British Travel Writers in Europe 1750-1800 Katherine Turner, 2017-11-01 This title was first published in 2001 Hundreds of European travelogues produced by British travellers between 1750 and 1800 remain out of sight in most libraries and have generally been out of print since the 18th century While many people with a working knowledge of the 18th century are familiar with works including Sterne s *A Sentimental Journey* and Smollett s *Travels through France and Italy* those produced by less literary travellers are largely unknown This study aims to recreate the world of 18th century travel writing in order to illuminate its central role in shaping Britain s emerging sense of national identity an identity which proves to be more complex and less homogeneous than some cultural and historical studies would suggest The author finds that the developing discourse of national character is bound up with questions of gender national and authorial virtue are projected in terms of appropriately gendered behaviour for male and female travel writers alike In turn gender intersects with class most obviously in the tendency to denigrate aristocratic travellers as effeminate and celebrate the more manly activities of the middle class traveller These then national identity authorship and gender are the central preoccupations of the study

Subject to Others (Routledge Revivals) Moira Ferguson, 2014-08-01 First published in 1992 *Subject to Others* considers the intersection between late seventeenth to early nineteenth century British female writers and the colonial debate surrounding slavery and abolition Beginning with an overview that sets the discussion in context Moira Ferguson then chronicles writings by Anglo Saxon women and one African Caribbean ex slave woman from between 1670 and 1834 on the abolition of the slave trade and the emancipation of slaves Through studying the writings of around thirty women in total Ferguson concludes that white British women as a result of their class position religious affiliation and evolving conceptions of sexual difference constructed a colonial discourse about Africans in general and slaves in particular Crucially the feminist propensity to align with anti slavery activism helped to secure the political self liberation of white British women A fascinating and detailed text this volume will be of particular interest to undergraduate students

Unthinking Eurocentrism Ella Shohat, Robert Stam, 2014-06-05 Unthinking Eurocentrism a seminal and award winning work in postcolonial studies first published in 1994 explored Eurocentrism as an interlocking network of buried premises embedded narratives and submerged tropes that constituted a broadly shared epistemology Within a transdisciplinary study the authors argued that the debates about Eurocentrism and post coloniality must be considered within a broad historical sweep that goes at least as far back as the various 1492s the Inquisition the Expulsion of Jews and Muslims the Conquest of the Americas and the Transatlantic slave trade a process which culminates in the post War attempts to radically decolonize global culture Ranging over multiple geographies the book deprovincialized media cultural studies through a polycentric approach while analysing in depth such issues as postcolonial hybridity antinomies of Enlightenment the tropes of empire gender and rescue fantasies the racial politics of casting and the limitations of positive image analysis The substantial new afterword in this 20th anniversary new edition brings these issues into the present by charting recent transformations of the intellectual debates as terms such as the transnational the commons indigeneity and the Red Atlantic have come to the fore The afterword also explores some cinematic trends such as indigenous media and postcolonial adaptations that have gained strength over the past two decades along with others such as Nollywood that have emerged with startling force Winner of the Katherine Kovacs Singer Best Film Book Award the book has been translated in full or in its entirety into diverse languages from Spanish to Farsi This expanded edition of a ground breaking text proposes analytical grids relevant to a wide variety of fields including postcolonial studies literary studies anthropology media studies cultural studies and critical race studies
