoc gap the author provides a unified conception called the question view of language he has developed known as problematology He pursues a systematic analysis of questioning in literature and shows how questioning makes the understanding process possible *Dōgen's texts* Ralf Müller, George Wrisley, 2023-12-07 This book addresses the question of how to properly handle D gen s texts a core issue that became critical during the Meiji period in which the philosophical appropriation of D gen became apparent inside and outside of the monastery In present day D gen studies most scholarship is informed by a number of factions representing D gen The chapters herein address the Zennist j zenj ka emphasising practice the Genz nians j genz ka shifting the attention to the close reading of D gen s texts the laity movement opening up both the texts and the practice to people in modern society and the Genz researchers j genz kenky ka searching for the authenticity and truth of D gen s writings The book aims to clarify the rightful place of D gen in the monastery in denominational studies or in modern academic philosophy It brings forth various viewpoints on D gen and analyzes the relations of these viewpoints from the premodern to modern times The collected volume appeals to students and researchers in the field while establishing hermeneutic standards of reading and proposing new original and critical interpretations of D gen s texts Chapter From Uji to Being time and Back Translating D gen into Philosophy is available open access under a Creative Commons Attribution 4 0 International License via link [springer.com](https://www.springer.com)
