### Seeing Color Experiment

Home Experiment!

**Problem:** Do colors reflect off of a white sheet of paper? If so, what colors can I see?

**Materials:**

- Crayons or markers
- Sheet of paper

**Research:** Look up cones (of the eye)

**Results:** What do you see?

### Pre-Experiment Teacher's Notes

1. Copy the Seeing Color experiment worksheet (double-sided is fine) for each child as the American flag coloring sheet with the white space at the bottom.
2. Read through the experiment in class and allow students to ask any questions about the procedure. Make sure students have a plan.
3. Although this can be done in one evening, give students several days to do the experiment. Warn them not to spoil the fun for others by revealing what happens before the due date. Giving students this "spoiler alert" warning increases their own excitement to find out what will happen!
