Fatal Decisions:

The Off Switch Sarah Greener, 2024-04-24 Most business owners love to think they are saving their business from impending doom by doing everything and in the process gain themselves a really expensive job there is no escape from I know I've made every mistake in the book But it's actually ridiculously simple Here it is Step 1 Hit the Pause Button Step 2 Work out what you really want Step 3 Take action to get what you want Everybody knows the first step is the hardest There are literally millions of problems to solve in your business and they all have to be done right now Right Wrong And it took a global pandemic for you to realize you could stop and you could change But how do you turn that gift you just received into a business that serves you and your life The life you want not the one you got after years of working too hard for too many hours That's what The Power Hour does And I detail every step inside this book Here's Just A Fraction Of What's Inside The framework to build a Life Serving business Follow this and you'll remember why you love it Why now is the perfect moment to reset your business and capitalise on this unique time Don't do this The rules that will trap you in busy and cause your business to take over your life The North Star of building your business and why most ignore it The 1 one hour investment creates ease and flow every week How to deploy the B Word that ensures you build a business that doesn't require 24/7 hustle and grind How to make decisions that propel you towards business success with no sleepless nights Generate clear boundaries in a single week and win back 8 hours of life How even a complete people pleaser can start to say No without guilt The 4 step system that kills procrastination that is the exact opposite of what the gurus teach and why they make it complicated And much much more

Hitler's Command Rex Bashford, 2024-04-30 The third in a three part in depth study and deals with Hitler's influence on the Wehrmacht and how his decisions influenced the advancement of weapons technology in this pivotal era of the Second World War Hitler arrogated to himself the power to make all critical decisions relating to the strategic and operational deployment of the entire Wehrmacht and this volume analyzes the effect of his decisions on the Luftwaffe and Kriegsmarine How did his decisions affect the development of German Jet aircraft And the types of U Boats used How did he decide what priority to assign to key weapons in the overall German war effort What determined how programs such as the V1 V2 and the potential German Atomic bomb were integrated into the German war effort All these matters were critical to the actual operational power of the Wehrmacht as opposed to its theoretical potential Similarly what was the effect of the allied strategic bombing campaign on Germany's war potential and how effective were the steps Hitler ordered against it Finally what did the leading military figures of the Third Reich such as Field Marshals von Rundstedt Rommel Kluge Bock Model and Kleist think of Hitler's command Did the Chiefs of the General Staff during the war Halder Zeitzler and Guderian state their views And what was the effect of the attempt on Hitler's life through Operation Valkyrie on military operations Hitler's Command is the third in a three part in depth study and deals with Hitler's influence on the Wehrmacht and how his decisions influenced the advancement of weapons technology in this pivotal era of the Second

Choosing Life, Choosing Death Charles Foster, 2009-02-27 Autonomy is a vital principle in medical law and ethics It occupies a prominent place in all medico legal and ethical debate But there is a dangerous presumption that it should have the only vote or at least the casting vote This book is an assault on that presumption and an audit of autonomy s extraordinary status This book surveys the main issues in medical law noting in relation to each issue the power wielded by autonomy asking whether that power can be justified and suggesting how other principles can and should contribute to the law It concludes that autonomy s status cannot be intellectually or ethically justified and that positive discrimination in favour of the other balancing principles is urgently needed in order to avoid some sinister results This book is a sustained attack on the hegemony of the idea of autonomy in medical ethics and law Charles Foster is no respecter of authority whether of university professors or of law Lords He grabs his readers by their lapels and shakes sense into them through a combination of no nonsense rhetoric and subtle argument that is difficult to resist Tony Hope Professor of Medical Ethics Oxford University This book is unlikely to be in pristine state by the time you have finished reading it Whether that is because you have thrown it in the air in celebration or thrown it across the room in frustration will depend on your perspective But this book cannot leave you cold It is a powerful polemic on the dominance of autonomy in medical law which demands a reaction Charles Foster sets out a powerful case that academic medical lawyers have elevated autonomy to a status it does not deserve in either ethical or legal terms In a highly engaging accessible account he challenges many of the views which have become orthodox within the academic community This will be a book which demands and will attract considerable debate Jonathan Herring Exeter College Oxford University This is a learned lively and thought provoking discussion of problems central to the courts approach to ethical issues in medical law What principles are involved More significantly

which really underlie and inform the process of seeking justice in difficult cases Charles Foster persuasively argues and demonstrates that respect for autonomy is but one of a number of ethical principles which interact and may conflict He also addresses the sensitive issue of the extent to which thoughts and factors which go to influence legal decisions may not appear in the judgments Adrian Whitfield QC Introducing the Jake La Motta of medical ethics Foster is an academic street fighter who has bloodied his hands in the court room He provides a stinging relentless ground attack on the Goliath of medical ethics the central place of autonomy in liberal medical ethics This is now the first port of call for those who feel that medical ethics has become autonomized Julian Savulescu Uehiro Chair in Practical Ethics University of Oxford This important book offers a robust challenge to anyone whether lawyer or ethicist who sees respect for autonomy as the only game in town It argues eloquently and effectively that on the one hand despite the reverence paid to it by judges in practice the law even in the context of consent weaves together a number of moral threads of which autonomy is merely one in the pursuit of a good decision It argues on the other hand that were the day to day practice of law to be guided primarily by respect for autonomy this would be wrong Foster concludes that whilst any society that does not have laws robustly protecting autonomy is an unsafe and unhappy one so too would be a society in which too much emphasis was placed on respect for autonomy at the expense of other important moral principles This is essential reading for anyone interested in the role of autonomy and indeed of medical ethics in the law Michael Parker Professor of Bioethics University of Oxford

Quantitative Evaluation of Systems Marco Gribaudo, David N. Jansen, Anne Remke, 2020-11-03 This book constitutes the proceedings of the 17th International Conference on Quantitative Evaluation Systems QEST 2020 held in Vienna Austria in August September 2020 The 12 full papers presented together with 7 short papers were carefully reviewed and selected from 42 submissions The papers cover topics such as classic measures involving performance and reliability quantification of properties that are classically qualitative such as safety correctness and security as well as analytic studies diversity in the model formalisms and methodologies employed and development of new formalisms and methodologies

Revolutions and the Collapse of Monarchy Zhand Shakibi, 2007-02-23 What causes revolution What brought about the end of the last major monarchies of the modern period Were Louis XVI Nicholas II and Mohammad Reza Pahlavi the unwitting victims of historical circumstance or did their own actions help to bring about the revolutions that overthrew them This powerful and original book is the first comparative study of the revolutions in Bourbon France Romanov Russia and Pahlavi Iran Zhand Shakibi analyses fully the timing and causes of these three revolutions and reveals the important similarities between them *Revolutions and the Collapse of Monarchy* argues provocatively that it is often the monarch's own personality that provides the vital spark which produces revolution This ambitious and important book challenges the Marxist interpretation of history and adds a compelling new perspective to theories of revolution
