Fateful Split:

Betwixt & Between Louise Carus Mahdi, Steven Foster, Meredith Little, 1987 *Betwixt and Between* offers new insights into the basic elements of initiations and rites of passage. The absence of these traditional supports creates problems in the lives of those who are caught in the void and lack definite expectations at various times of their lives. The chapters on masculine and feminine initiation provide new and creative concepts and practical possibilities for each of us. Initiation has been a missing component in the modern world and needs to be re-introduced with new understanding and consciousness.

The Fateful Split Chris Ryder, 2004 This title presents the graphic and often disturbing story of a uniquely controversial institution from its formation as a barrier between sectarian factions to its contentious and tragic role in the Troubles since the 1970s domestic discord including Gladstone's failed Home Rule Acts of the late 19th century the partition of Ireland the horror of the Troubles and the establishment of the brittle Good Friday Agreement in which amid accusations of sectarian bias the RUC was generally recognised as an impediment to reconciliation and began its transformation into the Police Service of Northern Ireland in 2001. *The Pangolin Club* Dabana Marotsi, 2019-01-29 The book explores how the political economic social policies of the government from the time of independence from the British government in 1980 have led to economic collapse. It highlights how corruption has resulted in the gap between the rich and the poor widening while at the same time there was a lot of disruption in the lives of ordinary people which saw them moving to different countries because of the dismal conditions that were a result of the corruption. It also touches on the issue of human trafficking and disregard of proper environmental practices that have led to ecological disasters and encouraged the outbreak of diseases such as cholera in certain areas. **Identities in Transition** Paige Arthur, 2010-12-13 In many societies histories of exclusion racism and nationalist violence often create divisions so deep that finding a way to deal with the atrocities of the past seems nearly impossible. These societies face difficult practical questions about how to devise new state and civil society institutions that will respond to massive or systematic violations of human rights recognize victims and prevent the recurrence of abuse. *Identities in Transition: Challenges for Transitional Justice in Divided Societies* brings together a rich group of international researchers and practitioners who for the first time examine transitional justice through an identity lens. They tackle ways that transitional justice can act as a means of political learning across communities foster citizenship trust and recognition and break down harmful myths and stereotypes as steps toward meeting the difficult challenges for transitional justice in divided societies. *Stalin and the Struggle for Supremacy in Eurasia* Alfred J. Rieber, 2015-08-25 This is a major new study of the successor states that emerged in the wake of the collapse of the great Russian Habsburg Iranian Ottoman and Qing Empires and of the expansionist powers who renewed their struggle over the Eurasian borderlands through to the end of the Second World War. Surveying the great power rivalry between the Soviet Union Nazi Germany and Imperial Japan for control over the Western and Far Eastern boundaries of Eurasia Alfred J. Rieber provides a new framework for understanding the

evolution of Soviet policy from the Revolution through to the beginning of the Cold War Paying particular attention to the Soviet Union the book charts how these powers adopted similar methods to the old ruling elites to expand and consolidate their conquests ranging from colonisation and deportation to forced assimilation but applied them with a force that far surpassed the practices of their imperial predecessors

Daniel's Return Nancy Garfield Woodbridge, 2012-09-28 Daniel's Return tells the story of a Hopi Indian boy who is forced to leave his family and friends on the Hopi Indian Reservation in Arizona to attend compulsory Bureau of Indian Affairs schools that at the time the 1950s separated Native American children from their tribal cultures in an effort to assimilate them into the dominant Anglo culture At school he is taught that his race is inferior his religion is evil and his way of life is primitive and that only by adopting the culture religion and values of white society will he ever make something of himself Daniel's father died before his son was born so for Daniel growing up without a father is made doubly difficult by being torn away from his mother his uncle and his whole way of life He runs away from every school he is sent to until the government authorities decide to send him to a school so far from his family that he will never be able to find his way home again But in this they are wrong because Daniel in running away from this last school is also running away from an abusive army colonel who tries to exploit Daniel's innocence for his own twisted purposes In the end Daniel successfully escapes from his new school his powerful abuser and a system designed to uproot Native American children from their homes and annihilate their identity The narrative is rich in Hopi myth legend and history and takes place against the backdrop of postwar America when nuclear testing in the deserts of the American Southwest was routine and the Enforced Assimilation Era in Native American history was in full swing

Lemoncelli, 2012-04-06 Written directly to individuals who have experienced childhood trauma this book provides essential information that allows victims to begin recovering from their immense pain and suffering and empowers them to examine their specific issues in order to become a true survivor The American Medical Association currently estimates at least one in every five adults suffered abuse as a child While childhood abuse or trauma is certainly not a new issue it has reached epidemic proportion Yet most clinicians have not been sufficiently trained to appreciate or understand the devastating long term impact of abuse on the total person John J Lemoncelli EdD authored this book to enable those who suffer in silence to understand what happened take control and begin and maintain a program of recovery It helps those abused in childhood to grasp how their experience impacted their development and the extent to which it negatively affects their present lives encourages them to let go of the belief that they

are damaged dirty or at fault and provides an effective strategy for externalizing the source of their anguish rather than blaming themselves The author outlines several stages and common issues that may need to be addressed but as no one size fits all treatment is possible he provides strategies that empower victims to identify the specific sources of their pain

A State of Nine One One D. L. Harman, M.D., 2006-08-17. In this book, the reader will discover that we all have the ability in a matter of minutes to destroy the people we love most. Based on a shocking true story, *A State of Nine One One* is an account of facts that everyone who loves someone should know. A physician and single mother is trying to raise her family right. An anonymous meeting with John F. Kennedy Jr. changes her life for the better. When the pretty doctor is seduced by a dashing alleged Mafia member, she finds her life exploding. Desperate to make sense of the tragic, surrealistic events in her life, the doctor turns to a psychiatrist for help and characterizes a deadly disease in young people. *Deeper Learning with Psychedelics* David J. Blacker, 2024-06-01. In both clinical and informal settings, psychedelics users often report they have undergone something profound and even life-altering. Yet there persists a confounding inability to articulate just what has been imparted. Informed by multidisciplinary emerging research, this book provides an account of the specifically educational aspects of psychedelics and how they can render us ready to learn. Drawing from indigenous peoples worldwide who typically revere these substances as plant teachers and from canonical thinkers in the Western tradition such as Plato, Spinoza, Kant, and Heidegger, the author proposes an original set of categories through which to understand the educational capabilities of entheogens, psychedelics with visionary qualities. It emerges that entheogens' real power lies not in destabilizing and decentering, turning on and dropping out, but as powerful aids in restoring and reenchancing our shared worlds.

The Emergency of Being Richard Polt, 2013-07-23. The heart of history for Heidegger is not a sequence of occurrences but the eruption of significance at critical junctures that bring us into our own by

making all being including our being into an urgent issue In emergency being emerges from The Emergency of Being The esoteric Contributions to Philosophy often considered Martin Heidegger s second main work after Being and Time is crucial to any interpretation of his thought Here Heidegger proposes that being takes place as appropriation Richard Polt s independent minded account of the Contributions interprets appropriation as an event of emergency that demands to be thought in a future subjunctive mode Polt explores the roots of appropriation in Heidegger s earlier philosophy Heidegger s search for a way of thinking suited to appropriation and the implications of appropriation for time space human existence and beings as a whole In his concluding chapter Polt reflects critically on the difficulties of the radically antirationalist and antimodern thought of the Contributions Polt s original reading neither reduces this challenging text to familiar concepts nor refutes it but engages it in a confrontation an encounter that respects a way of thinking by struggling with it He describes this most private work of Heidegger s philosophy as a dissonant symphony that imperfectly weaves together its moments into a vast fugue under the leitmotif of appropriation This fugue is seeded with possibilities that are waiting for us its listeners to develop them Some are dead ends viruses that can lead only to a monolithic monotonous misunderstanding of history Others are embryonic insights that promise to deepen our thought and perhaps our lives if we find the right way to make them our own
